Making A Spectacle

Jessica Glasscock

Making A Spectacle:

Making a Spectacle Jessica Glasscock, 2021-10-26 From 13th century Franciscan monks to Beyoncé in Black is King *Making a Spectacle* charts the fascinating ascension of eyeglasses from an unsightly but useful tool to fashion's must-have accessory. The power of glasses to convey a range of vivid messages about their wearers has made them into a billion-dollar business that appeals to cool kids and rock stars and those who want to be like them, but the fashionable history of eyeglasses is fraught with anxiety and drama. At the beginning of the 20th century the assessment in *Vogue* and *Harper's Bazaar* was that spectacles were invariably disfiguring. Invisibility was the best option and glasses were only to be put on once the lights at the opera went dark. While variations of that glasses-shaming sentiment appeared at regular intervals over the next 100 years or so, eyeglasses continued to evolve into an endless array of shapes, colors, purposes, and personalities. Once sunglasses took off in the 1930s, the magazine editorial made glasses a conspicuous part of the fashion narrative. Eyeglasses went to the ski slopes, the stables, the beach, the Havana hotel. Plastic innovations made a candy-colored rainbow of cat eyes and starlet styles possible. Suddenly everyone had the opportunity to look like Jackie O on vacation in Capri. *Making a Spectacle* traces contemporary high-fashion frames back to their origins: the military aviator, the glam cat eye, the nerdy Oxford, the high-tech shield, the fanciful butterfly, the lowly rimless, and other styles all make an appearance. Featuring interviews with influential designers, makers, and purveyors of glasses, including Adam Selman, Kerin Rose Gold, and Ila Eyeworks, *Making a Spectacle* also takes a look at today's most cutting-edge eyewear, showing the reader the latest and most innovative ways to see and be seen.

Making the Fascist Self Mabel Berezin, 2018-10-18 In her examination of the culture of Italian fascism, Mabel Berezin focuses on how Mussolini's regime consciously constructed a nonliberal public sphere to support its political aims. Fascism stresses form over content, she believes, and the regime tried to build its political support through the careful construction and manipulation of public spectacles or rituals, such as parades, commemoration ceremonies, and holiday festivities. The fascists believed they could rely on the motivating power of spectacle and experiential symbols. In contrast with the liberal democratic notion of separable public and private selves, Italian fascism attempted to merge the public and private selves in political spectacles, creating communities of feeling in public piazzas. Such communities were only temporary, Berezin explains, and fascist identity was only formed to the extent that it could be articulated in a language of pre-existing cultural identities. In the Italian case, those identities meant the popular culture of Roman Catholicism and the cult of motherhood. Berezin hypothesizes that at particular historical moments, certain social groups which perceive the division of public and private self as untenable on cultural grounds will gain political ascendancy. Her hypothesis opens a new perspective on how fascism works.

Popular Photography - ND ,1956-03 **Are You Watching Closely?** Seth Friedman,2017-08-16 Identifies a new genre misdirection films and explains its appeal to contemporary producers and audiences Are You Watching Closely is the first book to explore the recent spate of misdirection films a previously unidentified Hollywood genre characterized by narratives that inspire viewers to reinterpret them retrospectively Since 1990 Hollywood has backed more of these films than ever before many of which including The Sixth Sense 1999 A Beautiful Mind 2001 and Inception 2010 were both commercial and critical successes Seth Friedman examines this genre in its sociocultural industrial and technological contexts to explain why it has become more attractive to producers and audiences The recent popularity of misdirection films Friedman argues is linked to new technologies that enable repeat viewings and online discussion which makes it enticing to an industry that depends increasingly on the aftermarket as well as to historically specific cultural developments That is in addition to being well suited for shifting industrial and technological conditions these films are appealing because they suggest that it remains possible to know what actually occurred and who was really responsible for events at a time when it is also becoming increasingly recognized that truth is relative Are You Watching Closely shows how Hollywood s effective strategies for these changing circumstances put it at the forefront of a storytelling trend that has increasingly become important across media Through close analyses of how misdirection films have been designed marketed and received in relation to their contexts Friedman demonstrates the ways in which they epitomize a kind of narrative experimentation that has become a crucial facet of twenty first century audiovisual storytelling
