New Humans New Earth:

New Humans, New Earth: The Grand Celestial Plan for Personal and Planetary Transformation Christopher Jelm, Jeannine Marie Jelm, 2009-09-01 This guide presents simple demystified ideas about humanity's evolution into a new human species and Mother Earth's unfolding transformation into a higher vibrational planetary being. It will awaken the reader to new levels of understanding about these exciting and challenging times. **New Human - New Earth: Living in the 5th Dimension** Nicolya Christi, 2012-04-06 This book is offered as a guide for all those who are aligned or are aligning with the reality of New Earth and the New Human. It contains new information regarding the 5th Dimension and 5th Dimensional consciousness. On New Year's Eve 2011 Nicolya unexpectedly entered into a comatose state for two days during which time a massive download of information streamed into her consciousness. This download proved unlike any she had received in the past. Immediately following this Nicolya fell into a six-week creative void during which the direction her Work was taking was lost. Instead she found herself spinning in an infinite midnight void whilst at the same time continually being flooded with Light. She emerged from this state as suddenly as she had entered it with a vast outpouring of information which heralded a crystal clear reorientation for the path her Work was to take including the content for several books and the New Human New Earth Living in the 5th Dimension workshops and trainings. **The Age of Ascension** Elizabeth Sullivan, 2015-09-17 The year 2012 birthed a new age. The Age of Ascension. Human consciousness continues to expand at an accelerated rate fueling an evolutionary leap that promotes freedom. On the Verge of a Planetary Civilization Sam Mickey,2014-09-18 On the Verge of a Planetary Civilization presents a philosophical contribution to integral ecology an emerging approach to the field that crosses disciplinary boundaries of the humanities and sciences In this original book Sam Mickey argues for the transdisciplinary significance of philosophical concepts that facilitate understandings of and responses to the boundaries involved in ecological issues Mickey demonstrates how much the provocative French philosopher Gilles Deleuze contributes to the development of such concepts situating his work in dialogue with that of his colleagues Felix Guattari and Jacques Derrida and with theorists who are adapting his concepts in contemporary contexts such as Isabelle Stengers Catherine Keller and the speculative realist movement of object oriented ontology The book focuses on the overlapping existential social and environmental aspects of the ecological problems pervading our increasingly interconnected planet It explores the boundaries between self and other humans and nonhumans sciences and humanities monism and pluralism sacred and secular fact and fiction the beginning and end of the world and much more

The Beginning and the End Michael W. Pahl,2011-06-01 Have you ever wondered if there might be more to Genesis than fodder for anti evolutionism Or have you ever thought Revelation has to be more than simply a roadmap for the future of the Middle East You re not alone In The Beginning and the End Michael Pahl surveys the opening chapters of Genesis and the concluding chapters of Revelation taking seriously both their historical and literary features as ancient texts and their theological purposes as inspired Scripture The result is a reading of the first and last books of the Bible that sketches out from beginning to end a story of God humanity and all creation a grand narrative in which we are placed in the middle and which calls us to live in a particular way as our identity and our values are shaped in light of our origins and our destiny

Dark Skies Daniel Deudney,2020 Dark Skies provides the first comprehensive and balanced assessment of the space enterprise past present and future It demolishes widely held optimistic assumptions about the desirability of many major space activities actual and prospective Most consequentially the hiding in plain sight use of outer space as a corridor for long range bombardment has increased the probability of catastrophic nuclear war Contrary to the widespread claim that

sustainable colonies on other celestial bodies are necessary for human survival from large scale disasters on Earth Dark Skies shows that colonization itself poses many severe threats and should be avoided Instead an Earth oriented space program should be pursued *Super Humans in Light Fusion* Maurene Watson,2023-12-04 The shift of light body as a transitional body to an ascended form for a New Cosmic Race is described in these books Creation Creates Itself and Embodies through Pure Conscious Light Fusion It is a wonderful expose on how CREATION CREATES ITSELF and how the pure consciousness of Creation descends its light Essence by descending the soul fusion strandings scaffoldings regenerative DNA coding s until all angelic new light essence senses are opened in the discoveries of life s senses natural cycles Then One sense appears and it is the infinitude of Love and its uniqueness for every soul s essence of creation The multiplicity of soul weaving within diversity seems beyond imagination This Light Transition Series is inclusive of the transition into light This series recodes and rewrites the DNA genome Subtle simple and assures that creation has learned to laugh play cry fall fear and love through Your unique Soul s free will to choose from a multiplicity of diversity of experiences within Creations DNA information life codes This even included the natural separation or contrast of the OTHER of ALL THAT IS and ALL THAT ISN T mirror reflected in pure consciousness through each soul s direct experience to master free will choice
