New Israeli Architecture:

New Israeli Architecture Amiram Harlap, 1981-12-31 Singles out some creative works that are representative of the search the experiments and the solutions that underlie Israeli architecture in hopes of providing an acquaintance with this architecture and offering an understanding of the factors that have gone into its making Illustrated **Arieh Sharon and Modern Architecture in Israel** Eran Neuman, 2023-11-30 Arieh Sharon and Modern Architecture in Israel Building Social Pragmatism offers the first comprehensive survey of the work of Arieh Sharon and analyzes and discusses his designs and plans in relation to the emergence of the State of Israel A graduate of the Bauhaus Sharon worked for a few years at the office of Hannes Mayer before returning to Mandatory Palestine There he established his office which was occupied in its first years in planning kibbutzim and residential buildings in Tel Aviv After the establishment of the State of Israel in 1948 Arieh Sharon became the director and chief architect of the National Planning Department where he was asked to devise the young country's first national masterplan Known as the Sharon Plan it was instrumental in shaping the development of the new nation During the 1950s and 1960s Sharon designed many of Israel's institutions including hospitals and buildings on university campuses This book presents Sharon's exceptionally wide range of work and examines his perception of architecture in both socialist and pragmatist terms It also explores Sharon's modernist approach to architecture and his subsequent shift to Brutalist architecture when he partnered with Benjamin Idelson in the 1950s and when his son Eldar Sharon joined the office in 1964 Thus the book contributes a missing chapter in the historiography of Israeli architecture in particular and of modern architecture overall This book will be of interest to researchers in architecture modern architecture Israel studies Middle Eastern studies and migration of knowledge *Hollow Land: Israel's Architecture of Occupation* Eyal Weizman, 2012-08-07 Acclaimed exploration of the political space created by Israel's colonial occupation In this journey from the deep subterranean spaces of the West Bank and Gaza to their militarized airspace Eyal Weizman unravels Israel's mechanisms of control and the transformation of the Occupied Territories into an artifice in which all natural and built features function as the instruments of occupation Weizman identifies the ideas behind this phenomenon and traces their development from the influence of archaeology on urban planning Ariel Sharon's reconceptualization of military defense during the 1973 war through the planning and architecture of the settlements to the contemporary Israeli discourse and practice of urban warfare and airborne targeted assassinations In exploring Israel's methods to transform the landscape and the built environment themselves into tools of domination and control *Hollow Land* lays bare the political system at the heart of this complex and terrifying project of late modern colonial occupation **Handbook of Israel: Major Debates** Eliezer Ben-Rafael, Julius H. Schoeps, Yitzhak Sternberg, Olaf Glöckner, Anne Weberling, 2016-10-24 The Handbook of Israel Major Debates serves as an academic compendium for people interested in major discussions and controversies over Israel It provides innovative updated and informative knowledge on a range of acute debates Among other topics the handbook

discusses post Zionism militarism democracy and religion in equality colonialism today s criticism of Israel Israel Diaspora relations and peace programs Outstanding scholars face each other with unadulterated divergent analyses These historical political and sociological texts from Israel and elsewhere make up a major reference book within academia and outside academia About seventy contributions grouped in thirteen thematic sections present controversial and provocative approaches refl ecting from different angles on the present day challenges of the State of Israel Other Major Works by the Editors Eliezer Ben Rafael Is Israel One Religion Nationalism and Ethnicity Confounded Brill 2005 Ethnicity Religion and Class in Israel Cambridge University Press paperback 2007 Julius H Schoeps Begegnungen Menschen die meinen Lebensweg kreuzten Suhrkamp 2016 Pioneers of Zionism Hess Pinsker R If Messianism Settlement Policy and the Israeli Palestinian Conflict De Gruyter 2013 Yitshak Sternberg World Religions and Multiculturalism A Relational Dialectic Brill 2010 Transnationalism Brill 2009 Olaf Gl ckner Being Jewish in 21st Century Germany De Gruyter 2015 with Haim Fireberg Deutschland die Juden und der Staat Israel Olms 2016 with Julius H Schoeps

Reinventing Jerusalem Simone Ricca,2007-05-25 The Jewish quarter of Jerusalem today seems like an organic fusion of a modern Israeli city with an ancient Jewish heritage However as Simone Ricca details in this fascinating book the aesthetics of the Jewish Quarter were deliberately planned and executed by Israel after it was occupied during the 1967 war Secular nationalist as well as religious politicians agreed that it should be turned in to the capital of the Jewish nation and that it should be excavated and developed in such a way as to create a sense of continuity with the Jewish people s historical claims to the land Zionist ideology was thus translated in to bricks and mortar as modern civic amenities were constructed around historic sites such as the Wailing Wall and the Hurva Synagogue Ricca examines the politics of heritage conservation and shows that the Old City s reconstruction did not so much preserve the past as inscribe an identity on to the future

Encyclopedia of Twentieth Century Architecture R. Stephen Sennott,2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclope dia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century s vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries

Franklin D. Israel Todd Gannon,2025-01-14 This book examines the life and legacy of Franklin D Israel an influential member of the Los Angeles school of architects Acclaimed Los Angeles architect Franklin D Israel 1945 1996 created innovative residential projects and office interiors that made him one of the most talked about designers of his generation In this vivid account architectural historian Todd Gannon draws on archival resources analyses of Israel s buildings and recent interviews with the architect s colleagues clients and contemporaries including Frank Gehry Thom Mayne and Robert A M Stern Gannon traces Israel s

development from his early years and career on the East Coast to his formative world travels and residence at the American Academy in Rome The author guides readers through the Los Angeles architectural context Israel s influential teaching at UCLA his dalliance with Hollywood and the personal motivations behind his architecture and design work all aspects of an influential career that was cut short by his death from AIDS related complications at the age of fifty Franklin D Israel is a compelling work of architectural history and biography chronicling one gay man s engagement with the largely heteronormative world of American architectural culture It explores the achievement of this central figure in the still largely unstudied history of late twentieth century avant garde Los Angeles architecture **Israel** Jill Dubois, Josie Elias, Mair Rosh, 2014-08-01 Learn everything about Israel including its history culture economy art people and government All books of the critically acclaimed Cultures of the World series ensure an immersive experience by offering vibrant photographs with descriptive nonfiction narratives and interactive activities such as creating an authentic traditional dish from an easy to follow recipe Copious maps and detailed timelines present the past and present of the country while exploration of the art and architecture help your readers to understand why diversity is the spice of Life Perspectives on Israeli Anthropology Esther Hertzog, 2010 Surveys past and present research on Israeli anthropology for students and researchers While Israel is a small country it has a diverse and continually changing society As a result since the 1960s Israeli anthropology has been a fertile ground for researchers This collection introduces readers to the diverse field of social anthropology in Israel today pointing to both its rich history and promising future Drawing upon recent research as well as a few key older articles editors Esther Hertzog Orit Abuhav Harvey E Goldberg and Emanuel Marx have selected contributors that highlight different theoretical perspectives and touch on a variety of relevant topics Perspectives on Israeli Anthropology begins with an introduction that traces the development of social anthropology in Israel from its beginnings in Palestine prior to Israeli statehood to the present The essays in this volume are divided into five major thematic sections including the effects of immigration the influence of bureaucracies in social life the negotiation of the social order tensions between Jewish Israelis and Palestinian Arabs and notions of Israeliness and Jewishness Essays offer compelling research and a variety of perspectives on changing senses of identity ethnicity religiosity and gender relations in a society deeply affected by war violence and dispossession While the contributors in this volume adhere to various theoretical and ethnographic traditions they all treat Israel as a complex modern and open society with much to offer other scholars Perspectives on Israeli Anthropology will provide an illuminating overview of the discipline for students teachers and researchers in the field of social anthropology **Israel and Africa** Haim Yacobi, 2015-07-03 Israel and Africa critically examines the ways in which Africa as a geopolitical entity is socially manufactured collectively imagined but also culturally denied in Israeli politics Its unique exploration of moral geography and its comprehensive interdisciplinary research on the two countries offers new perspectives on Israeli history and society Through a genealogical investigation of the relationships between Israel and Africa

this book sheds light on the processes of nationalism development and modernization exploring Africa's role as an instrument in the constant re-shaping of Zionism. Through looking at Israel in Africa as well as Africa in Israel it provides insightful analysis on the demarcation of Israel's ethnic boundaries and identity formation as well as proposing the different practices from architectural influences to the arms trade that have formed the geopolitical concept of Africa. It is through these practices that Israel reproduces its internal racial and ethnic boundaries and spaces contributing to its geographical imagination as detached not solely from the Middle East but also from its African connections. This book would be of interest to students and scholars of Middle East and Jewish Studies as well as Post-colonial Studies, Geography and Architectural History.
