## **14 Letters to a Friend, the Story of the Wartime Ordeal of Capt. De Witt Clinton Fort, C.S.A.**

*Our Palestine Question* Geoffrey Levin, 2023-11-28 A new history of the American Jewish relationship with Israel focused on its most urgent and sensitive issue the question of Palestinian rights American Jews began debating Palestinian rights issues even before Israel's founding in 1948 Geoffrey Levin recovers the voices of American Jews who in the early decades of Israel's existence called for an honest reckoning with the moral and political plight of Palestinians These now forgotten voices which include an aid worker turned academic with Palestinian Sephardic roots a former Yiddish journalist anti-Zionist Reform rabbis and young left wing Zionist activists felt drawn to support Palestinian rights by their understanding of Jewish history identity and ethics They sometimes worked with mainstream American Jewish leaders who feared that ignoring Palestinian rights could foster antisemitism leading them to press Israeli officials for reform But Israeli diplomats viewed any American Jewish interest in Palestinian affairs with deep suspicion provoking a series of quiet confrontations that ultimately kept Palestinian rights off the American Jewish agenda up to the present era In reconstructing this hidden history Levin lays the groundwork for more forthright debates over Palestinian rights issues American Jewish identity and the U.S.-Israel relationship more broadly

**Of Friends and Foes** Mark Crescenzi, 2018-01-25 How do countries form reputations Do these reputations affect interstate politics in the global arena Reputations abound in world politics but we know little about how state reputations form and how they evolve over time We frequently use words like trust credibility resolve integrity risk known commodity and brand to name a few overlapping with reputation like a Venn diagram As a result the concept of reputation often gets stretched or diluted weakening our ability to ascertain its role in cooperation and conflict In this book Crescenzi develops a theory of reputation dynamics to help identify when reputations form in ways that affect world politics both in the realms of international conflict and cooperation A reputation for honoring one's obligations in a treaty for example can make a state a more attractive ally A reputation for war and conflict can trigger more of the same leading to a cycle of violence that exacerbates security challenges While these processes of cooperation and conflict seem distinct they are linked by a common use of the information held in each state's reputation In each case states use reputational information in an attempt to resolve the uncertainty they face when crafting foreign policy decisions With this

theory in place Crescenzi uses a blend of historical and empirical analysis to convince the reader that reputations do indeed matter in world politics Moreover we are able to identify patterns of reputation s influence in international relations He demonstrates that over time and across the globe reputations for conflict exacerbate crises while reputations for cooperation and reliability make future cooperation more likely

**My Friend, the Messiah** Ray Green,2003 I met John on a deserted beach He was confused disoriented dirty and had lost his memory When we made eye contact the skin on my arms and chest froze and a lump of fear suddenly developed in my throat Our fingers touched and I experienced a sudden wave of peace like a golden sunset My wife and I agreed to help John and escort him to New York where he knew he must address the United Nations Security Council In New York John performs miracles in Central Park conducts an impromptu sermon to 5 000 people resurrects a fatally injured girl and convinces the UN delegates to act My intrigue is the constant uncertainty of John s origins and his true nature Is he a messiah an alien or a unique man with incredible powers We travelled with him to Jerusalem Rome and Switzerland where five million people gather to hear John speak I finally understood who he was and why he came He was My Friend The Messiah all he said was let there be light

**The Genogram Casebook: A Clinical Companion to Genograms:**

**Assessment and Intervention** Monica McGoldrick, 2016-08-16 A long awaited workbook companion to Monica McGoldrick's highly successful textbook Genograms. This clinical companion to the bestselling Genograms Assessment Intervention uses case examples to articulate the most effective ways to use genograms in clinical practice. Widely utilized by family therapists and health care professionals the genogram is a graphic way of organizing the mass of information gathered during a family assessment and finding patterns in the family system for more targeted treatment. For a client with cutoff relationships or a history of trauma it can be hard to talk to a therapist about past and present relationships. Genograms are a non intrusive and non confrontational way to learn about a client's history and chart crucial complex information for effective assessment and therapy. The Genogram Casebook deploys richly detailed case examples to address resistance to genograms, overcoming dysfunctional relationship patterns working with couples navigating issues of divorce and remarriage using genograms in family sessions with children repairing conflict and cutoff with family members looking at the therapist's own family and much more. It's a vibrantly practical decisively essential guide to the use of genograms in mental health practice.

*The Gospel for Buddhists and the Dharma for Christians* Donovan Roebert, 2009-01-02 In this book Donovan Roebert provides a path for Christians and Buddhists who wish to better understand the essential living tenets of their own faith while exploring how these two great religious paths can provide insights of real benefit to adherents of either. Without lapsing into syncretism or demanding a departure from orthodoxy this book provides a sound and thorough basis on which Christians and Buddhists and all those seeking greater insight into faiths other than their own can explore the rich possibilities for learning from one another. Beyond describing in detail the doctrines and practices of Christianity and Buddhism this book describes the authentic human path of religious development with a strong focus on the problem of self or ego in spiritual growth discussing obstacles to growth and exploring their remedies. Brief histories of both religions are provided enabling the reader to understand how diversity is an inevitable consequence of historical development and rather than standing as a problem in religious dialogue is always a means to spiritual enrichment. *The Gospel for Buddhists and the Dharma for Christians* is the fruit of a personal spiritual journey of thirty years. It demonstrates that the search for religious freedom becomes richer and more rewarding when a spacious mind engages with rather than flees from religious paths outside of its own tradition. Finally it is a plea for sincere friendship across factitious religious divides.

**The Origins of Violence** Anatol Rapoport,2020-02-18 In this fundamental analysis Rapoport asks Why do we have wars Doesn t humanity always seem on the verge of self annihilation Is there something in human genetic structure that makes people want to kill each other Perhaps this impulse is a matter of good versus evil or just plain human nature Rapoport moves beyond cliches by claiming that the sources of modern violence reside in the imbalance between a lag in the system of values inherited from the past and the structure of science and technology that awaits no revision of values to move ahead As a result Rapoport argues that the study of war and peace should be considered a science just like biology or for that matter political science The same rules of empirical engagement and experimentation should apply Before we can have a theory of peace we need a methodology of conflict Using the writings of thinkers who have made significant contributions to the predominant ideas and ideals of our society Rapoport weaves together the strands of independent thought and research into a single thought provoking work After investigating the whys of violence using ideological psychological strategic and systemic perspective Rapoport moves to an in depth analysis of possible varieties of conflict resolution He explores such mechanisms as mediation education and applying the results of scientific research He documents the impact of ideologies countervailing dominant ones that place obstacles in the way of peacemaking Rapoport argues that conciliation and game theories can be utilized to replace the concept of winner take all or total victory **The Origins of Violence** is a needed contribution to our understanding of warfare and provides a forward looking perspective that can be of wide use to each of the policy sciences starting with military strategy and ending with international development **Peace** Anatol Rapoport,1992 In Peace An Idea Whose Time Has Come noted mathematician and peace researcher Anatol Rapoport explores the evolution of the idea of peace and explains why it is displacing war as a viable institution Professor Rapoport

ventures into uncharted philosophical territory by drawing on both the natural and the social sciences to trace the development of the ideas of war and peace He argues that the theory of evolution and processes analogous to natural selection can explain not only biological events but also the development of the institution of war Thus the clashes of armed hordes at the dawn of history were the ancestors of our present battles using automated weapons while Isaiah s prophecy of total disarmament And they shall beat their swords into ploughshares anticipates the resolutions of the United Nations Rapoport explains that although the institution of war enjoys a long history and continues to be a policy option today it may soon fall into disuse either by losing its relevance to modern life or by destroying the civilizations that practice it He then calls attention to ideas that lie dormant until people s ideational environment becomes receptive to their germination peace Anatol Rapoport believes is one such idea Peace continues in the interdisciplinary tradition that has taken root in inquiries at the nexus of science and philosophy No specific technical knowledge is expected of the reader only a willingness to venture into little charted areas of thought
