New Directions in Death Education and Counseling Richard A. Pacholski, Charles A. Corr, 1981-01-01 *Seeking Wisdom in Death's Shadows* Thomas Attig, Professor of Philosophy Emeritus Thomas Attig, 2025-12-19 *Seeking Wisdom in Death's Shadows* is a rich compilation of nine original and fourteen previously published essays that makes accessible the origins and development of Thomas Attig's most significant and sometimes revolutionary contributions to understanding and living in the shadows of death, dying, loss, and grief Contemporary Perspectives on Rational Suicide James L. Werth, 2013-06-17 This text brings together spokespersons from several different disciplines who can present their arguments for or against rational suicide as a viable concept and consequently a realistic option. The pros and cons of the discussion format bring the readers to search for their beliefs and the final decision of acceptance or rejection of the concept is left to each individual reader.

The Wounded Body Dennis Patrick Slattery, 2000-01-01 Explores the wounded body in literature from Homer to Toni Morrison examining how it functions archetypally as both a cultural metaphor and a poetic image *Handbook of Death and Dying* Clifton D. Bryant, 2003-10-01 This is a singular reference tool essential for academic libraries. Reference User Services Quarterly. Students, professionals, and scholars in the social sciences and health professions are fortunate to have the unwieldy corpus of knowledge and literature on death studies organized and integrated. Highly recommended for all collections. CHOICE Excellent and highly recommended. BOOKLIST Well researched with lengthy bibliographies. The index is rich with See and See Also references. Its multidisciplinary nature makes it an excellent addition to academic collections. Lay readers will also appreciate the Handbook's wide-ranging coverage of death-related topics. Recommended for academic health sciences and large public libraries. E-STREAMS Dying is a social as well as physiological phenomenon. Each society characterizes and consequently treats death and dying in its own individual ways, ways that differ markedly. These particular patterns of death and dying engender modal cultural responses, and such institutionalized behavior has familiar economical, educational, religious, and political implications. The Handbook of Death and Dying takes stock of the vast literature in the field of thanatology, arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work. This two-volume handbook will provide direction and momentum to the study of death-related behavior for many years to come. Key Features: More than 100 contributors representing authoritative expertise in a diverse array of disciplines: Anthropology, Family Studies, History, Law, Medicine, Mortuary Science, Philosophy, Psychology, Social work, Sociology, Theology. A distinguished editorial board of leading scholars and researchers in the field. More than 100 definitive essays covering almost every dimension of death-related behavior. Comprehensive and inclusive exploring concepts and social patterns within the larger topical concern. Journal article length essays that address topics with appropriate detail.
