The Colours the Words Cast Christopher Butler,Anne-Marie Simon-Vandenberg,2025-08-29 This book examines the use of colour terms in the poetry of Dylan Thomas adopting a primarily linguistic and stylistic rather than literary approach Although critical studies of the poetry of Dylan Thomas abound systematic and detailed linguistic studies of his poems are relatively rare The authors main aim is to investigate in detail the use of colour terms and in particular to link this to the associations between colours and their connotative symbolic meanings which form the basis for what have been called colour metaphors They also provide a rich database of these associations which will be of use to researchers who may be interested in the use of colour terms in other texts whether literary or non literary This book will be of interest primarily to academics and advanced students in the field of linguistic stylistics SYSTEM ON THE FARM A MANAGEMENT PLAN PAUL HACKETT,1917 Report of the Chief of the Bureau of Animal Industry, United States Department of Agriculture United States. spending money on them Humanists exercised their scholarship writing about them Pastors saved souls delivering sermons on them Nobles forged alliances competing with them Foreigners and indigenes negotiated with one another through trading them The nexus between animal human relationships and early modern identity is illuminated in this volume by the latest research of international scholars working on the history of art literature and of sixteenth and seventeenth century Germany France England Spain and South Africa Collectively these essays investigate how animals horses dogs pigs hogs fish cattle sheep birds rhinoceroses even sea monsters and other creatures served people in Europe England the Americas and Africa to defend contest or transcend the boundaries of early modern identities Developments in the methodologies employed by scholars to interrogate the past have opened up an intellectual and discursive space for and a concomitant recognition of the study of animals as a topic that significantly elucidates past and present histories Relevant to a considerable array of disciplines the study of animals also provides a means to surmount traditional disciplinary boundaries through processes of dynamic interchange and cross fertilization

Bulletin ,1919 *One Good Mama Bone* Bren McClain,2021-11-12

A mama cow's devotion to her calf provides lessons in motherhood to a poor Southern woman in this novel of family survival and human-animal bonds. South Carolina 1950s Homemaker Sarah Creamer has been left to care for young Emerson Bridge, the product of an affair between Sarah's husband and her best friend. But beyond the deep wound of their betrayal, Sarah is daunted by the prophecy of her mother's words seared in her memory since childhood: "You ain't got you one good mama bone in you girl." When Sarah finds Emerson, a steer to compete at an upcoming cattle show, the young calf cries in distress on her farm. Miles away, his mother breaks out of a barbed wire fence to find him. When Sarah finds the young steer contently nursing a large cow, her education in motherhood begins. But Luther Dobbins is desperate to regain his championship cattle dynasty and he will stop at nothing to win. Emboldened by her budding "mama bone," Sarah is committed to victory even after she learns the winning steer's ultimate fate. Will she too stop at nothing even if it means betraying her teacher? *One Good Mama Bone* explores the strengths and limitations of parental love and the ethical dilemmas of raising animals for food.

The Island Nicholas Jenkins,2024-06-11

Nicholas Jenkins explores war, love, and politics in the early works of W. H. Auden, one of the twentieth century's most controversial and moving poets. Auden's poems embraced both haunted meditations on World War I and lyrical visions of English national identity until, in the mid 1930s, he lost faith in the artistic potential of such myths.
