New Europe Imagined Spaces:

New Europe Donald McNeill, 2014-05-12 *New Europe Imagined Spaces* traces the radical transformation of European places and spaces over the last two decades. Instead of the familiar schoolbook map of a Europe of nation states, the book unpacks the differing imaginations of European identity in recent years. Taking as its central problem the fluid nature of cultural and political identity, it moves firmly away from and calls into question the perspective of the nation state as the primary source of imagined identity for Europeans. The book contributes to key debates such as the emerging Europe of the Regions and the return of the city state, examines the rebranding of the nation state and explores the impact of Europeanisation on existing place identity. Emphasising mobility and movement, the chapters explore borderlands and travel and also include a detailed discussion of the everyday life of Europeans. Throughout, iconic images of contemporary Europe are invoked: EuroDisney, the Reichstag, Barcelona's Ramblas and the Bilbao Guggenheim, and the way in which mundane artefacts and practices such as football, walking, cars, food, passports and the Euro help construct identity is considered. *New Europe Imagined Spaces* adopts a multidisciplinary approach to studying Europe, providing students with an exploration of contemporary European space and place identity.

Cosmopolitan Spaces Chris Rumford, 2008-06-30 The book advances a provocative critical reading of both globalization theory and contemporary Europe. Concerned with questions of space, borders and governance, *Cosmopolitan Spaces* challenges conventional notions of cosmopolitanism and its relevance to conceptualizations of space and offers a fresh take on the meaning and implications of globalization.

Europe Old and New Ray Taras, 2009 Is Europe indeed uniting or instead falling apart as a result of anti-immigrant prejudices, a massive Islamic influx and ancient intra-European hatreds? This innovative and engaging book explores the sources of Europe's culture-based divide, arguing that the idea of two Europes is grounded both in reality and myth. The accession process that brought a dozen new members into the European Union after 2004 has highlighted the persisting gulf between old and new Europe despite the many physical barriers that have crumbled. Ray Taras examines the treaties, political rhetoric, citizen attitudes and literary narratives of belonging and separation that both bind and fray the fabric of Europe. Throughout this interdisciplinary work provides a comprehensive, hard-hitting and unabashed review of how enlarged Europe embraces contrasting understandings of its political home.

Performing the 'New' Europe K. Fricker, M. Gluhovic, 2013-05-13 This fascinating and lively volume makes the case that the Eurovision Song Contest is an arena for European identification in which both national solidarity and participation in a European identity are confirmed and a site where cultural struggles over the meanings, frontiers and limits of Europe are enacted.

Building Europe Cris Shore, 2013-11-05 The development of the European Union has been one of the most profound advances in European politics and society this century Yet the institutions of Europe and the Eurocrats who work in them have constantly attracted negative publicity culminating in the mass resignation of the European Commissioners in March 1999 In this revealing study Cris Shore scrutinises the process of European integration using the techniques of anthropology and drawing on thought from across the social sciences Using the findings of numerous interviews with EU employees he reveals that there is not just a subculture of corruption within the institutions of Europe but that their problems are largely a result of the way the EU itself is constituted and run He argues that European integration has largely failed in bringing about anything but an ever closer integration of the technical political and financial elites of Europe at the expense of its ordinary citizens This critical anthropology of European integration is essential reading for anyone with an interest in the culture and politics of the EU
