Muckraking Sociology Research As Social Criticism Transaction Society Series Ta S 27:

Beyond Conflict and Containment Milton J. Rosenberg, 1972-01-01 In recent years a small but growing number of social scientists have undertaken critical analyses of America's international policies and the fruits of these policies. Their work has exerted considerable influence upon the policymaking process primarily by energizing the informed activism to which those in the highest councils of power must respond. This book contains major contributions by scholars outside the policy establishment. It examines the United States foreign aid program and delineates its disappointing and sometimes injurious consequences. It probes into strategic arms policy to illuminate its special dangers and its contribution to international instability. It attempts an accounting of the moral costs of interventionism. Finally, it discusses possibilities for change in elite leadership styles and in the roles played by social scientists as they examine the policy works of those elites. Publisher

The Sexual Scene John H. Gagnon, William Simon, The new morality has excited countless public and private formal and informal scientific and non-scientific sober and frankly provocative discussions. Those aspects related to sexual relationships and sexual behavior and the meaning of our moral breakdown have been much discussed. The essays in this volume address themselves to a more subtle and potentially more meaningful question: What is the extent of deviance from traditional patterns of sexual relationships and what have been the legal and political implications of widespread transgression of legal and for many personal codes or morality? This volume confronts the myths and the realities of the sexual revolution in America. As such, it helps explain the limits as well as the goals of a new generation in search of new standards of conduct.

Social Science and National Policy Fred R. Harris, *Campus Power Struggle* Michael Sherraden, 2017-09-04 *Campus Power Struggle* traces the explosive evolution of the student political movement from the Berkeley Free Speech Movement of 1964 to armed confrontation at Cornell in 1969. From campus conflict as a microcosm of larger political struggles for self-determination to student concern about infringements upon personal liberties, the studies in this book provide authoritative insight into unrest on American campuses. This volume represents sociology as the big news in its most impressive and involved style. No. 1 in the series. Contents: Introduction: The Struggle for Power on the Campus; Howard S. Becker, *Beyond Berkeley*; Joseph Gusfield, *Columbia: The Dynamics of a Student Revolution*; Ellen Kay Tnmberger, *The Crisis at San Francisco State*; James McEvoy and Abraham Miller, *Confrontation at Cornell*; William H. Fried and Harry Edwards, *The Phantom Racist*; Rita James Simon and James Carey, *Dynamic Young Fogies*; Rebels on the Right; Lawrence F. Schiff, *Ending Campus Drug Incidents*; Howard S. This collection of essays

brings social scientific evidence to bear on the question of the inevitability of war and evaluates the potential for managing the international system in the interest of peace instead of war The contributors discuss methods of lowering distrust among DEGREES nations they consider whether war persists because it has become an economic necessity built into a military industrial complex They deal with implications of expansion of the military into civilian areas such as education and into increasingly sophisticated technology such as the ABM Safeguard system They discuss the involvement of social scientists in the formulation of peace and war policy Collectively these essays present the most serious questions social scientists have been asking about problems of war and peace and offer hope that the present international system dangerous and appallingly costly as it is may offer enough stability to give us time to transform it into something that better serves human needs
