From the Trade Paperback edition *The Logic of Compromise in Mexico* Gladys I. McCormick, 2016-02-10 In this political history of twentieth century Mexico Gladys McCormick argues that the key to understanding the immense power of the long ruling Partido Revolucionario Institucional PRI is to be found in the countryside Using newly available sources including declassified secret police files and oral histories McCormick looks at large scale sugar cooperatives in Morelos and Puebla two major agricultural regions that serve as microcosms of events across the nation She argues that Mexico s rural peoples despite shouldering much of the financial burden of modernization policies formed the PRI regime s most fervent base of support McCormick demonstrates how the PRI exploited this support using key parts of the countryside to test and refine instruments of control including the regulation of protest manipulation of collective memories of rural communities and selective application of violence against critics that it later employed in other areas both rural and urban With three peasant leaders brothers named Rub n Porfirio and Antonio Jaramillo at the heart of her story McCormick draws a capacious picture of peasant activism disillusion and compromise in state formation revealing the basis for an enduring political culture dominated by the PRI On a broader level McCormick demonstrates the connections among modern state building in Latin America the consolidation of new forms of authoritarian rule and the deployment of violence on all sides **Literary Culture and U.S. Imperialism** John Carlos Rowe, 2000 John Carlos Rowe considered one of the most eminent and progressive critics of American literature has in recent years become instrumental in shaping the path of American studies

His latest book examines literary responses to U S imperialism from the late eighteenth century to the 1940s Interpreting texts by Charles Brockden Brown Poe Melville John Rollin Ridge Twain Henry Adams Stephen Crane W E B Du Bois John Neihardt Nick Black Elk and Zora Neale Hurston Rowe argues that U S literature has a long tradition of responding critically or contributing to our imperialist ventures Following in the critical footsteps of Richard Slotkin and Edward Said *Literary Culture and U S Imperialism* is particularly innovative in taking account of the public and cultural response to imperialism In this sense it could not be more relevant to what is happening in the scholarship and should be vital reading for scholars and students of American literature and culture
