Looking at Buildings, 1996 *New Theory of Beauty* Guy Sircello, 2015-03-08 Ever since the eighteenth century when Kant opened the floodgates of subjectivism in aesthetics common men and philosophers alike have despaired of finding a basis for judgments about beauty This book provides a comprehensive theory that encompasses beauty in art and nature as well as intellectual utilitarian and moral beauty The author argues that the beauty of objects can be reduced to the beauty of properties of those objects which in turn can be understood in terms of properties of qualitative degree The theory developed first with respect to color is then extended to include all sensory and non sensory qualities The author shows how the theory explicates and resolves disagreements about what is beautiful and discusses its relevance to the traditional notions of harmony and sublimity His is an objectivist theory of beauty and it enables him in conclusion to demonstrate why we enjoy perceiving beauty Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

[America's Oddest Buildings](#) Katie Kawa, 2016-12-15 Architecture is a very special kind of art and sometimes it veers into the oddest places of our imaginations Buildings both inspired by the past and looking ahead to the future are common sights but America is full of goofy buildings in weird places from a building shaped like a picnic basket in Ohio to man made dinosaurs standing guard in California This book takes an exciting look at some of the strangest places in the United States with colorful photographs and engaging stories about the how and why of these oftentimes massive construction projects

Freaky-Strange Buildings Michael Sandler, 2011-08-01 Describes some of the most unusual buildings in the world including a hotel built of salt and an office building that looks like a basket and

compares their various features to similar characteristics of other things *Hearings* United States. Congress. House. Committee on Military Affairs, 1936 *Looking at Buildings* English Heritage, **Designing Responsive City Centers** Amir Shakibamanesh, Mahshid Ghorbanian, 2025-01-11 This book explores the history and evolution of city centers and provides practical guidance for designing successful city centers emphasizing the importance of urban design guidelines in achieving this goal With a focus on community engagement environmental quality and economic benefits the book offers a roadmap for creating vibrant dynamic and sustainable city centers that enhance the overall quality of life for their communities The book offers guidelines for urban design which can be used to apply the main principles and solutions related to landscaping building architecture and access systems The guidelines manifest development policies as key solutions and govern the qualitative aspects of the plan enabling the creation of responsive city centers that benefit their communities An invaluable resource for anyone interested in urban design and its role in shaping the cities of the future this book is an essential tool for creating successful and sustainable urban environments Building the Nation Steven Conn, Max Page, 2003 Some anthologies seem slapdash or opportunistic others are labors of love informed by a mastery of a particular field and a passion for sharing the heterogeneous richness of their documents Building the Nation is happily one of the latter Vastly useful Preservation **Modernism and Nation Building** Sibel Bozdoğan, 2001 A cultural history of modern Turkish architecture and its connections to European modernism **Kremers v. Alpine Township, 355 MICH 563 (1959)**, 1959 46 **Canada's Residential Schools: The History, Part 1, Origins to 1939** Truth and Reconciliation Commission of Canada, 2015-12-09 Between 1867 and 2000 the Canadian government sent over 150 000 Aboriginal children to residential schools across the country Government officials and missionaries agreed that in order to civilize and Christianize Aboriginal children it was necessary to separate them from their parents and their home communities For children life in these schools was lonely and alien Discipline was harsh and daily life was highly regimented Aboriginal languages and cultures were denigrated and suppressed Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self sustaining Child neglect was institutionalized and the lack of supervision created situations where students were prey to sexual and physical abusers Legal action by the schools former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008 The product of over six years of research the Commission's final report outlines the history and legacy of the schools and charts a pathway towards reconciliation Canada's Residential Schools The History Part 1 Origins to 1939 places Canada's residential school system in the historical context of European campaigns to colonize and convert Indigenous people throughout the world In post Confederation Canada the government adopted what amounted to a policy of cultural genocide suppressing spiritual practices disrupting traditional economies and imposing new forms of government Residential schooling quickly became a central element in this policy The destructive intent of the schools was compounded by chronic underfunding and ongoing

conflict between the federal government and the church missionary societies that had been given responsibility for their day to day operation A failure of leadership and resources meant that the schools failed to control the tuberculosis crisis that gripped the schools for much of this period Alarmed by high death rates Aboriginal parents often refused to send their children to the schools leading the government adopt ever more coercive attendance regulations While parents became subject to ever more punitive regulations the government did little to regulate discipline diet fire safety or sanitation at the schools By the period s end the government was presiding over a nation wide series of firetraps that had no clear educational goals and were economically dependent on the unpaid labour of underfed and often sickly children **Wisconsin Library**
