Reflections on Statistics Susanne P. Lajoie, 1998 An issue in the current push for reform in mathematics education is the call to address statistics at the precollege level This volume represents the emerging findings of an interdisciplinary collaboration among a group of mathematics educators cognitive scientists teachers and statisticians to construct an understanding of how to introduce statistics education and assessment for students in elementary and secondary schools A premise shared by the contributors to this volume is that when students are introduced to statistics at the K 12 level and provided with opportunities to do statistics that are related to actual life situations they will be better prepared for decision making in the real world The interdisciplinary nature of the group of researchers stimulated a lively interchange of ideas for enhancing the learning teaching and assessment of statistical understanding which is reflected in this volume Mathematics educators contribute their insights into how teachers teach mathematical ideas and heighten our awareness of the ecological needs of the current mathematics classroom Cognitive scientists share their understanding of developmental differences in learning and present theoretical perspectives that contribute to the design of effective learning environments Classroom teachers share their ideas about classroom activities and assessment of student learning as well as their concerns for in service training and workshops to help teachers acquire

skills in this new content area Statisticians offer their understanding of what is feasible to teach in the early grades and what their view is of statistical literacy The book is organized around four interdependent themes content teaching learning and assessment By focusing their respective chapters on particular themes the authors intend to cultivate a better understanding of how each relates to improvements in statistics education This is the first book to address statistics learning in grades K 12 address issues of statistical curriculum content in grades K 12 address issues of assessment of statistics learning in grades K 12 bring issues of technology instruction and assessment in statistics education in grades K 12 and look at teacher education for statistics instruction in grades K 12 This is a must read book for both practitioners and researchers involved in K 12 mathematics education Mathematics Education Khoon Yoong Wong,2009 This title provides much food for thought and pointers to meet future challenges in mathematics education not only within Singapore but also in other countries

Mathematics Education: The Singapore Journey Khoon Yoong Wong,Peng Yee Lee,Berinderjeet Kaur,Pui Yee Foong,Swee Fong Ng,2009-02-19 This comprehensive book is a state of the art review of research and practices of mathematics education in Singapore It traces the fascinating journey from the original development of the Singapore mathematics curriculum in the 1950s to the present day and reports on diverse findings about the Singapore experience that are not readily available in print All of the authors are active mathematics educators or senior mathematics teachers in Singapore thus adding authenticity and distinctiveness to the stories covered in this book The issues they so earnestly explore in this book will undoubtedly be of interest to graduate students mathematics educators and the international mathematics education community *Resources in Education* ,1997
