Savagery & Skills Ciara Graves, *Fae Vampires Mages Demons A Federal Paranormal Unit* Savagery and Skills will hook you Seneca Savage is a bad ass with skills Not the kind of skills that one puts on a formal resume She's the daughter of a mage and a fae and now she's an orphan and a former street kid She's had the kind of life nightmares are made of When she turned eighteen things changed Running into a vampire has a way of changing one's life Too bad the vampire didn't realize she was part fae and that her blood was toxic to him Toxic in the most lethal of ways Except the encounter changed her Now she freelances selling her skills and her savagery to the paranormal government or any other individual who can afford her fee She'll spy steal and even kill She has only one rule She won't kill humans That's the rule She maneuvers between assignments and skirts death while at the same time tries to look out for the little human sidekick that she'd like to shake on most days Warning Unputdownable action packed fantasy with fae vampires mages demons and a Federal Paranormal Unit

Feminisms and Womanisms Althea Prince, Susan Silva-Wayne, 2004 *Feminisms and Womanisms* brings together theory and practical application so that feminist discourse interacts as a partner with the lived experience of women's social action The selections combine classics in feminist thought with work from modern theorists and offer a solid foundation in international feminism The conceptual understanding embedded in the terms feminism and womanism contributes to feminist discourse a carefully differentiated focus on the ideological uses of language to define relationships that have been historically mired in domination The terms also define the way gender often has been used to signify and support domination Given that feminism and womanism are interpretive concepts there is always a sense that knowledge making is in progress for there is nothing static or stagnant about feminism feminist theory and feminist

action The formative nature of the feminist movement has of necessity a parallel interpretive theory This reader embraces both the formative nature of the movement and the accompanying interpretive theories It also pays attention to the chronological cultural geopolitical racial and ethnic landscapes and sites where women live carry out social action and theorize issues of equality For both the general and academic reader this book will be edifying while providing exposure to the feminist womanist voices that inform the scholarship
