

My Own Philosophy in Life

My philosophy of Life is we have to accept what we are, and what we have in our lives, live the life that we have today, and the people who inspire and support us every day. Because acceptance leads to acknowledging the facts of every circumstance and the awareness to solve the issues and all the challenges we face. What we have in our lives is the reason for us to stand and fight for who we are in the future, we must implement the desire in our lives to have a peaceful and joyful life as long as we cannot create harm to other people. We can't ignore the people who became our inspiration in life, this is also one of the reasons why we keep fighting every day because it motivates us to do something that makes us happy. Especially the one who supports us from we were born until now.

I come up with this idea with knowledge and life experience because I envy other peoples lives who have happy, luxurious, different living or traditional lives. Early Unmeet moments from childhood experiences and to the present. Sometimes I also question myself "Why do I have this kind of life?" "Why can't have what other people have?" , but still I am grateful to have this kind of life with my family.

Taboo Tabernacle A.W. Archer,2016-11-18 At the end of the day Taboo Tabernacle isnt just about taboo topics like sex drugs rock n roll religion politics faith witchcraft and cannabis It isnt even about science math history medicine justice or apologetics although there is much of that in it Its about connecting people to Christ in a way that can not only surprise them but can electrify them From the depths of space to the lowest sub atomic particle in the human body the sustainers fingerprint is everywhere I want to help people get so excited about Gods amazing love that they cant stop talking about it From the balanced believer to the super secularist I believe that all people suffer from false presuppositions about life and

the way things are at one point or another Whether its from the way we were raised something traumatic that happened to us growing up or perhaps it is simply the default consensus opinion of the culture we are currently in we all have presuppositions some true and some false I would like all of us to start breaking down the man made walls of false presupposition that separate us today and replace them with bridges of truth and understanding from a biblical worldview that makes sense in both the physical world and spiritual realm Get ready to look at life through a whole new lens

that the author advances in this book is that paradox and contradiction constitute the two ways of the world Paradox represents the way of the people of the Bible and contradiction represents the way of all peoples who having lived without knowledge of the Bible have traditionally been known as gentiles or pagans The two ideas that are central to the biblical way of life as known historically by Jews Christians and Muslims are creation and covenant while the contradictory way of paganism has precisely been marked by the absence of these two concepts In his book the author distinguishes the paradoxical way of the world from the contradictory way of the world through the examination of principal texts of four of the most significant early modern European thinkers from the later sixteenth century to the earlier eighteenth century Montaigne Descartes Spinoza and Vico He shows that each of these four authors in distinctive yet fundamentally interrelated fashion provides us with profound insight into how absolutely different the paradoxical way of the world as biblical is from the contradictory way of the world as found primarily and specifically in Greek and Roman antiquity **Armor** ,1981
