W. Burchfield, 1972

My Life as an Astronaut Alan Bean, 2013-06-06 The astronaut who landed on the moon in November 1969 and also lived and worked in Skylab in 1973 tells about his past and present life which is devoted to painting scenes from the American experience in space Landing on the Moon At last we were nearly there We d come a long long way and in a matter of minutes we would come to rest on the rocky dusty surface of the Moon And I knew that in all of history only two human beings astronauts Neil Armstrong and Buzz Aldrin had walked on the Moon Soon Pete would become the third person to walk across this barren landscape Then it would be my turn It was a moment I had dreamed of an achievement for which I had spent years working and training My Life as an Astronaut, **The Astronaut's Wife** The Astronaut's Wife Stacey Morgan, 2022-02-08 A true story about making the most of your one incredible life On July 20 2019 Stacey Morgan kissed her husband goodbye before he donned his space suit and headed to his waiting Soyuz rocket With an overwhelming mix of pride excitement and terror she and her children held hands and watched the rocket ignite and lift off for a nine month mission aboard the International Space Station This is the story of the astronaut s wife And it s full of unexpected twists she never saw coming Because while the love of her life orbited Earth Stacey was about to embark on a knock your socks off adventure right here at home Being an astronaut s wife was different than Stacey expected The risks were greater the loneliness was deeper and the stress was more intense It was an incredibly challenging yet deeply meaningful season one in which she learned rich lessons about preparing for any mission or adventure life throws at you rediscovering your fun side when you ve been trapped in survival mode too long trusting God s strength when you feel like you re hitting the wall choosing the path of hope in the face of fear and uncertainty Containing behind the scenes glimpses into a side of space flight that most of us will never experience The Astronaut s Wife is a funny poignant and meaningful exploration of living life to the fullest no matter where you roam **Vision For Space** Joe Lennox, 2004-08 3 2 1 ignition liftoff and my life changed forever On a wintry day in February 1962 John Glenn rocketed into space stirring the dreams and imagination of a young boy Reading everything I could find while saving and collecting countless space mementos became a passion and way of life While the Lennox Space Museum began as a joint venture with my sister after a little more than 10 years of fun filled adventures I was operating solo

As the collection continued to grow my thoughts turned to a career in the space program Lacking the courage to even think about being an astronaut I headed for aeronautical college with the goal of being a NASA flight controller Just as the plans for space missions don t always follow the normal flight plan my goal of helping to send humans into space got derailed because of serious eye problems Every mission has alternative strategies though and successes happen when you least expect them Vision For Space tells this motivating story as well as giving you an interesting review of space program history It also describes the creation of my space museum a museum that is now called the largest private collection in the Country Tales of witnessing an Apollo launch getting a personal tour of the Space Shuttle meeting astronauts and the completion of hair brained and wacky schemes will take you on the journey through my very lucky life the journey of an ordinary Joe

Just for Boys Presents My Life as an Astronaut Alan Bean, Beverly Fraknoi, 1988 The astronaut who landed on the moon in November 1969 and also lived and worked in Skylab in 1973 tells about his past and present life which is devoted to painting scenes from the American experience in space
