Research Libraries, 1967 *Dramatists and the Bomb* Charles A. Carpenter, 1999-05-30 While the atomic bombing of Hiroshima and Nagasaki secured an American victory in the Pacific and hastened the end of World War II it also ushered in an era of fear When the Soviets developed an atomic bomb the United States ceased to be the world s only nuclear power Americans feared a nuclear attack by the Soviets while the British worried about being drawn into a nuclear conflict for which they were utterly unprepared and particularly vulnerable The threat of nuclear war left a lasting mark on the British and American imagination Like other creative artists playwrights began to grapple with the terrifying implications of a nuclear holocaust This study reveals how English speaking dramatists both major and minor reacted to the stunning events of the Atomic Age and the early thermonuclear era Moving from

American to British responses the book describes more than 25 plays and quotes a variety of reflections on the bombing of Japan the evolution of the Cold War the development of more and more refined atomic weapons the proliferation of fallout shelters and the occurrence of strategic crises such as those in Suez Berlin and Cuba The American plays are generally inferior to the British with less experienced playwrights attacking a wide range of subject matter and experimenting with several dramatic styles British plays more frequently protest the threatened imposition of an American Soviet conflict upon their offshore island The book concludes with a study of how Samuel Beckett's *Endgame* reflects a human dilemma distinctive to the Nuclear Age

Dramas of the Nuclear Age--a Descriptive List of English-language Plays Charles A. Carpenter, 2000 This volume provides a bibliographic and descriptive record of English language plays that deal directly and significantly with the Bomb a code term denoting all major aspects of the Nuclear Age that relate to atomic weapons but not nuclear power Descriptions of the plays are oriented toward their content as nuclear age dramas The descriptions are presented in chronological order since the plays vary in nature and number according to the nuclear situation that existed in the real world It includes a selective chronology of that evolving situation along with the landmarks of literature and journalism that it spawned An index of playwrights concludes the volume
