New Era Presenting The Plans For The New:

The Future of the Book Kevin J. Hayes, 2022-03-10 The Future of the Book Images of Reading in the American Utopian Novel looks at how turn of the century utopian novelists imagined what the book would be like in the ideal future This works examines many different aspects of book culture One chapter looks at the utopian residential library both its contents and its personal and social functions In the ideal future everyone has books in their home Another chapter discusses the public library in utopia Many of the innovations the utopian novelists imagined correct problems that real public libraries faced in late nineteenth century America In utopia everyone knows how to use the public library A third chapter shifts the discussion of books and reading from the place of consumption to the place of production looking at the role of the author in utopia This chapter also attempts to answer a vexing question Can an ideal world produce great literature The utopian novelists said yes but the novels they imagined in the future make their conclusions more circumspect A parallel chapter studies what the utopian newspaper would be like Some utopian novelists projected alternative news media foreseeing technology that anticipated television and the internet The final chapter examines what printed books would look like in the ideal future looking at graphic design universal languages and methods to assure that the books would be printed without censorship or editorial intrusion "The Urban Department Store in America, 1850-1930" Louisa Iarocci, 2017-07-05

In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Louisa Iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces The agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the United States to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct The Urban Department Store in America 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type Instead Iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants **The Urban**

Department Store in America, 1850-1930 Dr Louisa Iarocci, 2014-12-28 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Iarocci reaches beyond the analysis of the brick and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces **The Utopian Novel in America, 1886-1896** Jean Pfaelzer, 2010-11-23 In the late 1800s Americans flocked to cities immigration slums and unemployment burgeoned and America's role in foreign affairs

grew This period also spawned a number of fictional glimpses into the future After the publication of Edward Bellamy's Looking Backward in 1888 there was an outpouring of utopian fantasy many of which promoted socialism while others presented refined versions of capitalism Jean Pfaelzer's study traces the impact of the utopian novel and the narrative structures of these sentimental romances She discusses progressive pastoral feminist and apocalyptic utopias as well as the genre's parodic counterpart the dystopia
