Career Frontiers Maury Peiperl, 2000 The topic of careers has become both increasingly important and increasingly complex Contemporary economies have brought about changes in the nature of careers and uncertainty in the structure and longevity of firms and their ability to offer long term employment Corporate policy makers struggle with alternatives to traditional employment structures while individuals struggle to decide whether and how they ought to become more independent of such structures pursuing what some have called post corporate or boundaryless careers This volume is an integrated survey of some of the best current thinking and research on careers Presented as a series of chapters by an international group of experts and knit together through themes and dialogues it advances our understanding of the deeper meaning of changes in careers and of the interrelationships and longer term consequences of those changes

Mid-Atlantic Electronic Warfare Range (MAEWR) Within Restricted Airspace R-5306A, 1989 Electronic Engineering, 1929 **Make: Maverick Scientist** Forrest M. Mims, 2024-02-14 Maverick Scientist is the memoir of Forrest Mims who forged a distinguished scientific career despite having no academic training in science Named one of the 50 Best Brains in Science by Discover magazine Forrest shares what sparked his childhood curiosity and relates a lifetime of improbable dramatic and occasionally outright dangerous experiences in the world of science At thirteen he invented a new method of rocket control At seventeen he designed and built an analog computer that could translate Russian into English and that the Smithsonian collected as an example of an early hobby computer While majoring in government at Texas A M

University Forrester created a hand held radar like device to help guide the blind And during his military service he had to be given special clearance to do top secret laser research at the Air Force Weapons Lab Why Because while he lacked the required engineering degree they wanted his outside the box thinking on the project He went on to co found MITS Inc producer of the first commercially successful personal computer wrote a series of electronics books for Radio Shack that sold more than seven million copies and designed the music synthesizer circuit that became known as the infamous Atari Punk Console All this came before he started consulting for NASA s Goddard Space Flight Center and NOAA s famous Mauna Loa Observatory and earning the prestigious Rolex Award This intimate portrait of a self made scientist shares a revelatory look inside the scientific community and tells the story of a lifelong learner who stood by his convictions even when pressured by the establishment to get in line with conventional wisdom With dozens of personal photos and illustrations Maverick Scientist serves as proof that to be a scientist you simply need to do science
