Christopoulos,2022-10-12 This volume is part of a series intended as a salute to the pioneering work of science fiction film makers from the golden age of science fiction films of the 1950s The films in this volume feature monsters that stand as metaphors for the fears of the time when people had genuine concerns about atomic power and the atom bomb s potential for the first time in human history to bring about the end of human civilisation For instance in the case of Godzilla 1954 the film is an allegory for the destruction and devastation unleashed on Japan by the atomic bomb with the 400 foot tall mutant dinosaur Gojira serving as the visual metaphor Such monsters represent forces of nature awakened by human science that once brought into being cannot be controlled **Dr Robert Maldron and the Yeti** Hermione Chase,2014-04-26 Its 1955 and the most recent expedition to the Himalayas has failed Its purpose was to locate the whereabouts of the mythical Soma plant The Soma plant is supposedly unique to the Himalayan Mountains and according to Nepalese legend it has restorative powers to cure and heal and some say to prolong life Its exact location was thought to have been found 10 years earlier with the discovery of a photograph of a strange plant that resembled a 4 leaf clover It was amongst equipment salvaged from a previous expedition where all participants perished This had fueled further exploration financed by large pharmaceutical companies keen to find the plant and synthesis medicines that might make millions of dollars for their shareholders The latest attempt present day saw the expedition team killed under mysterious circumstances with the exception of one Sherpa guide The survivor escapes with two broken legs having jumped from a cliff edge while his compatriots were left back at base camp mutilated The Sherpa s account spoke of an attack rather than an avalanche An attack by a mountain man as the locals term the creature Western culture call it a Yeti or an Abominable Snowman The Dakin Foundation a leading pharmaceutical research company who provided funding for the expedition is undeterred and it seeks help from New York University School of Medicines top researcher Eleanor Steed to carry out a second expedition to find the Soma plant Steed is terminally ill with months to live and accepts the commission keeping her condition a secret She does not necessarily believe in the plant s existence or its properties it is just an opportunity to be involved in one last piece of fieldwork in a place she had never visited Her condition is managed through medication Elsewhere in the world a number of countries are testing bombs in the pacific and Australian outback These man made effects on the earth s environment create a number of breaches between the earth plain and that of the Continuum As was the case several thousand years earlier a breach opened briefly amongst the Himalayan Mountains The Continuum Council acts swiftly to close the doorway but not before a creature called a Yetiad steps through Unlike the family of Yetiad that did the same thousands of years before this single Yetiad comes through unprepared Instead of a wise knowledgeable creature living in harmony with Tibetans it is an angry murderous creature whose sole objective is to find the Soma plant now it has tested blood Blood and the sap of the Soma plant combined prolong

the life of the Yetiad and has the capability of doing the same for humans The Continuum Council contacts Project Earth Director Max Von Konsetin telepathically seeking his help to stop the rampant Yetiad Max in turn asks for the help of part human part vampire Robert Maldron Maldron is seconded into Steed's team While Steed searches for the Soma plant Maldron must deal with the Yeti the shortened name given by the Tibetan monks The Change Agent Damon West,2019-03-19 Sentenced to sixty five years in a Texas prison Damon West once had it all He came from a great family in a home full of God love support and opportunities to reach any goal A natural born leader an athlete with good looks and charm he appeared to be the all American kid pursuing his dreams Underneath this facade however was an addict in the early stages of disease After suffering childhood sexual abuse by a babysitter at the age of nine Damon began putting chemicals into his body to alter the way he felt Once he was introduced to methamphetamines however he became instantly hooked and the lives of so many innocent people would forever be changed by the choices he made in order to feed his insatiable meth habit After a fateful discussion during his incarceration with a seasoned convict Damon had a spiritual awakening He learned that like a coffee bean changing with the application of heat and pressure he was capable of changing the environment around him Armed with a program of recovery a renewed faith and a miraculous second chance at life Damon emerged from over seven years of prison a changed man His story of redemption continues to inspire audiences today
