Making Musicals Tom Jones, 1998 Based on lectures given at Hunter College New York City **Making Music, Making Society** Josep Martí, Sara Revilla, 2018-01-23 A society is the result of interacting individuals and individuals are also the result of this interaction This interaction happens through music among other factors As such music constitutes a powerful resource for symbolic interaction which constitutes the medium and substance of a culture The importance of music in a society is clearly brought to light in the role that it plays in the three basic parameters of the social logics identity social order and the need for exchange If music is so important to us it is because apart from its assigned aesthetic values it fits closely with the dynamics of each of these three different parameters These parameters which are consubstantial to the social nature of the human being constitute the core of the book as they manifest in musical practices This publication addresses important issues such as the role of music in shaping identities how music and social order are intertwined and why music is so relevant in human interaction The last part of the book explores issues related to the social application of musical research The volume brings together specialists from different academic disciplines with the same powerful starting point music is not merely something related to the social but rather a social life itself something capable of structuring the social experience *Making Time for Making Music* Amy Nathan, 2018 Are you a former music maker who yearns to return to music but aren't sure where to begin Or are you a person who never played music as a child but you are now curious about trying You're not alone Many adults who used to play an instrument haven't touched it in years because either they can't find the time to practice are afraid their skills are too rusty or are unsure of what kind of group they could join Others are afraid to sing or start playing an instrument because they received negative feedback from childhood experiences Performing practicing and composing music may seem like unattainable goals with insurmountable obstacles for busy adults with non-musical careers Making Time for Making Music can help adults find ways to make music part of their lives The first book of its kind it is filled with real life success stories from more than 350 adults who manage to fit music making into their jam-packed schedules They polished rusty skills found musical groups to join and are having a great time Their testimonies prove that you are never too old to learn to make music and that there are numerous musical paths to explore Featuring advice from dozens of music educators health care professionals and music researchers who point out that making music can even be good for your health as well as an extensive resource list of websites organizations and summer programs this book offers inspiration and tried and true strategies for anyone who wishes to return to music making or begin as an adult *Girls Rock!
