New Earth

New Heaven, New Earth Kenelm Burridge,1969 **New Heaven, New Earth** Kenelm Burridge,1980 **New Heaven, New Earth** ,1980 **Proximity to Power and Jewish Sectarian Groups of the Ancient Period** Hillel Newman,2006-10-31 This book deals with the values lifestyle and code of law of four Jewish sectarian groups in the Hellenistic and Roman Second Temple period in the land of Israel It reviews the groups according to their proximity to power highlighting the fact that political involvement has a decisive impact on the life and development of these social groups The groups under review the Pharisees Sadducees Essenes and Qumran receive a new historical description from the viewpoint of their proximity to power The issue of what determines the course of a social group whether normative or sectarian is discussed and the traditional terminology is re examined Original terminology is established The first part of the book deals with the question of terminology the available sources and the presentation of the different groups *The Melanesian World* Eric Hirsch,Will Rollason,2019-03-28 This wide ranging volume captures the diverse range of societies and experiences that form what has come to be known as Melanesia It covers prehistoric historic and contemporary issues and includes work by art historians political scientists geographers and anthropologists The chapters range from studies of subsistence ritual and ceremonial exchange to accounts of state violence new media and climate change The Melanesian world assembled here raises questions that cut to the heart of debates in the human sciences today with profound implications for the ways in which scholars across disciplines can describe and understand human difference This impressive collection of essays represents a valuable resource for scholars and students alike Joseph Smith, Jr. Reid L. Neilson,Terryl L. Givens,2009-03-05 Mormon founder Joseph Smith is one of the most controversial figures of nineteenth century American history and a virtually inexhaustible subject for analysis In this volume fifteen scholars offer essays on how to interpret and understand Smith and his legacy Including essays by both Mormons and non Mormons this wide ranging collection is the only available survey of contemporary scholarly opinion on the extraordinary man who started one of the fastest growing religious traditions in the modern world *Theologically Engaged Anthropology* J. Derrick Lemons,2018-08-16 After years of discussion within the field of anthropology concerning how to properly engage with theology a growing number of anthropologists now want to engage with theology as a counterpart in ethnographic dialogue Theologically Engaged Anthropology focuses on the theological history of anthropology illuminating deeply held theological assumptions that humans make about the nature of reality and illustrating how these theological assumptions manifest themselves in society This volume brings together leading anthropologists and theologians to consider what theology can contribute to cultural anthropology and ethnography It provides anthropologists and theologians with a rationale and framework for using theology in anthropological research **Standing on the Premises of God** Fritz Detwiler,1999-12 The Christian Right is arguably the most significant social movement in the United States today In recent years these religious conservatives have loudly

protested a public education system they believe no longer represents their interests or values Educators often dismiss critiques based on religious values as irrational or flimsy failing to appreciate the coherence of these criticisms from the Christian Right's own perspective While the Christian Right has become ever more sophisticated in its lobbying and powerful in its influence educators and parents find themselves lacking the background knowledge necessary to respond effectively to its efforts Standing on the Premises of God speaks directly to this dilemma explaining current incarnations of the Christian Right its leadership its intellectual and theological foundations and its tactics so that those interested in the debates over education will be better prepared to engage them constructively Taking the novel approach of framing the Christian Right as a revitalization movement Detwiler shows how it seeks to effect cultural transformation in order to bring public education and our society more generally in line with its worldview His theoretical model provides insights into why education is so pivotal to the Christian Right and also assesses the religious viability of the Christian Right as a social movement
