## Radical Life:

The Radical Life of Grace Creflo Dollar, 2017-10-03      Should You Choose to Live Forever? Stephen Cave, John Martin Fischer, 2023-11-22 In this book Stephen Cave and John Martin Fischer debate whether or not we should choose to live forever This ancient question is as topical as ever while billions of people believe they will live forever in an otherworldly realm billions of dollars are currently being poured into anti ageing research in the hope that we will be able to radically extend our lives on earth But are we wise to wish for immortality What would it mean for each of us as individuals for society and for the planet In this lively and accessible debate the authors introduce the main arguments for and against living forever along with some new ones They draw on examples from myth and literature as well as new thought experiments in order to bring the arguments to life Cave contends that the aspiring immortalist is stuck on the horns of a series of dilemmas such as boredom and meaninglessness or overpopulation and social injustice Fischer argues that there is a vision of radically longer lives that is both recognizably human and desirable This book offers both students and experienced philosophers a provocative new guide to a topic of perennial importance Key Features Gives a comprehensive overview of the main arguments for and against living forever Uses lively examples from myth literature and novel thought experiments Highly accessible avoiding jargon and assuming no prior knowledge without sacrificing intellectual rigour Includes helpful pedagogical features including chapter summaries an annotated reading list a glossary and clear examples      *New Life* Dale L. Brand, 1992      **Gastonia 1929** John A. Salmond, 2014-10-27 Of the wave of labor strikes that swept through the South in 1929 the one at the Loray Mill in Gastonia North Carolina is perhaps the best remembered In Gastonia 1929 John Salmond provides the first detailed account of the complex events surrounding the strike at the largest textile mill in the Southeast His compelling narrative unravels the confusing story of the shooting of the town s police chief the trials of the alleged killers the unsolved murder of striker Ella May Wiggins and the strike leaders conviction and subsequent flight to the Soviet Union Describing the intensifying climate of violence in the region Salmond presents the strike within the context of the southern vigilante tradition and as an important chapter in American economic and labor history in the years after World War I He draws particular attention to the crucial role played by women as both supporters and leaders of the strike and he highlights the importance of race and class issues in the unfolding of events      Clio's Lives Doug Munro, John G. Reid, 2017-10-09 Including contributions from leading scholars in the field from both Australia and North America this collection explores diverse approaches to writing the lives of historians and ways of assessing the importance of doing so Beginning with the writing of autobiographies by historians the volume then turns to biographical studies both of historians whose writings were in some sense nation defining and those who may be regarded as having had a major influence on defining the discipline of history The final section explores elements of collective biography linking these to the formation of historical networks A concluding essay by Barbara Caine offers a critical appraisal of the study of historians biographies and autobiographies to

date and maps out likely new directions for future work Clio's Lives is a very good scholarly collection that advances the study of autobiography and biography within the writing of history itself taking theoretical questions in significant new directions The contributors are well known and highly respected in the history profession and write with an insight and intellectual energy that will ensure the book has considerable impact They examine cutting edge issues about the writing of history at the personal level through autobiography and biography in diverse and innovative ways Together the writers have provided reflective chapters that will be widely read for their impressive theoretical advances as well as being inspirational for new entrants to the disciplinary area Patricia Grimshaw University of Melbourne Clio's Lives brings together a most interesting and varied cast of contributors Its chapters contain sophisticated and well penned ruminations on the uses of biography and autobiography among historians These are clearly connected with the general themes of the volume This delightfully mixed bag makes very good reading and as well will serve as a substantial contribution to the study of the biography and autobiography Eric Richards Flinders University

Photochemistry, History and Commercial Applications of Hexaarylbiimidazoles Rolf Dessauer, 2006-11-14 The objective of this book is to acquaint the reader with a novel class of photochemical oxidants and polymerization initiators that have become widely accepted in industry As most of the work with these materials is reported in the patent literature an effort has been made to study this area of scientific activity as well as present a thorough review of the journal publications Photochemistry History and Commercial Applications of HABIs also presents new technologies such as waveguides holography along with some more traditional applications i.e. filters litho plates and photoresists A complete review of technology associated with hexaarylbiimidazoles

**Finding the Fountain of Youth** Aharon W. Zorea, 2017-04-26 Separating truth from hype this book introduces readers to the topic of life extension in a holistic manner that provides scientific historical and cultural perspectives While the story of 16th century explorer Juan Ponce de Le'n futilely searching for the Fountain of Youth is likely a myth it is true that for many centuries mankind has sought a cure for aging Today the anti aging and longevity industry is a multibillion dollar industry and medical advances are continuing to find ways to add to our time on earth Finding the Fountain of Youth The Science and Controversy behind Extending Life and Cheating Death introduces readers to the topic of life extension in a holistic manner examining the topic through scientific historical and cultural perspectives It also highlights key medical and ethical controversies related to this particular area of gerontology and serves as a gateway for further research and study The book's chapters address the history of movements to remain youthful from ancient times through the modern era past medical advances that significantly extended the average lifespan and our cultural obsession with staying young that has spawned the anti aging industry Readers will learn about basic principles of aging and anti aging as well as the science behind the methods both proven and hypothetical that serve to extend the lifespan The final section of the book examines controversial issues and debates related to life extension such as global overpopulation length of life versus quality of life and socioeconomic concerns

**Youth and**

**Life** Randolph Silliman Bourne, 1913      **Death, American Style** Lawrence R. Samuel, 2013-07-05 The notion of one day disappearing from the earth forever is contrary to many of America's defining cultural values with death and dying viewed as un-American experiences. Arguing that death and dying may be our last major taboo, this book shows how death and dying became almost unmentionable words over the course of the last century. Although we have recently made some progress in reconciling the fact that life is a finite resource, we remain very unprepared for the approaching tsunami of death as the largest generation in history begins to age and die in great numbers. *DEATH AMERICAN STYLE* is thus highly timely and relevant, suggesting that Americans need to individually and collectively come to terms with mortality if we are to learn to treat death as an inevitable part of life and to prepare accordingly. As more and more Americans face end-of-life decisions, it will be vital for us to radically change the current view of death and dying. The alternative the author argues is that the emerging death-centric society may bring with it a period of turmoil equivalent to that of the countercultural 1960s and 1970s.

**Evolving Issues Surrounding Technoethics and Society in the Digital Age** Luppigini, Rocci, 2014-06-30 The advancement of technologies in the 20th century has radically transformed the interconnectedness of humans, science, and technology within an evolving society. *Evolving Issues Surrounding Technoethics and Society in the Digital Age* serves as an interdisciplinary base of scholarly contributions on the subject of technoethics, a field that deals with current and future problems that arise at the intersection of science, technological innovation, and human life and society. This premier reference work leverages ethical analysis, risk analysis, technology evaluation, and the combination of ethical and technological analyses within a variety of real-life decision-making contexts, appealing to scholars and technology experts working in new areas of technology research where social and ethical issues emerge.

**Truly Human Enhancement** Nicholas Agar, 2023-09-19 A nuanced discussion of human enhancement that argues for enhancement that does not significantly exceed what is currently possible for human beings. The transformative potential of genetic and cybernetic technologies to enhance human capabilities is most often either rejected on moral and prudential grounds or hailed as the future salvation of humanity. In this book, Nicholas Agar offers a more nuanced view, making a case for moderate human enhancement improvements to attributes and abilities that do not significantly exceed what is currently possible for human beings. He argues against radical human enhancement or improvements that greatly exceed current human capabilities. Agar explores notions of transformative change and motives for human enhancement, distinguishes between the instrumental and intrinsic value of enhancements, argues that too much enhancement undermines human identity, considers the possibility of cognitively enhanced scientists, and argues against radical life extension. Making the case for moderate enhancement, Agar argues that many objections to enhancement are better understood as directed at the degree of enhancement rather than enhancement itself. Moderate human enhancement meets the requirement of truly human enhancement. By radically enhancing human cognitive capabilities, by contrast, we may inadvertently create beings, post-persons, with moral status higher than that of persons. If we

create beings more entitled to benefits and protections against harms than persons Agar writes this will be bad news for the unenhanced Moderate human enhancement offers a more appealing vision of the future and of our relationship to technology

**Living Faith Daily in Spirit and in Truth** Rev. Benjamin A. Vima, 2018-12-12 This book contains candid reflections and practical applications of the effective Words of God communicated in and through Jesus and his Church It would be a spiritually nutritious Foodbank for strengthening and enlivening of the people of God It is a large Gift package of Scriptural reflections for Jesus disciples who strive to be genuinely living their faith in daily chores It would also be a sparkling lamp for their feet and a brightening light for their path of holiness The specialty of the term daily is Every day is the only day left in hand with us and it is the only chance entrusted to us As our yesterday gone and our tomorrow in God's hands everything happening within this day's 24 hours will never ever be replicated in tomorrow It is on such conviction this book is structured In this day reflective light the author underlines his main reason for writing this book As I am personally striving to be an extraordinary disciple of Jesus at least one day at a time according to my Master's demands which are spread through the Scriptures I see many of my fellow disciples of Jesus too in this laser and rocket speedy postmodern Age fully benefit by living faith this day in Jesus Way Spirit and Truth This book would certainly assist the readers to listen keenly the voice of God in Jesus at everyday Breaking of the Word and Bread

Spiritualities, ethics, and implications of human enhancement and artificial intelligence Ray Kurzweil, Christopher Benek, Jacob Boss, Philip Reed-Butler, Michael Caligiuri, Irene J. Dabrowski, Mark Graves, Anthony L. Haynor, Braden Molhoek, Peter Robinson, Una Stroda, Tracy J. Trothen, Alan Weissenbacher, 2020-03-02 By taking a religiously and spiritually literature approach this volume gets the heart of several emerging ethical issues crucial to both human identity and personhood beyond the human as technology advances in the areas of human enhancement and artificial intelligence AI Several significant questions are addressed by the contributors such as How far should we go in improving our biological selves How long should we aspire to live What are fair and just human enhancements When will AIs become people What does AI spirituality consist of Can AIs do more than project humour and emotions What are the religious undertones of these high technology quests for better AI and improved human existence Established and emerging voices explore these questions and more in Spiritualities ethics and implications of human enhancement and artificial intelligence This volume will be of interest to university students and researchers absorbed by issues surrounding spiritualities human enhancement and artificial intelligence while also providing points for reflection for the wider public as these topics become increasingly important to our common future

*Martyr of Loray Mill* Kristina Horton, 2015-07-15 Union organizer and balladeer Ella May became a martyr for workers nationwide when she was murdered on her way to a union meeting in Gastonia North Carolina at age 28 A mother of nine and bookkeeper for the communist led National Textile Workers Union May worked to organize fellow mill workers in Gaston County Her efforts to organize black workers along with her brash outspoken manner incensed the local community and she was shot by an anti union vigilante

group on September 14 1929 Written by her great granddaughter this book tells Ella May s story including her involvement in the Loray Mill Strike the largest communist led strike on American soil Her most famous ballad Mill Mother s Lament reveals her motivation It is for our little children      **The Voice of Public Theology** Ted Peters,2022-11-07 Public

theologians are already thundering like prophets at climate change and racial injustice But the gale force winds of natural science blow through society as well The public theologian should be on storm watch      *The Red Thread* Jacob A.

Zumoff,2021-07-16 This book tells the story of 15 000 wool workers who went on strike for more than a year defying police violence and hunger The strikers were mainly immigrants and half were women The Passaic textile strike the first time that the Communist Party led a mass workers struggle in the United States captured the nation s imagination and came to symbolize the struggle of workers throughout the country when the labor movement as a whole was in decline during the conservative pro business 1920s Although the strike was defeated many of the methods and tactics of the Passaic strike presaged the struggles for industrial unions a decade later in the Great Depression      *An Interdisciplinary Approach to*

*Aging, Biohacking and Technology* L.F. Carver,2023-12-19 An Interdisciplinary Approach to Aging Biohacking and Technology focuses on a broad range of issues that cover everything from the most basic ways technology and biohacking influence people s everyday lives to concerns about equity globalization and how we humans produce consume and are consumed by our technologies This edited collection looks at the intersection between technology and aging addressing the ways in which technology affects individuals groups local communities and entire populations Contributions from a range of disciplines including sociology philosophy communications medicine and religion provide interdisciplinary perspectives addressing questions such as What is the impact of technology on adult bodies our well being and our safety The book explores risks such as surveillance technology body modification and the Internet as well as issues in the aging journey such as the body and its modification communication privacy and surveillance gerontechnology and aging in place Critically examining the journey of ageing and exploring techniques such as biohacking this book is for students studying aging and technology including courses such as psychology sociology philosophy cultural studies health studies and gerontology It will also be of interest to scholars who are curious about an interdisciplinary approach to age and technology      *A Novel*

*Heme-Thiolate Peroxygenase AaeAPO and Its Implications for C-H Activation Chemistry* Xiaoshi Wang,2015-10-16 In this thesis Xiaoshi Wang investigates the function and mechanism of a newly discovered heme thiolate peroxxygenase AaeAPO This enzyme class comes from *Agroclybe aegerita* and is used in the conversion of inert hydrocarbons to alcohols Xiaoshi s work focuses on an extracellular P450 enzyme which is not limited in its stability and lack of solubility and therefore is relevant for widespread industrial use The author demonstrates that the peroxxygenase catalyzes a wide range of reactions In some cases the author even describes very difficult transformations in molecules that are highly inert Her detailed investigations provide a mechanistic framework for how the peroxxygenase catalyzes such a large number of reactions A

major highlight of this thesis is the identification of key short lived intermediates in the catalytic cycle of the peroxygenase using rapid kinetic and spectroscopic methods as well as the elucidation of the thermodynamic properties of these high energy intermediates This work adds new insight into an important class of enzymes

**What If Jesus Was Serious About Prayer?** Skye Jethani, 2021-06-01 Good things come to those who believe right People like to say Prayer works But what does that mean Prayer works for what Getting the answers from God that we want so much While God certainly cares for your deepest needs Skye Jethani wants you to know that prayer is so much more than a two way transaction with a heavenly vending machine Jesus didn't pray like that And with a pastor's heart Skye wants to take you deeper into what Jesus the lover of your soul had to say about talking with God In What If Jesus Was Serious About Prayer you'll benefit not only from Skye's words of wisdom but his doodles that help the visual learner connect with spiritual truth Prayer isn't about getting answers but getting God We need more prayer in our lives not because God can give us what we crave but because He offers himself to us in love

**Rhetoric and Ethics in the Cybernetic Age** Jeff Pruchnic, 2013-08-15 It has become increasingly difficult to ignore the ways that the centrality of new media and technologies from the global networking of information systems and social media to new possibilities for altering human genetics seem to make obsolete our traditional ways of thinking about ethics and persuasive communication inherited from earlier humanist paradigms This book argues that rather than devoting our critical energies towards critiquing humanist touchstones we should instead examine the ways in which media and technologies have always worked as crucial cultural forces in shaping ethics and rhetoric Pruchnic combines this historical itinerary with critical interrogations of diverse cultural and technological sites the logic of video games and artificial intelligence the ethics of life extension in contemporary medicine the transition to computer automated trading in world stock markets the state of critical theory in the contemporary humanities along with innovative analyses of the works of such figures as the Greek Sophists Kenneth Burke Martin Heidegger Michel Foucault Friedrich Nietzsche and Gilles Deleuze This book argues that our best strategies for crafting persuasive communication and producing ethical relations between individuals will be those that creatively replicate and appropriate rather than resist the logics of dominant forms of media and technology
