Therefore, given the increasing globalisation of markets, international reform efforts for the harmonised modernisation of secured transactions law have gained pace over recent years. *International Secured Transactions Law* draws on experiences in both English and US laws in order to identify and illustrate the existing problems that need to be addressed as well as identify potential solutions. *International Secured Transactions Law* will be of interest to scholars, students interested in international commercial law, corporate law or comparative secured transactions and practitioners involved in international commercial transactions.

Arbitration and Human Rights Toms Krūmiņš, 2020-08-12 This book presents a creative synthesis of two ostensibly disparate fields of law: arbitration and human rights. More specifically, it focuses on various legislative approaches to excluding the annulment of arbitral awards, setting aside proceedings at the seat of arbitration and evaluates the compatibility of such approaches with the European Convention on Human Rights (ECHR), in particular the right to a fair trial under Article 6.1. The book first assesses the applicability and impact of the ECHR, in particular Article 6.1, on international commercial arbitration. It then analyses a number of legislative

approaches to excluding setting aside proceedings focusing on two synergetic phenomena exclusion agreements and the total lack of setting aside proceedings in national arbitration law Lastly the book investigates to what extent the lack of setting aside proceedings in national arbitration law may lead to a violation of arbitrating parties right to a fair trial under Article 6 1 and puts forward certain de lege ferenda recommendations on how to best approach the regulation of setting aside

proceedings in national arbitration law from the standpoint of compliance with the ECHR **The Illicit Trade in Art and Antiquities** Janet Ulph,Ian Smith,2015-11-05 This new text provides practical guidance on the modern law relating to cultural objects which have been stolen looted or illegally exported It explains how English criminal law principles including money laundering measures apply to those who deal in cultural objects in a domestic or international setting It discusses the recovery of works of art and antiquities in the English courts where there are competing claims between private individuals or between individuals and the UK Government or a foreign State Significantly this text also provides an exposition of the law where a British law enforcement agency or a foreign law enforcement agency is involved in the course of criminal or civil proceedings in an English court The growth of relevant international instruments which include not only those devoted to the protection of mankind s cultural heritage but also those concerned with money laundering and serious organised crime provide a backdrop to this discussion The UK s ratification of the UNESCO Convention on Means of Prohibiting and Preventing the Illicit Import Export and Transfer of Ownership of Cultural Property 1970 in 2002 is considered The problems posed in attempting to curb trafficking in art and antiquities are explored and the effectiveness of the current law is analysed

The Emergence of EU Contract Law Lucinda Miller,2011-09-22 The emergence of a pan European contract law is one of the most significant legal developments in Europe today The Emergence of EU Contract Law Exploring Europeanization examines the origins of the discipline and its subsequent evolution It brings the discussion up to date with full analysis of the debate on the Common Frame of Reference and the future that this ambiguous instrument may have in the contemporary European legal framework One of the central themes of the book is exploration of the multi level open architecture of the EU legal order and the implications of that architecture for the EU s private law programme The analysis demonstrates that the key to understanding European contract law in the 21st century lies in adopting a perspective and mechanisms suitable for a legal order populated by multiple sources of private law Legal pluralism is offered as a theoretical construct with the capacity to shape the future of European private law shifting the analytical spotlight beyond the traditional centralized legislative means of regulation In so doing softer mechanisms are introduced for the governance of contract law mechanisms that enable coordination between the different sites at which contract law operates This reorientation in thinking about European contract law indeed about Europeanization itself enables the inevitable diversity and pluralism that is a feature of multi level Europe to be captured within a framework that maximizes the opportunities for mutual learning and exchange across private law sites **Equity & Trusts** Alastair Hudson,2014-05-27 This new edition considers all of the academic

commentary governing the area of equity and trusts in particular the emerging law of restitution and the raft of new case law over the 1990s It is suitable both as a scholarly reference and as a resource for students
