[Religion in American Politics](#) Frank Lambert, 2010-02-01 The delegates to the 1787 Constitutional Convention blocked the establishment of Christianity as a national religion But they could not keep religion out of American politics From the election of 1800 when Federalist clergymen charged that deist Thomas Jefferson was unfit to lead a Christian nation to today when some Democrats want to embrace the so called Religious Left in order to compete with the Republicans and the Religious Right religion has always

been part of American politics In Religion in American Politics Frank Lambert tells the fascinating story of the uneasy relations between religion and politics from the founding to the twenty first century Lambert examines how antebellum Protestant unity was challenged by sectionalism as both North and South invoked religious justification how Andrew Carnegie s Gospel of Wealth competed with the anticapitalist Social Gospel during postwar industrialization how the civil rights movement was perhaps the most effective religious intervention in politics in American history and how the alliance between the Republican Party and the Religious Right has in many ways realized the founders fears of religious political electoral coalitions In these and other cases Lambert shows that religion became sectarian and partisan whenever it entered the political fray and that religious agendas have always mixed with nonreligious ones Religion in American Politics brings rare historical perspective and insight to a subject that was just as important and controversial in 1776 as it is today **The Religious History of American Women** Catherine A. Brekus,2007 More than a generation after the rise of women s history alongside the feminist movement it is still difficult observes Catherine Brekus to locate women in histories of American religion In this collection of 12 essays contributors explore how considering the religious history of American women can transform our dominant historical narratives Covering a variety of topics including Mormonism the women s rights movement Judaism witchcraft trials the civil rights movement Catholicism everyday religious life Puritanism African American women s activism and the Enlightenment the volume enhances our understanding of both religious history and women s history Taken together these essays sound the call for a new more inclusive history Major Problems in American History Elizabeth Cobbs Hoffman,Jon Gjerde,2002 **Major Problems in the History of World War II** Mark A. leadership sought to fulfill its kingdom responsibility and secure its future Eventually a combination of religiously defined secular components coalesced into the term known simply as Americanism Building on the success of the new nation and supporting the causes of Americanism throughout the world has imprinted a uniquely evangelical construct into the domestic and foreign policy structures of the United States The shifting landscape of American culture drove evangelicalism into the margins in the 1970s while most scholars think that the decline of religious conservatism in culture meant that secularization controlled foreign policy as well this is not true Removed from the whims of domestic politics Protestant evangelical patterns of action have resisted change in American foreign policy structures Over time however the movement lost its faith distinctives while embedding religious principles in foundations of U S foreign policy This book seeks to produce a reorganized narrative through a critical synthesis to locate white evangelicals quest to be the foundational voice in America s shaping ideological lineage
