

co interviene para examinar el estado de funcionamiento de la práctica administrativa; tiene derecho a obtener la información oportuna y puede pedir examinar la práctica junto con el oficio competente, fijando eventualmente un término para la regularización o el perfeccionamiento del procedimiento. Donde persistan irregularidades, insuficiencias, impedimentos que comporten violaciones del principio de eficiencia de la acción administrativa, sigue señalamiento al superior jerárquico para eventuales sanciones disciplinarias. Donde se verifique hipótesis de delito, sigue informe a la autoridad judicial y penal. Sobre los resultados de los cotejos actuados, además, se envían siempre relaciones semestrales o anuales al consejo regional.

El defensor cívico no tiene en esto particulares poderes de sanción respecto de la administración, pero, a través de la intervención en cada procedimiento, las indicaciones que puede enviar a la administración y las relaciones al consejo parece capaz de ejercer cierta influencia en la corrección de la acción administrativa regional.

[GIUSEPPE DE VERGOTTINI]

opinión pública

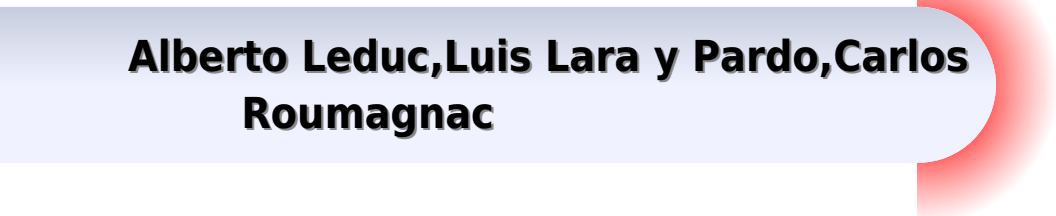

1. DEFINICIÓN. La o. pública lo es en un doble sentido: sea en el momento de su formación, porque no es privada y nace de un debate público, sea por su objeto, que es la cosa pública. En cuanto "opinión" siempre es opinable, cambia con el tiempo y puede ser objeto de disensión: de hecho, expresa más juicios de valor que juicios de hecho, que pertenecen a la ciencia y a los expertos. En cuanto "pública", o lo que es lo mismo perteneciente al ámbito o al universal político, habría que hablar de opiniones en plural, porque en el universal político no hay espacio para una sola verdad política, para una epistemocracia. La o. pública no coincide con la verdad, por lo mismo que es opinión, doxa y no episteme, pero, en lo que se forma y afirma en el debate, expresa una actitud racional, crítica y bien informada.

La existencia de la o. pública es un fenómeno de la edad moderna: de hecho presupone una sociedad civil separada del estado, una sociedad libre y articulada, en la que hay centros que consienten la formación de opiniones no individuales, tales como los periódicos y las revistas, los clubes y los salones, los partidos y las asociaciones, la bolsa y el mercado, o sea un público de particulares asociados, interesados en controlar la política del gobierno, aunque no se desarrolle una actividad política inmediata.

Por eso la historia del concepto de o. pública coincide con la formación del estado moderno que, con el monopolio de la fuerza, le ha quitado a la sociedad corporativa todo carácter político, relegando al individuo a la esfera privada de la moral, mientras que la esfera pública o política queda por completo
