New French Feminisms An Anthology:

New French Feminisms Elaine Marks, Isabelle De Courtivron, 1981 This important anthology provides us with translations of texts from women's liberation movement in France an excellent starting place Signs *New French Feminisms* Elaine Marks, Isabelle De Courtivron, 1980 **New French Feminism** Isabelle De Courtivron, 1984 **New French Feminism** Elaine Marks, 1984 Beyond French Feminisms R. Célestin, E. DalMolin, I. Courtivron, 2016-04-30 This volume a collection of essays by a number of high profile personalities working in philosophy literature sociology cinema theatre journalism and politics covers a number a of recent and crucial developments in the field of French Feminisms that have made a reassessment necessary Beyond French Feminisms proposes to answer the question what is new in French Feminism at the beginning of the twenty first century The essays reflect the shift from the theoretical and philosophical approaches that characterized feminism twenty years ago to the more social and political questions of today Topics include the parit and PACS debates the France USA dialogue the multicultural issues and the new trends in literature and film by women **New French Feminism** Isabelle de Courtivron, Elaine Marks, 1986 French Feminism in the 19th Century Claire Goldberg Moses, 1984-01-01 Histories of France have erased the feminist presence from nineteenth century political life and the feminist impact from the changes that affected the lives of the French Now French Feminism in the Nineteenth Century completes the history books by restoring this missing and vital chapter of French history The book recounts the turbulent story of nineteenth century French feminism placing it in the context of the general political events that influenced its development It also examines feminist thought and activities using the very words of the women themselves in books newspapers pamphlets memoirs diaries speeches and letters Featured is a wealth of previously unpublished personal letters written by Saint Simonian women These engrossing documents reveal the nuances of changing consciousness and show how it led to an autonomous women's movement Also explored are the relationships between feminist ideology and women's actual status legal social and economic during the century Both bourgeois and working class women are surveyed Beginning with a general survey of feminism in France the book provides historical context and clarifies the later vicissitudes of the condition feminine **The Feminist Encyclopedia of French Literature** Eva M. Sartori, 1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not

been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer s awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers

Transfigurations C.W. Maggie Kim, Susan M. St. Ville, Susan M. Simonaitis, 2002-04-15 This volume explores the impact and import of the provocative and challenging work in this generation s most notable French feminists Despite the growing influence of the French feminists in the humanities especially in literary criticism poststructuralism and psychoanalysis American religionists have only recently begun to utilize their approaches and theories The volume introduces the characteristic concerns and themes of the leading French feminists particularly Helene Cixous Luce Irigaray and Julia Kristeva assesses their work against the very different orientations and impulses of North American feminism and gauges the potential of their ideas for both hermeneutical explorations and for feminist theologies In the process contributors shed important light on such issues as the normativity of women s experience the character of subjectivity and structural dimensions of oppression For those who would join this critical conversation *Transfigurations* will be the indispensable entree Contributors include Ellen T Armour Rebecca S Chopp Elizabeth Grosz Amy Hollywood Serene Jones Cleo McNelly Kearns Francoise Meltzer Sharon D Welch

Theories on the Move Şebnem Susam-Sarajeva, 2006-01-01 Within translation studies books on translating conceptually dense texts such as philosophical or theoretical writings are remarkably few Although the translation of literature has been a favourite topic for many decades the translation of theories on literature has been neglected The phrase theories of translation is everywhere but translation of theories is a rare sight On the other hand the term translation has become a commonplace in literary and cultural studies yet usually as a rhetorical figure describing the fate of those who struggle between two worlds and two languages such as migrants or women Not much attention has been paid to the role of translation proper in contemporary circulation of ideas The book addresses these gaps in translation studies and in literary studies for the first time by examining two specific cases where translation strategies and patterns crucially influenced the reception of imported schools of thought By examining the importation of structuralism and semiotics into Turkish and of French feminism into English it invites the readers to think about the impact of translation on the transmission of ideas

across linguistic cultural borders and power differentials It is therefore of particular interest to the scholars working in translation studies in literary and cultural theory and in gender studies
