The result is a wide ranging and longitudinal exploration of the enduring impact of years spent boarding which challenges narrow and exclusively empirical measures currently used to define success in education Used as instruments of repression and assimilation boarding or residential schools have played a long and contentious role throughout the settler colonial world In Canada and North America the full scale of human tragedy associated with residential schools is still being exposed By contrast in contemporary Australia boarding schools are characterised as beacons of opportunity and hope places of empowerment and in the best of cultural restitution In this work young people interviewed over a span of seven years reflect in real time on the intended and unintended consequences boarding has had in their own lives They relate expected and dramatically unexpected outcomes They speak to the long term benefits of education and to the intergenerational reach of education policy This book assists practitioners and policy makers to critically review the structures policies and cultural assumptions embedded in the institutions in which they work to the benefit of First Nations students and their families It

Student Behaviour at School Anna Sullivan, Bruce Johnson, Bill Lucas, 2016-05-20 This is a deliberately provocative book It critiques current student behaviour management practices seeks to explain the flawed assumptions that justify those practices and proposes how things could be better for children in our schools if different practices were adopted It is one of the few books to offer alternative ways of addressing the issues associated with student behaviour at school and exposes the field to serious and sustained critique from both a research perspective and a children's rights ideological stance. The authors address the following questions What ideas dominate current thinking on student behaviour at school What are the policy drivers for current practices. What is wrong with common behaviour approaches What key ideologies justify these approaches. How can we present ethical alternatives to current approaches. How can a human rights perspective contribute to the development of alternative approaches. In exploring these questions and some ethical alternatives to the status quo the authors suggest practical ways to answer back to calls for more authoritarian responses to student behaviour within our schools. In doing so the authors advocate for reforms on behalf of children and in their interests
