## Radio Mystery:

### **Radio Mystery and Adventure and Its Appearances in Film, Television and Other Media** Jim Harmon, 2011-01-14

From the 1920s to the 1950s radio was the entertainment source for millions. Two of the primary themes of radio serials were mysteries and adventure. This is a detailed analysis of the important programs in these genres: Jack Armstrong, The Green Hornet, Sergeant Preston, Tom Mix, and more. Each entry includes type of series, broadcast days, air dates, sponsors, network, cast, and production credits, and a comprehensive essay. When, as often happened, the series landed in other media, that is examined as well. *The Radio Mystery*, Gertrude Chandler Warner, 2003-11-01. *Boxcar Children* 97. **Radio News**, 1927. Some issues 1943, July 1948 include separately paged and numbered section called *Radio*. *Electronic Engineering* edition called *Radionics* edition in 1943. *Radio*, William A. Richter, 2006. From payola to podcasting, from the advertising office to the DJ booth to the station antenna. *Radio: A Complete Guide to the Industry* offers a concise one-stop introduction to all aspects of the radio industry. Readers are taken on a lively tour of radio's history from the early experiments with wireless to today's satellite and digital radio. Industry veteran William A. Richter brings readers inside the typical station to explain who does what and how all the pieces fit together. The book also includes some brief interviews from working professionals for more perspective. Richter explains how ratings work, gives an overview of the major industry players, and guides readers through FCC regulations and other ethical and legal issues that impact radio. Written in a crisp, easy style and including glossaries in each chapter, *Radio* is well suited for a range of courses on radio. It is a valuable resource for anyone interested in radio, from aspiring college DJs to general managers of radio stations. *Crabtracks*, 2021-12-28. The essays in this collection celebrate the signal achievement of Dieter Riemenschneider in helping found and consolidate the study of postcolonial anglophone literatures in Germany and Europe. As well as poems, a short story, drawings of the Indian scene, the first and abiding focus of this scholar's work, and letters of reminiscence, one quite grave, there are revealing contributions of a literary-historical nature on the establishment of anglophone, especially African, literatures as an academic discipline within Germany, the UK, and Northern Europe, generally, as well as a group of searching reflections on such topics of postcolonial import as globalization and the applicability of models to the literature of the indigene in Canada and Australia. The largest section is devoted to individual topics, each treatment implicitly keyed to approaches to the teaching of New Literatures texts. Writers covered include Anita Desai, landscape and memory, Salman Rushdie, painting in *The Moor's Last Sigh*, Charlotte Brontë, imperial discourse in *Jane Eyre*, Derek Walcott, *Omeros*, and cultural cohabitation, and Witi Ihimaera, his rewriting of Katherine Mansfield. Topics dealt with include music and radio in West Africa, the African literary hit parade, the New Zealand prose poem, Canadian and Australian war fiction, the Middle Passage in the American and Caribbean novel, Paul Theroux's uneasy relations with V. S. Naipaul, and the colonial discourse of illness and recuperation. The volume closes with Dieter Riemenschneider's very first and most recent critical essays: the one, a classic on Mulk Raj Anand; the other, a challenging and

doubtless controversial thesis on postcolonial minority writing A select bibliography of Riemenschneider's work books edited publications journal articles and book contributions reviews and broadcasts rounds off this substantial collection     **Radio Programs, 1924-1984** Vincent Terrace,2015-09-02 This is an encyclopedic reference work to 1 802 radio programs broadcast from the years 1924 through 1984 Entries include casts character relationships plots and storylines announcers musicians producers hosts starting and ending dates of the programs networks running times production information and when appropriate information on the radio show's adaptation to television Many hundreds of program openings and closings are included     *Radio Crime Fighters* Jim Cox,2015-06-14 In the early days of radio producers directors and scriptwriters were well aware of the listening public's fascination with subject matter tinged with wrongdoing Stories of right and wrong crime and punishment and law and order kept audiences of every age hooked for more than thirty years This work covers 300 syndicated radio mystery and adventure serials that aired in the early or middle twentieth century To be included a series must have had one or more regularly appearing characters who fought against espionage theft murder and other crimes Each entry includes series name air dates sponsor extant episodes cast information and synopsis     **Radio** ,1923

Swartz,2010-04-09 The term Old Time Radio refers to the relatively brief period from 1926 when the National Broadcasting Company first began network broadcasting until approximately 1960 when television became the dominant communication medium in the United States During this time radio was as popular and ubiquitous as television is today It was amazingly varied in the types of programming it offered many characters and programs were so popular that virtually everyone was familiar with them Even today recorded versions of these programs are still extremely popular and widely available both from commercial outlets and from hobbyists Behind the production of these programs was a complex technological and financial infrastructure that had to be developed virtually from scratch in a world unaccustomed to the rapid communication and technological marvels that we take for granted today The A to Z of Old Time Radio provides essential facts and information on the Golden Age of Radio This is accomplished through the use of a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on the radio networks programs directors producers writers actors radio series and radio stations Entries on your favorite shows The Lone Ranger The Shadow Dragnet and Suspense and actors Bob Hope George Burns Gracie Allen and Edgar Bergen will have you jumping from one entry to the next as you relive old favorites and discover hidden treasures from the Golden Age of Radio

Nahin,2025-09-16 How a modern radio works told through mathematics history and selected puzzles The modern radio is a wonder and behind that magic is mathematics In *The Mathematical Radio* Paul Nahin explains how radios work deploying mathematics and historical discussion accompanied by a steady stream of intriguing puzzles for math buffs to ponder Beginning with oscillators and circuits then moving on to AM FM and single sideband radio Nahin focuses on the elegant mathematics underlying radio technology rather than the engineering He explores and explains more than a century of key developments placing them in historical and technological context Nahin a prolific author of books on math for the general reader describes in fascinating detail the mathematical underpinnings of a technology we use daily He explains and solves for example Maxwell's equations for the electromagnetic field Readers need

only a familiarity with advanced high school level math to follow Nahin's mathematical discussions. Writing with the nonengineer in mind, Nahin examines topics including impulses in time and frequency, spectrum shifting at the transmitter, the superheterodyne, the physics of single sideband radio, and FM sidebands. Chapters end with challenge problems, and an appendix offers solutions, partial answers, and hints. Readers will come away with a new appreciation for the beauty of even the most useful mathematics.
