Shopping All the Way to the Woods Rachel S. Gross, 2024-03-26 A

fascinating history of the profitable paradox of the American outdoor experience visiting nature first requires shopping No escape to nature is complete without a trip to an outdoor recreational store or a browse through online offerings This is the irony of the American outdoor experience visiting wild spaces supposedly untouched by capitalism first requires shopping With consumers spending billions of dollars on clothing and equipment each year as they seek out nature the American outdoor sector grew over the past 150 years from a small collection of outfitters to an industry contributing more than 2 percent of the nation's economic output Rachel S Gross argues that this success was predicated not just on creating functional equipment but also on selling an authentic anticommercial outdoor identity In other words shopping for the woods

was also about being or becoming the right kind of person Demonstrating that outdoor culture is commercial culture Gross examines Americans journey toward outdoor expertise by tracing the development of the nascent outdoor goods industry the influence of World War II on its growth and the boom years of outdoor businesses

Contact Zones Myra Rutherdale, Katie Pickles, 2011-11-01 Contact Zones locates Canadian women s history within colonial and imperial systems As both colonizer and colonized sometimes even simultaneously women were uniquely positioned at the axis of the colonial encounter the so called contact zone between Aboriginals and newcomers Some women were able to transgress the bounds of social expectation while others reluctantly conformed to them Aboriginal women such as E Pauline Johnson Bernice Loft and Ethel Brant Monture shaped identities for themselves in both worlds By recognizing the necessity to perform they enchanted and educated white audiences across Canada On the other side of the coin newcomers imposed increasing regulation on Aboriginal women s bodies Missionaries for example preached the virtues of Christian conjugality over mixed race and polygamous marriages especially those that hadn t been ratified by the church The Department of Indian Affairs agents withheld treaty payments or removed the children of Aboriginal women who did not properly perform their duties as wives and mothers In short Aboriginal women were expected to consent to moral sexual and marital rules that white women were already beginning to contest Contact Zones draws upon a vast array of primary sources to provide insight into the ubiquity and persistence of colonial discourse and to demonstrate how it ultimately was an embodied experience Above all it shows how the colonial enterprise was about embodied contacts What bodies belonged inside the nation who were outsiders and who transgressed the rules these are the questions at the heart of this provocative book Jean Barman s chapter from Contact Zones Aboriginal Women on the Streets of Victoria Rethinking Transgressive Sexuality during the Colonial Encounter won the award from the Canadian Committee on the History of Sexuality Cecilia Morgan s Performing for Imperial Eyes Bernice Loft and Ethel Brant Monture Ontario 1930s 60s from Contact Zones was awarded the Hilda Neatby Prize in Canadian Women s History

she needed and wanted more than anything a real mommy to tuck her in bed at night and tell her she loved her How was Ed to raise a child by himself when he was so busy at times with his thriving new business of custom wheat binding Then one day when Ed and Abbi were at the cemetery to wish Katrina a happy birthday a young teenage boy came riding a horse to deliver a telegram for Ed When Ed saw who the telegram was from he was so excited he could hardly read what it said

Laughter in the Mountains Mountain,2012 This book is a celebration of life Its astonishing view is from the perspective of someone living a simple isolated life in the Rocky Mountains as a mountain man Sylvan Ambrose Hart was born in the Oklahoma Territory in 1906 In the 1930 s while still a young man he walked into the Rocky Mountains and designed a unique life for himself in the wilds hunting fishing trapping panning gold crafting his own tools weapons shelter and clothes For almost fifty years he lived the life of a reclusive mountain man eventually gaining national fame as Buckskin Bill Last of the

Mountain Men In 1973 another young man studying philosophy in a private college back east found that he could no longer abide being shackled by the conventional wisdoms of our culture To the dismay of all who knew and loved him he dropped out of college and headed for the mountains He caught a train cross country to Montana then hopped a bus southbound skirting the Rocky Mountains At one point he simply stepped off the bus and walked into the mountains with only a backpack machete and knife no food or gun determined to learn what the mountains offered to teach or die trying After a few months of eating rattlesnakes ants and field mice this struggling newcomer to the mountains the author discovered the now old and grizzled mountain man living not only successfully but quite flamboyantly in the depths of the Rocky Mountain wilderness on the River of No Return Buckskin was an extraordinary man Anyone who ever met him walked away with stories and memories to be cherished for a lifetime Here are my favorite memories of the Last of the Mountain Men **The**

Brian Hayden,2022-06-15 This is a unique and engaging book on prehistoric stone tools It advocates an experiential approach in which analysts try to understand stone tool designs from the users perspectives and employs a universal logic of

designing tools to solve practical problems and evaluating various possible solutions. However, to do so, it is also necessary to understand how stone can be mechanically modified to serve specific functions. The author enlists a rich array of ethnographic observations and considerable background as a flintknapper to show the basic ways in which stones can be flaked and modified and what these characteristics can reveal about prehistoric problem-solving strategies and design constraints. This is an invaluable primer for anyone contemplating the study of prehistoric stone tools.
