Radical Curriculum Theory Reconsidered A Historical Perspective:

Radical Curriculum Theory Reconsidered Peter S. Hlebowitsh, 1993 **Critical Curriculum Studies** Wayne Au, 2012-03-22 Critical Curriculum Studies examines both how social power is embedded in curricular knowledge and how such knowledge can be used to make progressive educational and social change **Understanding Curriculum** William F. Pinar, 1995 Perhaps not since Ralph Tyler's 1949 *Basic Principles of Curriculum and Instruction* has a book communicated the field as completely as *Understanding Curriculum*. From historical discourses to breaking developments in feminist poststructuralist and racial theory including chapters on political theory phenomenology aesthetics theology international developments and a lengthy chapter on institutional concerns the American curriculum field is here. It will be an indispensable textbook for undergraduate and graduate courses alike *Reconceptualizing Curriculum Development* James Henderson, and Colleagues, 2014-12-05 *Reconceptualizing Curriculum Development* provides accessible clear guidance on curriculum problem solving and educational leadership through the practice of a synoptic curriculum study. This practice integrates three influential interpretations of curriculum: curriculum as deliberative artistry, curriculum as complicated conversation, and curriculum as currere with John Dewey's lifetime work on reflective inquiry. At its heart the book advances a way of studying as a way of living with reference to the question: How might I live as a democratic educator? The study guidance is organized as an open ended scaffolding of three embedded reflective inquiries informed by four deliberative conversations. Study recommendations are provided by a carefully selected team. The field tested study based approach is illustrated through a multi layered multi voiced narrative collage of four experienced teachers' personal journeys of understanding in a collegial study context. Applying William Pinar's argument that a conceptual montage enabling teachers to lead complicated conversations should be the focus for curriculum development in the field's current post reconceptualist moment the book moves forward the educational aim of facilitating a holistic subject self social understanding through the practice of a balanced hermeneutics of suspicion and trust. It closes with a discussion of cross cultural collaboration and advocacy reflecting the interest of curriculum scholars in a wide range of countries in this study based lead learning approach to curriculum development **An Introduction to the Internationalization of Higher Education** Ali Arabkheradmand, Enayat A. Shabani, Amir Zand-Moghadam, Hossein Samadi Bahrami, Ali Derakhshesh, Arya Rahimi Golkhandan, 2015-02-20 Internationalization of higher education is a concept that is currently making its way to every corner of the globe. *An Introduction to the Internationalization of Higher Education* aims to provide the reader with an introduction to this subject and explore three of its most fundamental aspects: namely internationalization at home, internationalization abroad, and internationalization of curriculum. This publication delves into the underlying rationale for internationalization of higher education and discusses the opportunities and challenges brought about by this concept. Current practices regarding the internationalization of higher education are discussed and the requirements for the realization of these activities are laid

out This book can act as a basis for future research endeavors as it clearly and comprehensively introduces the internationalization of higher education and answers various questions about this topic

Curriculum Development in the Postmodern Era Patrick Slattery, 2012-12-06 First Published in 2006 Routledge is an imprint of Taylor Francis an informa company

To Want to Learn Jackson Kyle, 2012-07-17 Lack of learner motivation is the single greatest challenge before American schools and colleges When students are self motivated they invest more and work harder at learning even if resources are inadequate Jackson Kyle s provocative book argues that students and teachers waste time and human energy because the conventional curriculum rests on flawed mental models Hope for change requires a searching critique of modernity as well as expanded theories of human motivation and learning based on advances in neurobiology and cognitive studies After consideration of existentialism and choice of life purposes and the dynamics of psychological involvement Kyle closes his ambitious interdisciplinary book with ten considerations for better learning

Whole, bright, deep with understanding José Augusto Pacheco, 2009-01-01 This book is about William Pinar one of the best known authors in the field of curriculum studies The main contribution of William Pinar is not to determine the curriculum He is involved in a continuous struggle to help students and teachers reflect about their personal experiences educational and curricular options The book has been organized in five chapters The first chapter discursive construct includes the identification of William Pinar from his own roots as a student and as a teacher and the schools of thought that influenced his work The second chapter is concerned with Curriculum Studies as an academic field answering the questions What is Curriculum Theory What does the reconceptualization movement mean What is post Reconceptualization The following chapter is about Pinar s curriculum theorizing including a particular mode de penser schooling school and teacher education as well as curriculum as comparative language and currere as method The fourth chapter is about his life experiences particularly the sense of South and includes Pinar s transdiscursivity searching for the author function features through the foundational Journal and the Internationalization of Curriculum Studies The last chapter includes some contributions of the studies of William Pinar and Ivor Goodson concerning research in the field of curriculum by Ant nio Fl vio Moreira a well known scholar in Brazil and Portugal

Works about John Dewey, 1886-2012 Barbara Levine, 2013-11-05 Works of John Dewey 1886 2012 is an invaluable and meticulously compiled resource for the growing number of scholars and researchers seeking a deeper understanding of the work of the prominent American philosopher psychologist and educational reformer Dewey 1859 1952 an influential philosopher credited with the founding of pragmatism and also recognized as a pioneer in functional psychology and the progressive moment in education was hailed by Life magazine in 1990 as one of the one hundred most important Americans of the twentieth century This rich and continually expanding compendium of historical and more recent essays research and references is a testament to the growing interest in Dewey s intellectual work and his measurable impact in the United States and throughout the world In Works of John Dewey 1886 2012 some four thousand new entries

are presented in ebook format in addition to those from earlier print and electronic editions dating back to 1995. Copies of most of the works have been obtained and are stored at the Center for Dewey Studies. For the first time users can access all items from all editions in one user friendly format. Jump links to alphabetical sections facilitate movement through the vast collection of entries. Users can search by keyword and author.

Works about John Dewey, 1886-1995 Barbara Levine, 1996

Although she has devised a new format for this bibliography, Barbara Levine has included most of the materials published in the two editions of the Checklist of Writings about John Dewey. Material new to this volume includes recently discovered items published during the ninety years covered by the Checklist as well as items published since 1977. Because certain studies at best have only marginal value or because they can be obtained through ordinary library research tools, Levine has deleted some classes of material that appeared in the 1974 and 1978 Checklist editions: primary sources with only brief references to Dewey; the entire section entitled Unpublished Works about Dewey which included theses, dissertations, and papers presented at meetings; and Educational Resources Information Center (ERIC) documents. Levine has included all of the material published about Dewey during the 108 years between 1886 and 1994 and has included many 1995 items as well. She has verified all items and whenever possible obtained copies. She has discovered hundreds of items omitted from the second edition of the Checklist and has augmented the current bibliography by nearly two thousand items published since 1977. The bibliography is divided into four parts. The first, Books and Articles about Dewey, lists works alphabetically by author. Replies and responses to articles immediately follow the work cited. The Reviews of Dewey's Works lists titles alphabetically. Reviews are grouped alphabetically by journal under the Dewey work reviewed. The Author Index includes multiple authors and editors, authors of replies and responses, and reviewers of works both by and about Dewey. The Title/Key Word Index lists key words from most titles and subtitles. The CD-ROM version of *Works about John Dewey* contains both Windows and Macintosh formats and provides increased search capabilities.

Conducting Educational Research R. Murray Thomas, 1998-09-30

Emphasizing the comparative aspects of research, this introduction to educational research traces the process through five stages: choosing what to study; including specifying the research problem; collecting information; organizing and summarizing information; interpreting results; and reporting the outcomes. Each of the stages offers diverse options available to researchers for solving the problems of that stage and a research project checklist at the end of each chapter guides readers in applying the chapter's contents to their own research studies. In much educational discourse, comparative education has referred solely to the study of educational similarities and differences between regions of the world or between two or more nations. This book uses the broader definition of the term to encompass a large body of research including studies focusing on comparisons between local educational systems, schools, classrooms, language groups, religious denominations, genders, social classes, and individual students. Students who are planning research projects as well as staff members of such organizations as ministries of education, school systems, bureaus of educational research, and educational aid agencies will find this volume

indispensable **Middle Grades Curriculum** Kathleen Roney, Richard P. Lipka, 2013-05-01 High stakes testing standards and accountability politics is taking us away from the importance of the affective domain in curriculum development This critical learning domain is often an unrecognized and infrequently considered topic in the literature Through this book we extend the current knowledge base by addressing a curriculum model developed in the 1980s We add a 2012 knowledge base as we delineate the role of self perceptions in school related learning how middle level curriculum affects self perceptions and the type of curriculum planning which enhances self perceptions and improves learning in the cognitive affective and psychomotor domains The combination of sound psychological principles and practical teaching and curriculum suggestions with an empirical basis makes the book attractive to both higher education and local school professional libraries In the former it will serve as the primary text in graduate and advanced undergraduate middle level education programs and practices courses It might also be a primary text in courses or workshops in affective education or other experiences which emphasize affective values and self concept It also has potential as a supplementary text in undergraduate educational psychology courses At the in service level this book could be used as a workshop resource or as a professional reference for middle level teachers administrators curriculum workers and supervisors Our interest in young adolescents and their school setting coincides with the fourth edition of This We Believe NMSA 2010 The self enhancing school is characterized by from to statements for example from avoiding parents to working with parents Using theory and research we discuss the costs of staying in the from position and the benefits derived from moving to the to position By combining educational psychology and curriculum development we make a unique contribution to middle grades curriculum developers **Paradigm Debates in Curriculum and Supervision** Linda Behar-Horenstein, Jeffrey Glanz, 2000-01-30 Paradigm debates in the educational research community are a frequent if not common occurrence How do paradigm debates in other educational fields such as curriculum and supervision shape educators understanding and practice In this volume it is suggested that educators adherence to particular views of curriculum and supervision is influential in guiding their beliefs and subsequent actions For example a widely accepted belief is that if an individual adopts a mechanistic view of the curriculum then s he is likely to deliver a curriculum grounded in pre established objectives and evaluate student achievement in relationship to formulated objectives Postmodernists contend that such educators are bound by rigid bifurcation and a constrictive linear logic In supervision educational leaders who favor leadership styles comprised by autocratic behaviors tend to create school climates that favor a top down approach to human relationships Autocratic leaders rely on hierarchical organizational structures and styles that seek to instill compliance and subordination Yet prospective administrators who want concrete proposals put in practice find modern perspectives of supervision helpful In contrast postmodern supervisors allege that such leaders disallow the emergence of relevant and authentic relationships that might occur when conventional hierarchical structures are diminished and open lines of communication between teachers students administrators become normative The chapters in

this book present an in depth analysis of how an individual s predisposition towards modern and postmodern views of curriculum and supervision are likely to influence 1 curriculum development 2 teaching styles 3 leadership styles 4 teacher and student evaluation and 5 the missions intrinsic to the creation of professional preparation programs that serve to promulgate existing practice or create a new order of teachers and administrator Language in Multicultural Education

Farideh Salili,Rumjahn Hoosain,2005-03-01 Many books on multicultural education focus on a country and provide indepth discussion of issues pertinent to that country at the time Alternately understanding of multicultural education is sought through comparison between a society of special interest and a reference society often the United States An interesting recent example is Constructing Multicultural Education in a Diverse Society by Ilghiz Sinagatullin 2003 drawing on the author s knowledge of Russia and more particularly the Republic of Bashkortostan itself an ethnically and culturally diverse part of Russia The approach taken in this volume is to focus on an aspect of diversity and look at its ramifications across the world This provides an understanding of the nature of multicultural education itself as well as insights into local issues through the experience of other places **Race, Curriculum, and the Politics of Educational Justice** Wayne

Au,2025-09-26 This one of a kind collection will help today s educators feel and understand the power that communities can harness through organizing and solidarity This volume highlights some of Wayne Au s most impactful essays and articles across his 25 years as an educator activist and scholar In this carefully curated collection Au traces the development of his politics and analyses of schooling education policy curriculum and racialization Featuring concrete examples chapters address antiracist education and the politics of knowledge the racial politics of high stakes testing and neoliberal education reforms and the racialization of Asian Americans as a model minority and its connection to anti Blackness Importantly this book illustrates the power of writing for different audiences by placing scholarly essays alongside those written for teachers parents and community members while also linking educational activism with educational research In addition to providing a broad examination of the politics of curriculum and educational policy in America Book Features Written by an internationally known scholar in the areas of curriculum multicultural and antiracist education high stakes testing and neoliberal reforms racial justice and critical education Provides a model for how to translate educational research and analysis between academic and public discourses embodying the intersections of theory practice and justice Combines searing political analysis of education with the hope offered through activism solidarity and educational justice *Public Policy and Community* Robert H. Wilson,2010-07-22 The decentralization of public policy from the federal government to state and local governments offers increased opportunities for ordinary citizens to participate directly in public policymaking Yet these opportunities may not be equally shared Due to a variety of factors low income citizens have long been denied a meaningful role in the public life and governance of our country By contrast the essays in this volume explore how low income citizens have successfully affected public policy The book is built around six case studies all from Texas that cover

education finance and reform local infrastructure provision environmental protection and indigent health care This research illuminates several issues of national importance including how communities gain standing and recognition for themselves and their issues how policy agendas are defined how communities mobilize technical and institutional resources and how they form coalitions and alliances to accomplish their goals *Turning Points in Curriculum* J. Dan Marshall,2007 *Turning Points in Curriculum* A Contemporary American Memoir 2nd edition is a text designed to engage readers in a story of curriculum as a field of intellectual study and invite them to identify with and ultimately participate in this important work Focusing on the United States it contains five parts the first of which offers a backdrop or contextual panorama for parts two through five which present curriculum s journey through the last half of the twentieth century Throughout the book the authors use the term curriculum work over curriculum studies theory or development The broader notion of work allows for variations that include reflection study theorizing construction inquiry and deliberation At the same time the possibilities for interpretation inherent in the notion of curriculum work allow the authors to steer clear of the more fixed and differential meanings typically associated with more distinctive phrases such as curriculum theorizing or curriculum development An important goal of *Turning Points* is to provide readers with multiple levels of engagement in its complex conversation Toward this end the authors have combined five distinct elements into the book with an eye toward personalizing readers

interpretative processes Publisher description **Community Organizing for Urban School Reform** Dennis Shirley,2010-01-01 Observers of all political persuasions agree that our urban schools are in a state of crisis Yet most efforts at school reform treat schools as isolated institutions disconnected from the communities in which they are embedded and insulated from the political realities which surround them *Community Organizing for Urban School Reform* tells the story of a radically different approach to educational change Using a case study approach Dennis Shirley describes how working class parents public school teachers clergy social workers business partners and a host of other engaged citizens have worked to improve education in inner city schools Their combined efforts are linked through the community organizations of the Industrial Areas Foundation which have developed a network of over seventy Alliance Schools in poor and working class neighborhoods throughout Texas This deeply democratic struggle for school reform contains important lessons for all of the nation s urban areas It provides a striking point of contrast to orthodox models of change and places the political empowerment of low income parents at the heart of genuine school improvement and civic renewal **Reconsidering**

Canadian Curriculum Studies Nicholas Ng-A-Fook,Jennifer Rottmann,2012-09-24 Comprised of chapters written by established Canadian curriculum scholars as well as junior scholars and graduate students this collection of essays provoke readers to imagine the different ways in which educational researchers can engage the narrative inquiry within the broader field of curriculum studies **Democratic Curriculum Leadership** James G. Henderson,Daniel J. Castner,Jennifer L.

Schneider,2018-03-06 This book provides educators with guidance on studying and practicing a curriculum problem solving

artistry that is focused on deepening students subject matter understandings through democratic self and social understandings The book begins with a discussion of seven principles of curriculum leadership which provide a framework for the presentation of a theoretical platform that guides a four phased process The curriculum problem solving has four interrelated phases and advice on studying and practicing each phase has been organized into separate chapters using a montage format incorporating inquiry prompts supportive quotations critical commentaries practical tips narrative illustrations and study recommendations There is a continuous recognition of the ways in which the four phases are folded into one another in highly interactive ways hence the problem solving approach is described as a fourfold process The text concludes with an epilogue honoring the disciplined journey of understanding and the pursuit of professional virtues that are central to the cultivation of problem solving artistry An ethical oath that was created by twenty Ohio teacher leaders serves as a collegial pledge to embrace this disciplinary commitment
