Joys and Sorrows of Imaginary Persons Donald Wesling, 2008 Joys and Sorrows of Imaginary Persons is a literary approach to consciousness where Donald Wesling denies that emotion is the scandal or handmaid of reason rather emotion is the co creator with reason of human life in the world Discoveries in neuro science in the 1990s Decade of the Brain have proven that thinking and feeling are wrapped with each other and regulate and fulfill each other Accepting this co creative equality we reveal a new role for literature or a traditional role we've repressed literature as a set of processes in time where we've thought feeling through stories about the lives of imaginary persons We need these stories in order to practice emotions for when we return to the world from reading Donald Wesling argues that to be more accurate in our dealings with stories we require a grammar of this new recognition where we build up traditional stylistics by a more careful tracking of emotion states as these are set into writing The first half of Joys and Sorrows of Imaginary Persons offers a creative stock taking of the current state of scholarship on emotion based on wide reading in several fields The second half gives three focused studies rich in examples of emotion as cognition as story and as historical structure of feeling *Slipknot Tours* ,
