New Essays In Chinese Philosophy:

New Essays in Chinese Philosophy Hsueh-li Cheng, 1997 *New Essays in Chinese Philosophy* explores various facets of Chinese thought which have received dynamic and creative scholarly attention in the recent past. It argues that Chinese culture is not logic less. The Confucian perception of moral sense and of reason can be revitalized to meet current challenges. The book displays the religiosity of Confucian philosophy and explains why contemporary Confucianists may become Christians and vice versa. It also illuminates the Taoist and Buddhist concepts of the universe by comparing Chinese and Western metaphysics and expounds how the ideas of yin yang and harmony in Chinese tradition are consistent with recent advances in science.

Confucius and the Analects Bryan W. Van Norden, 2002-01-03. Surprisingly this volume is the first and only anthology to address the worldwide influence of Confucius and the Analects in English. Here contributors apply a variety of different methodologies including philosophical, philological and religious and address a number of important topics from Confucius and Western virtue ethics to Confucius attitude toward women to the historical composition of the text of the Analects. Scholars will appreciate the rigor of these essays while students and beginners will find them accessible and engaging.

THE DEVELOPING COURSE OF CHINESE PHILOSOPHY Xuezhi Liu, 2024-07-30. *The Developing Course of Chinese Philosophy* deals with the thoughts of Chinese philosophers and the historical process of philosophical development from pre Qin to Ming and Qing dynasties from a new perspective elaborating the emergence, development, rise and fall of ancient Chinese philosophy. The book systematically describes the evolution path of Chinese wisdom, revealing the main trends and some basic laws of the theoretical thinking of the Chinese nation. The main contents of this book can be categorized into three aspects: First, the developing course and framework of Chinese philosophy in different periods; second, representatives of Chinese philosophy in different periods and the Zeitgeist; the main viewpoints and methodologies they represent; third, the interrelation and influence of the standpoints of Chinese philosophy in different periods. *The Developing Course of Chinese Philosophy* can be roughly divided into the philosophy of pre-Qin scholars with the theme of political theory, the cosmology-centered philosophy in Qin and Han dynasties, the metaphysics in Wei and Jin dynasties characterized by ontology, the philosophy of Wei Jin and the Northern and Southern dynasties in the dispute of Confucianism, Buddhism and Taoism, the philosophy of Sui and Tang dynasties in Buddhism, Taoism and Confucianism, and the philosophy of Song, Yuan, Ming and Qing dynasties with the rise and decline of Neo-Confucianism and the end of ancient Chinese philosophy as the main content. Through detailed elaboration in different chapters, the book highlights the philosophical thoughts, methodologies and viewpoints of different periods in Chinese history, thus presenting a complete logical system of the historical development and the essence of Chinese philosophy.

The Art of Chinese Philosophy Paul Goldin, 2020-04-07. Goldin thus begins the book by asking the basic question: What are we reading while also considering why it has been so rarely asked. Yet far from denigrating Chinese philosophy, he argues that liberating these texts from the mythic idea that they

are the product of a single great mind only improves our understanding and appreciation By no means does a text require single and undisputed authorship to be meaningful nor is historicism the only legitimate interpretive stance The first chapter takes up a hallmark of Chinese philosophy that demands a Western reader's cognizance its preference for non deductive argumentation Chinese philosophy is an art hence the title he demonstrates more than it is a rigorous logical method Then comes the core of the book eight chapters devoted to the eight philosophical texts divided into three parts Philosophy of Heaven Philosophy of the Way and Two Titans at the End of an Age Chinese Philosophy Ronnie L. Littlejohn, 2015-11-18 The philosophical traditions of China have arguably influenced more human beings than any other China has been the home not only of its indigenous philosophical traditions of Confucianism and Daoism but also of uniquely modified forms of Buddhism As Ronnie L Littlejohn shows these traditions have for thousands of years formed the bedrock of the longest continuing civilization on the planet and Chinese philosophy has profoundly shaped the institutions social practices and psychological character of East and Southeast Asia The author here surveys the key texts and philosophical systems of Chinese thinkers in a completely original and illuminating way Ranging from the Han dynasty to the present he discusses the six classical schools of Chinese philosophy Yin Yang Ru Mo Ming Fa and Dao De the arrival of Buddhism in China and its distinctive development the central figures and movements from the end of the Tang dynasty to the introduction into China of Western thought and the impact of Chinese philosophers ranging from Confucius and Laozi to Tu Weiming on their equivalents in the West **Readings in Classical Chinese Philosophy** Bryan W. Van Norden, Philip J. Ivanhoe, 2023-04-28 The third edition of Ivanhoe and Van Norden's acclaimed anthology builds on the strengths of previous editions with the addition of new selections for each chapter selections from Shen Dao a new translation of the writings of Han Feizi selections from two texts highly influential in later Chinese philosophy the Great Learning and Mean and a complete translation of the recently discovered text Nature Comes from the Mandate Each section of this volume begins with a brief Introduction and concludes with a lightly annotated Selective Bibliography Also included are four appendices Important Figures Important Periods Important Texts and Important Terms Additional materials including study questions for selected chapters will be available on the Title Support Page for this volume on the Hackett Publishing Company website www.hackettpublishing.com rccp support in spring 2023 Chinese Philosophy A-Z Bo Mou, 2009-07-09 A concise alphabetic guide to the main concepts figures topics and important movements of thought that have shaped Chinese philosophy over the last three thousand years The entries are concisely written terms are cross referenced and transcriptions are typically given in the pinyin system Chinese Philosophy A Z stresses philosophical relevance in choosing entries while paying due attention to historical links between relevant ideas and movements of thought The volume also shows how some of the central ideas under discussion contribute to the philosophical enterprise as a whole The book is aimed at students teachers of philosophy and educated non specialists who are interested in Chinese philosophy particularly those readers new to Chinese philosophy
