The AI Mirror Shannon Vallor, 2024 For many AI technology inspires hope for the future the promise of shared human flourishing and collective liberation from drudgery that defines the good life but always seems to elude our species Yet today's AI technology is forged from human generated data into immensely powerful but flawed mirrors that endlessly reflect the same errors biases and failures of wisdom we are striving to escape To open new futures for ourselves with these tools is as misguided as gazing into a mirror while trying to climb an uncharted mountain At this crucial juncture for humanity and our planet we need something new from AI and more importantly from ourselves We need to find new hope not to surrender our greatest moral and intellectual ambitions to machines that have none but to renew those ambitions collectively for ourselves Shannon Vallor makes a wide ranging prophetic and philosophical case for what AI could be and what we can be with it She calls us to reclaim our human potential for moral and intellectual growth rather than losing sight of our shared humanity as we gaze dully into our AI mirrors
