The changes in the global environment such as the demise of the socialist system initiation of globalization the declining position of international organizations and reduction in the importance of forums like NAM have made it imperative for India to review its old foreign policy nuances For long India hardly regarded the countries of Southeast Asia and South Pacific as priority areas despite the latter s cultural political economic and strategic significance The long spell of mutual alienation understandably gave way to mutual distrust and suspicion This dark period in India s relations with the countries of Southeast Asia and South Pacific was however brought to an end following the reshaping and reorientation of India s foreign policy manifest in the vigorous pursuit of Look East policy it was Prime Minister Narasimha Rao who concentrated on forging links and enhancing cultural economic political and strategic cooperation with Southeast Asia and transformed this important urge into India s foreign policy initiative that culminated in Look East policy India s engagement with the Association of Southeast Asian Nations ASEAN started with its Look East Policy in the year 1991 ASEAN has a membership of 10 countries namely Brunei Darussalam Cambodia Indonesia Laos PDR Malaysia Myanmar Philippines Singapore Thailand and Vietnam India became a sectoral dialogue partner of ASEAN in 1992 and full dialogue partner in 1996 In November 2001 the ASEAN India relationship was upgraded to the summit level Consequently the latter had already registered impressive progress in the field of economy strategy and cultural relations between India and ASEAN

**Weapons of Mass Destruction and International Order** William Walker, 2019-10-24 First Published in 2005 How should the problem of order associated with weapons of mass destruction be understood and addressed today Have the problem and its solution been misconceived and misrepresented as manifested by the problematic aftermath of Iraq War Has 9 11 rendered redundant past international ordering strategies or these still discarded at our own peril These are questions explored in this Adelphi Paper      **Global India** Chris

Ogden,2023-01-06 India's anticipated rise to prominence in what has been termed the Asian 21st century will have a significant impact upon geopolitics in the coming decades. As India's stature continues to increase across Asia and the world, appreciating which interests and principles structure the country's international interaction has never been more important. Central to these dynamics is how India's identity and the longstanding values, principles, and practices underpinning it acts as the paramount factor that deeply structures the conduct of its international affairs. Acknowledging this centrality, this edited volume uses this factor as its foremost theme of analysis through which to understand and analyse India's most important regional, great power, and diplomatic interactions. Not only providing a mechanism better to appreciate the historical foundations of these relationships, the focus on identity is also necessary to appreciate how the Hindu nationalism of the ruling Bharatiya Janata Party (BJP) under the leadership of Narendra Modi is now permeating Indian diplomacy. For the BJP, the pursuit and attainment of global influence and heightened status is the driving imperative, with regard to India's contemporary international affairs. [Theorizing Indian Foreign Policy](#) Mischa Hansel, Raphaëlle Khan, Méliсса Levaillant, 2017-04-21. Examined from a non-Western lens, the standard International Relations (IR) and Foreign Policy Analysis (FPA) approaches are ill-adapted because of some Eurocentric and conceptual biases. These biases partly stem from first the dearth of analyses focusing on non-Western cases, second the primacy of Western-born concepts and methods in the two disciplines. That is what this book seeks to redress. Theorizing Indian Foreign Policy draws together the study of contemporary Indian foreign policy and the methods and theories used by FPA and IR while simultaneously contributing to a growing reflection on how to theorise a non-Western case. Its chapters offer a refreshing perspective by combining different sets of theories, empirical analyses, historical perspectives, and insights from area studies. Empirically, chapters deal with different issues as well as varied bilateral relations and institutional settings. Conceptually, however, they ask similar questions about what is unique about Indian foreign policy and how to study it. The chapters also compel us to reconsider the meaning and boundary conditions of concepts, e.g. coalition government, strategic culture, and sovereignty in a non-Western context. This book will appeal to both specialists and students of Indian foreign policy and International Relations Theory. *India* Stephen P. Cohen, 2004-05-13. For years, Americans have seen India as a giant but inept state. That negative image is now obsolete. After a decade of drift and uncertainty, India is taking its expected place as one of the three major states of Asia. Its pluralist secular democracy has allowed the rise of hitherto deprived castes and ethnic communities. Economic liberalization is gathering steam with six percent annual growth and annual exports in excess of 30 billion. India also has a modest capacity to project military power. The country will soon have a two-carrier navy and is developing a nuclear armed missile capable of reaching all of Asia. This landmark book provides the first comprehensive assessment of India as a political and strategic

power since India's nuclear tests its 1999 war with Pakistan and its breakthrough economic achievements Stephen P Cohen examines the domestic and international causes of India's emergence he discusses the way social structure and tradition shape Delhi's perceptions of the world and he explores India's relations with neighboring Pakistan and China as well as the United States Cohen argues that American policy needs to be adjusted to cope with a rising India and that a relationship well short of alliance but far more intimate than in the past is appropriate for both countries India in the World Order Baldev Raj Nayar, T. V. Paul, 2003 Table of contents Political Conflict and Arms Control Nasir Mehmood, 2023-01-24 This book offers a comprehensive analysis of the evolution and development of arms control processes as an integral part of the Pakistan India grand dialogue which took place from 1988 to 2008 and it examines the larger political context and its impact on arms control processes Nasir Mehmood prioritizes four types of political conflicts Jammu and Kashmir hostile domestic politics dissimilar military doctrines and China as a third party Mehmood determines their connection and function in restricting arms control during three major rounds of broader security dialogue between Pakistan and India 1988 1994 1997 1999 and 2004 2008 Through these major rounds of dialogue there are patterns of interaction within and across three sub cases This volume which offers a systematic survey of bilateral arms control processes within the local settings and includes critical theoretical and policy insights shall be of interest to students and scholars interested in security studies and international relations theory with a focus on the strategic horizon of South Asia **India's Ocean** David Brewster, 2014-03-26 This book assesses India's role as a major power in the Indian Ocean Many see the Indian Ocean as naturally falling within India's sphere of influence but as this book demonstrates India has a long way to go before it could achieve regional dominance The book outlines the development of Indian thinking on its role in the Indian Ocean and examines India's strategic relationships in the region including with maritime South Asia the Indian Ocean islands East Africa the Middle East Southeast Asia and Australia The book then discusses India's ambivalent relationship with the United States and explores its attitude towards China's growing power in the Indian Ocean It concludes by discussing the region's evolving strategic order does India have what it takes to become the leading power in the region **Israeli Foreign Policy since the End of the Cold War** Amnon Aran, 2020-12-17 This is the first study of Israeli foreign policy towards the Middle East and selected world powers including China India the European Union and the United States since the end of the Cold War It provides an integrated account of these foreign policy spheres and serves as an essential historical context for the domestic political scene during these pivotal decades The book demonstrates how foreign policy is shaped by domestic factors which are represented as three concentric circles of decision makers the security network and Israeli national identity Told from this perspective Amnon Aran highlights the contributions of the central individuals societal actors domestic institutions and political parties that have informed and shaped Israeli foreign policy decisions implementation and outcomes Aran demonstrates that Israel has pursued three foreign policy stances since the end of the Cold War

entrenchment engagement and unilateralism and explains why *India in the Indo-Pacific* Aditi Malhotra, 2022-06-13 In view of the fast changing world order emerging countries are increasingly influencing the dynamics of regional securities This timely and in depth book examines India s reorienting strategic posture and describes how New Delhi s security policy in the Indo Pacific region has evolved and expanded over the past two decades The author argues that India s quest to leverage its geostrategic location to emerge as an Indo Pacific actor faces multiple challenges which create a clear divide between the country s political rhetoric and action on the ground The author critically examines these contradictions to better situate India s security role in an increasingly fluid Indo Pacific region **India's Saudi Policy** P. R.

Kumaraswamy, Md. Muddassir Quamar, 2018-09-29 The book traces India s Saudi Policy and locates the current state of bilateral relations and the challenges it faces It argues that during the Cold War the relations were largely shaped by the Pakistan factor which in turn inhibited both sides from exploring the importance and value of one another As a result the relations were largely transactional and marginal The end of the Cold War coincided with two interesting developments namely significant growth in India s economic power and influence and the de hyphenation of Pakistan from its Middle East policy This resulted in greater political engagements between India and Saudi Arabia and was strengthened by the growing energy trade ties For long expatriate population and haj have been the backbone of the relations and they have been new instruments as India looks to enhance its engagements with the Kingdom through investments opportunities political contacts shared security concerns and strategic cooperation India s Saudi policy however face many challenges most importantly the regional instability the Iran factor low oil price and the international dynamics The book will be the first comprehensive work on the India Saudi relations Though targeting a wider audience it will be academically grounded and based on primary sources collected from India and Saudi Arabia **Rising India** Prakash Nanda, 2007 Asian framework

Global environment Nuclear power Regional imperatives **China in India's Post-Cold War Engagement with Southeast Asia** Chietigj Bajpae, 2022-02-17 This book examines the role of China in driving and sustaining India s post Cold War engagement with Southeast Asia In doing so it provides a unique insight into the regional dimensions of the Sino Indian relationship India launched its Look East Policy in the early 1990s as part of a concerted effort to revive the importance of Southeast Asia in the country s foreign policy agenda This study assesses the role of the China factor defined here as China s regional role which has been interpreted through the prism of the Sino Indian relationship in the inception and evolution of the policy More specifically it establishes the extent to which China has been raised as a priority in discourses of India s Look East Policy and how this has varied over time from the origins of the policy through to the most recent phase of the renamed Act East Policy Addressing the distinction between what policymakers signal in their official statements and their true or underlying motivations the book alludes to the fact that government officials may not always reflect true intentions in their official statements and it is often what is not said that may reveal more about their real motivations This is particularly

relevant in the context of the Sino Indian relationship where diplomatic rhetoric often masks more competitive and confrontational aspects of the bilateral relationship. An important analysis of the interplay between India's relations with Southeast Asia and China, this book will be of interest to academics, policymakers and students in the fields of International Relations, Asian Security, Southeast Asian politics and in particular Indian foreign policy, the Sino Indian relationship and India's Look East Act, East Policy.

**Regional Leadership in the Global System** Daniel Flemer, 2016-04-08. We assume that the ideas, interests and strategies of regional powers are highly significant variables with the power to influence foreign policy. Yet while comparative research projects involving OECD countries are fairly common, comparative research integrating developing regions is still rare despite the fact that these countries are among the key actors of the twenty-first century. This collection emphasizes the role of regional powers in intra-regional, interregional and global contexts, analyzing the rise of regional powers from a comparative perspective. In so doing, the book explains how these powers have power to shape regional and global politics.

**Japan's Search for Strategic Security Partnerships** Gauri Khandekar, Bart Gaens, 2018-01-02. As tensions between China and Japan increase, including over the disputed islands in the East China Sea, Japan has adopted under Prime Minister Abe a new security posture. This involves internally adapting Japan's constitutional position on defence and externally building stronger international relationships in the Asia Pacific region and more widely. This book presents a comprehensive analysis of these developments. It shows how trust and co-operation with the United States, the only partner with which Japan has a formal alliance, is being rebuilt, discusses how other relationships, both on security and on wider issues, are being formed in the region and with European countries and the EU, with the relationships with India and Australia being of particular importance and concludes by assessing the likely impact on the region of Japan's changing posture and new relationships.

**Empires at War** Francis Pike, 2011-02-28. Asia, with four billion people, almost two-thirds of the world's population, a huge landmass and the fastest growing economies, has in the past decade transformed the geopolitical global balance. *Empires at War* gives a dramatic narrative account of how this Modern Asia came into being. Taking the bombing of Hiroshima on 6th August 1945 as its starting point, Francis Pike chronicles the modern fortunes of fourteen Asian countries. The iconic figures of post-World War II Asia—Mao, Gandhi, Nehru, Ho Chi Minh, Kim Il Sung, General MacArthur and Lord Mountbatten—figure prominently but so also do a great many lesser-known but pivotal figures. Francis Pike weaves the dramatic events and episodes of the region, the great battles between American and Soviet-backed forces in Korea and Vietnam, but also episodes such as Indian Partition, Japan's Lost Decade, Indonesia's Year of Living Dangerously and Cambodia's Killing Fields into a coherent whole which forms the essential guide to the history of modern Asia.
