Chen,2020-07-24 This title was first published in 1979 The reopening of China in 1971 by President Richard Nixon has already been regarded as a turning point of China s foreign policy and international politics It has facilitated the reestablishment of Peking s diplomatic relations after the Cultural Revolution broadened the dimension of

China's international political economic and cultural activities and promoted China's campaign against hegemonism of the superpowers. Its impact on China's relationships with the outside world, particularly the United States and Third World countries, is immeasurable. This volume explores the three world theory, which is China's Mao Tse-tung's new concept of world politics after the Sino-American rapprochement. This concept originally developed from the Soviet two-camp theory of 1947 has an immediate connection with Peking's intermediate zone theory of 1964. The Story of One Man's Journey in Faith
