Mexican Highland Cultures Sigvald Linné, 2003 Presents the broad picture and analysis of excavations at three cultural centers in central Mexico This classic work published in 1942 ten years after archaeological excavations were begun in the Valley of Mexico by Linn s team presents additional data that had not been fully detailed in the previously published *Archaeological Researches at Teotihuacan* It provides comparative information on the high status ruins situated on the fringes of the Valley of Mexico and excavation results from a compound within the city of Teotihuacan This information is of critical use to archaeologists still excavating at Teotihuacan in projecting compound extent types of artifacts expected to be discovered and patterns of artifacts to be found in particular types of rooms The characteristics of burials is also explored This book along with its predecessor is an important primary resource for Americanists Staffan Brunius s foreword offers a broad background of Linn s life and work The introduction by George Cowgill focuses more specifically on the conduct and impact of the archaeological excavations G C Vaillant has stated The greatest achievement of Dr Linn from the viewpoint of the general student is the presentation of a technical field excavation in such terms that anyone can follow his text and see the relationship between the details of position of specimens and the larger problems of history and anthropology Sigvald Linn was Professor of Ethnography at the University of Stockholm and Director of the Swedish National Museum of Ethnography until 1969 He published several other books including *The Technique of South American Ceramics* Staffan Brunius is Curator of the Americas at the National Museum of Ethnography in Stockholm George L Cowgill is Professor of Anthropology at Arizona State University and coeditor of *The Collapse of Ancient States and Civilizations* Additional reviews This book makes Linne s work widely available again to those interested and may prompt a new generation of specialists to examine the original material either in Stockholm s National Museum of Ethnography Mexico s Museo Nacional de Antropología or the Teotihuacan site itself Testament to the lasting value of Linne s work is given in a succinct and helpful new introduction by anthropologist George L Cowgill A more recent curator of the Americas at Stockholm s ethnographical museum Steffan Brunius also chips in with a brief contextualization of Linne s work against the background of the early Swedish American tradition The Historian

Archaeological Researches at Teotihuacan, Mexico Sigvald Linné, 2003-03-26 The field data and archaeological analysis of the first controlled excavations of the vast City of the Gods in central Mexico In 1932 the Ethnographical Museum of Sweden sent an archaeological expedition to Mexico under the direction of Sigvald Linn to determine the full extent of this ancient Teotihuacan occupation and to collect exhibit quality artifacts Of an estimated 2 000 plus residential compounds at Teotihuacan only 20 apartment like structures were excavated at the time Yet Linn s work revealed residential patterns that have been confirmed later in other locations Some of the curated objects from the Valley of

Mexico and the adjacent state of Puebla are among the most rare and unique artifacts yet found. Another important aspect of this research was that with the aid of the Museum of Natural History in Washington, Linn's team conducted ethnographic interviews with remnant native Mexican peoples whose culture had not been entirely destroyed by the Conquest, thereby collecting and preserving valuable information for later research.

The Mesoamerican World System, 200–1200 CE Peter Jiménez, 2020-08-27 This is the first application of the comparative approach of world systems analysis in Mesoamerican archaeology.

Palaces and Courtly Culture in Ancient Mesoamerica Julie Nehammer Knub, Christophe Helmke, Jesper Nielsen, 2014-01-19 This volume collects eight recent and innovative studies spanning the breadth of Mesoamerica from the Early Classic metropolis of Teotihuacan to Tenochtitlan, the Late Postclassic capital of the Aztec, and from the arid central Mexican highlands in the west to the humid Maya lowlands in the east.

Ancient Teotihuacan George L. Cowgill, 2015-04-06 Long before the Aztecs and 800 miles from Classic Maya centers, Teotihuacan was part of a broad Mesoamerican tradition but had a distinctive personality. This book synthesizes a century of research, including recent finds and covers the lives of commoners as well as elites.

Teotihuacan and Early Classic Mesoamerica Claudia García-Des Lauriers, Tatsuya Murakami, 2022-02-14 The Early Classic period in Mesoamerica has been characterized by the appearance of Teotihuacan-related material culture throughout the region. Teotihuacan, known for its monumental architecture and dense settlement, became an urban center around 100 BC and a regional state over the next few centuries, dominating much of the Basin of Mexico and beyond until its collapse around AD 650. Teotihuacan and Early Classic Mesoamerica explores the complex nature of Teotihuacan's interactions with other regions from both central and peripheral vantage points. The volume offers a multiscalar view of power and identity, showing that the spread of Teotihuacan-related material culture may have resulted from direct and indirect state administration, colonization, emulation by local groups, economic transactions, single-event elite interactions, and various kinds of social and political alliances. The contributors explore questions concerning who interacted with whom, what kinds of materials and ideas were exchanged, what role interregional interactions played in the creation, transformation, and contestation of power and identity within the city and among local polities, and how interactions on different scales were articulated. The answers to these questions reveal an Early Classic Mesoamerican world engaged in complex economic exchanges, multidirectional movements of goods and ideas, and a range of material patterns that require local, regional, and macroregional contextualization. Focusing on the intersecting themes of identity and power, Teotihuacan and Early Classic Mesoamerica makes a strong contribution to the understanding of the role of this important metropolis in the Early Classic history of the region. The volume will be of interest to scholars and graduate students of Mesoamerican archaeology, the archaeology of interaction, and the archaeology of identity.

The

Teotihuacan Trinity Annabeth Headrick, 2013-03-15 Northeast of modern day Mexico City stand the remnants of one of the world's largest preindustrial cities Teotihuacan Monumental in scale Teotihuacan is organized along a three mile long thoroughfare the Avenue of the Dead that leads up to the massive Pyramid of the Moon Lining the avenue are numerous plazas and temples which indicate that the city once housed a large population that engaged in complex rituals and ceremonies Although scholars have studied Teotihuacan for over a century the precise nature of its religious and political life has remained unclear in part because no one has yet deciphered the glyphs that may explain much about the city's organization and belief systems In this groundbreaking book Annabeth Headrick analyzes Teotihuacan's art and architecture in the light of archaeological data and Mesoamerican ethnography to propose a new model for the city's social and political organization Challenging the view that Teotihuacan was a peaceful city in which disparate groups united in an ideology of solidarity Headrick instead identifies three social groups that competed for political power rulers kin based groups led by influential lineage heads and military orders that each had their own animal insignia Her findings provide the most complete evidence to date that Teotihuacan had powerful rulers who allied with the military to maintain their authority in the face of challenges by the lineage heads Headrick's analysis also underscores the importance of warfare in Teotihuacan society and clarifies significant aspects of its ritual life including shamanism and an annual tree raising ceremony that commemorated the Mesoamerican creation story The Legacies of The Basin of Mexico Carlos E.
