**My Own Directions** Sheldon Epps, 2022-09-19 Life in the theatre is often a rollercoaster ride with all the excitement and occasional

anguish that come with the highs and lows The author's journey in the American theatre has been amplified by his experience as a Black man who has frequently been one of the few the first or even the only His directing career has been full of rewards and opportunities as well as huge challenges and frustrations along with the anger that has come from being chased by race for so many years Much of the author's experience comes from two decades artistic director of Pasadena Playhouse one of the oldest and well known theatres in America and for a time early in his career one of the whitest This is the story of how the author came into leadership at Pasadena Playhouse after a successful career directing on Broadway in London and all over the world It relates how the theatre was radically changed and reignited by his leadership including his insistence on making diversity a priority onstage and off This is the very personal story of a person who wanted his race to be recognized but never used as a reason to be less than fully respected In many ways this memoir tells the story of what people of color in America must face repeatedly to make their lives matter I Am a Counselor: Now What! **Constructing the Spanish Empire in Havana** Evelyn Jennings, 2020-12-16 *Constructing the Spanish Empire in Havana* examines the political economy surrounding the use of enslaved laborers in the capital of Spanish imperial Cuba from 1762 to 1835. In this first book-length exploration of state slavery on the island, Evelyn P. Jennings demonstrates that the Spanish state's policies and practices in the ownership and employment of enslaved workers after 1762 served as a bridge from an economy based on imperial service to a rapidly expanding plantation economy in the nineteenth century. The Spanish state had owned and exploited enslaved workers in Cuba since the early 1500s. After the humiliating yearlong British occupation of Havana beginning in 1762, however, the Spanish Crown redoubled its efforts to purchase and maintain thousands of royal slaves to prepare Havana for what officials believed would be the imminent renewal of war with England. Jennings shows that the composition of workforces assigned to public projects depended on the availability of enslaved workers in various interconnected labor markets within Cuba, within the Spanish empire, and in the Atlantic world. Moreover, the site of enslavement, the work required, and the importance of that work according to imperial priorities influenced the treatment and relative autonomy of those laborers, as well as the likelihood they would achieve freedom. As plantation production for export purposes emerged as the most dynamic sector of Cuba's economy by 1810, the Atlantic networks used to obtain enslaved workers showed increasing strain. British abolitionism exerted additional pressure on the slave trade. To offset the loss of access to enslaved laborers, colonial officials expanded the state's authority to sentence deserters, vagrants, and fugitives—both enslaved and free—to labor in public works such as civil construction, road building, and the creation of Havana's defensive forts. State efforts in this area demonstrate the deep roots of state enslavement and forced labor in nineteenth-century Spanish colonialism and in capitalist development in the Atlantic world. *Constructing the Spanish Empire in Havana* places the processes of building and sustaining the Spanish empire in the imperial hub of Havana in a comparative perspective with other sites of empire building in the Atlantic world. Furthermore, it considers the human costs of reproducing the Spanish empire in a major Caribbean port, the state's role in shaping the institution of slavery, and the experiences of enslaved and other coerced laborers both before and after the beginning of Cuba's sugar boom in the early nineteenth century. **My**
