New Horizons In Tourism Strange Experiences And Stranger Practices:

Critical Debates in Tourism Tej Vir Singh, 2012-08-14 In this volume tourism experts collectively discuss and debate some intriguing questions that the tourism industry poses such as the relevance of mass tourism the dilemma of authenticity whether small tourism is beautiful whether volunteer tourism is benign whether tourism contributes to climate change as well as many others The book brings together the expertise of 35 renowned international scholars of tourism to examine these perplexing issues Multidisciplinary in its content it touches upon anthropology sociology geography climatology biosciences and planning and development aspects of tourism The book provides a dialogue for an academic discussion which challenges research conservatism and stereotypes in tourism studies It will encourage scholars to test the consistency of critical notions whose heuristic value is often taken for granted The book will benefit graduates research scholars and those involved in organizing the industry sustainably

New Horizons in Tourism Tejvir Singh, 2004-01-01 This book illustrates the tremendous outreach of tourism in search of extraordinary spectacular and bizarre experiences It covers tourism in out of the ordinary environments space tourism Antarctic tourism and adventure heritage tourism in remote areas dark tourism other unconventional forms of tourism such as deep ecotourism and health tourism in salt mines and other special interest forms such as pro poor tourism senior tourism and volunteer tourism The book has 15 chapters and a subject index

Cultural Heritage and Tourism Dallen J. Timothy, 2011-08-03 One of the most salient forms of modern day tourism is based on the heritage of humankind The majority of all global travel entails some element of the cultural past as hundreds of millions of people visit cultural attractions heritage festivals and historic places each year The book delves into this vast form of tourism by providing a comprehensive examination of its issues current debates concepts and practices It looks at the social physical and economic impacts which cause destinations site managers and interpreters to consider not only how to plan and manage resources but also how to portray the past in ways that are acceptable accurate accessible and politically relevant In the process however the depth of heritage politics the authenticity and inauthenticity of place and experience and the urgent need to protect living and built cultures are exposed The book explores these and many other current issues surrounding the management of cultural resources for tourism In order to help students relate concepts to real world situations it combines theory and practice is student learning oriented is written accessibly for all readers and is empirically rich

Critical Theories in Dark Tourism Nitasha Sharma, Annaclaudia Martini, Dallen J. Timothy, 2024-12-02 This book facilitates a critical investigation of gaps in theorizing and framing dark tourism by navigating through some onto epistemological issues theoretical entanglements future possibilities and the application of critical theoretical perspectives related to affect and emotions human animal studies postcolonialism feminism trauma studies posthumanism power and identity In doing so it advances the need to connect critical theory pragmatism and contemporary issues of social and global relevance Given the growing body of critical research within tourism studies dark tourism has somewhat lagged behind For

example critical tourism researchers have been examining postcolonialism for two decades but dark tourism research has only sporadically engaged with this topic Similarly the issue of gender has been curiously neglected within dark tourism In addition dark tourism research has tended to shy away from the big challenges facing contemporary societies Through its engagement with a range of critical theories this volume not only addresses gaps in the existing dark tourism literature but also moves the debate forward in exciting new directions This volume is well placed to demonstrate to other disciplines and fields that dark tourism research can be critical theoretically grounded and transformative Duncan Light *The Footprint of Polar Tourism* Ricardo Mariano Roura, 2011 This thesis aims to describe and interpret the effects of tourism on historic sites in Antarctica and Svalbard also known as Spitsbergen and to assess the implications for management Explorers whalers seal hunters scientists and others have left many material remains in the Polar Regions that are significant because they tell the history of the exploration and exploitation of these regions Contemporary polar tourism represents a new phase in this exploration and exploitation of the Polar Regions The potential for the transformation of historic sites has increased following the substantial expansion of polar tourism in recent decades Key cultural heritage sites are regularly included in standard tourist itineraries and are also the subject of specialized tourism In this context the central research question of this thesis is What are the effects of tourism on polar historic sites and what are the implications of this for the management of tourism and these historic sites

Liminality in Tourism Robert S. Bristow, Ian Jenkins, 2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism *Liminality in Tourism Spatial and Temporal Considerations* aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal *Tourism Geographies* *ICTR 2020 3rd International Conference*

on Tourism Research Dr. José Martí-Parreño ,Dr. Roberto Gómez-Calvet ,Dr. Javier Muñoz de Prat,2020-03-27 **The Routledge Handbook of Consumer Behaviour in Hospitality and Tourism** Saurabh Kumar Dixit,2017-04-07 Consumer behaviour is one of the most explored topics in tourism and hospitality marketing interchangeably denoted by the terms traveller behaviour tourist behaviour or guest behaviour Consumer behaviour acts as an origin for every tourism and hospitality marketing activity It offers an understanding of why people tend to choose certain products or services and what sort of factors influence them in making their decision The decision process of buying tourism products or services takes time because they are mostly intangible in nature due to which there are many risks involved in their buying process The Routledge Handbook of Consumer Behaviour in Hospitality and Tourism aims to explore and critically examine current debates critical reflections of contemporary ideas controversies and pertinent queries relating to the rapidly expanding discipline of consumer behaviour in hospitality and tourism The Handbook offers a platform for dialogue across disciplinary and national boundaries and areas of study through its diverse coverage It is divided into six parts Part I offers an overview of consumer behaviour Part II focuses on the service quality perspectives of consumer behaviour Part III deliberates on customer satisfaction and consumer behaviour linkages Part IV explores the re patronage behaviour of consumers Part V addresses the vital issues concerning online consumer behaviour and Part VI elaborates upon other emerging paradigms of consumer behaviour Although there is no dearth of empirical studies on different viewpoints of consumer behaviour there is a scarcity of literature providing conceptual information The present Handbook is organised to offer a comprehensive theoretical body of knowledge narrating consumer behaviour especially for hospitality and tourism businesses and operations It attempts to fill this research gap by offering a globalised volume comprising chapters organised using both practical and academic approaches This Handbook is essential reading for students researchers and academics of Hospitality as well as those of Tourism Marketing International Business and Consumer Behaviour Issues in Cultural Tourism Studies Melanie K. Smith,2015-10-14 The third edition of Issues in Cultural Tourism Studies provides a vital framework for analysing the complexity of cultural tourism and its increasing globalization in existing as well as emergent destinations of the world It focuses in particular on the need for even more creative tourism strategies to differentiate destinations from each other using a blend of localized cultural products and innovative global attractions The book explores many of the most pertinent issues in heritage arts festivals indigenous ethnic and experiential cultural tourism in urban and rural environments alike Since the second edition of this book there have been many important developments in this field and this third edition has been completely revised and updated to include New content on demand and motivation for cultural tourism sustainable cultural tourism and ethnic cultural tourism New and updated case studies from an even wider global perspective A revised up to date framework for global cultural tourism studies in the light of recent research publications and industry developments New pedagogical features within the text to aid understanding and critical thinking including questions at the end of case

studies and a further reading section At the interface between the global and the local a sustainable and people centred approach to cultural tourism planning and development is advocated to ensure that benefits are maximized for local areas a sense of place and identity are retained and the tourist experience is enhanced to the full The text is unique in that it provides a summary and a synthesis of all of the major issues in global cultural tourism which are presented in an accessible way using a diverse range of international case studies It is essential and valuable reading for all tourism students Dark Tourism Anukrati Sharma, Shruti Arora, Parag Shukla, 2024-10-30 Dark Tourism has seen a surge in popularity in the last decade as people seek a richer travel experience choosing to meaningfully engage with humankind s more troubling heritage rather than opting for merely escapist vacations
