Make Your House Radon Free:

Make Your House Radon Free Carl H. Giles, Barbara Giles, 1990 **Make Your Home Free of Toxic Chemicals** Dale Stubbart, Nobody wants toxic chemicals in their home However many people do have such chemicals where they live but are unaware of these lurking dangers We live in a culture where toxic chemicals are just a part of life Or so it sometimes seems And they just seem to creep into our homes Once toxic chemicals are in our homes it may seem daunting almost impossible to get them out We try everything short of exorcism to be rid of them Sometimes nothing seems to work Over 30 years of attempts failures and successes at ridding our homes of toxic chemicals have led to the creation of this plan It takes a lot of work And you will no doubt be overwhelmed by it at first But the plan does work And the end results are worth both the time and the effort Removing toxic chemicals from a home often results in the inhabitants being better able to breathe being sick less often and having more energy It takes time But it can be accomplished step by step Do as much as you can And do what works for you Then move on to the next step You may need to come back to the first steps and perform the remaining tasks But eventually you will work out what works for you You will work out what rids your home from toxic chemicals to the point that you can live at peace with your home again *Environmental Engineering and Health Sciences* Jose A.
