Beyond the Nation Martin Joseph Ponce, 2012-02-01 Part of the American Literatures Initiative Series *Beyond the Nation* charts an expansive history of Filipino literature in the U S forged within the dual contexts of imperialism and migration from the early twentieth century into the twenty first Martin Joseph Ponce theorizes and enacts a queer diasporic reading practice that attends to the complex crossings of race and nation with gender and sexuality Tracing the conditions of possibility of Anglophone Filipino literature to U S colonialism in the Philippines in the early twentieth century the book examines how a host of writers from across the century both imagine and address the Philippines and the United States inventing a variety of artistic lineages and social formations in the process *Beyond the Nation* considers a broad array of issues from early Philippine nationalism queer modernism and transnational radicalism to music influenced and cross cultural poetics gay male engagements with martial law and popular culture second generational dynamics and the relation between reading and revolution Ponce elucidates not only the internal differences that mark this literary tradition but also the wealth of expressive practices that exceed the terms of colonial complicity defiant nationalism or conciliatory assimilation Moving beyond the nation as both the primary analytical framework and locus of belonging Ponce proposes that diasporic Filipino literature has much to teach us about

Asian American Poets Guiyou Huang,2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet s major works and themes

including such concerns as family racism sexism identity language and politics A survey of the poet s critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography
