Radio Elvis And Other Stories:

Radio Elvis and Other Stories John H. Irsfeld, 2002 Urban legends Las Vegas and life in the U S Army are deftly captured in these stories by novelist John Irsfeld With imagination bordering on the quirky or absurd Irsfeld brings back to life a fictional character from Scott Fitzgerald s *The Great Gatsby* and presents Elvis as alive and in hiding years after his reported death *The Marriage Auditors* brings to mind George Orwell s 1984 only in this case it s not Big Brother watching individuals but a team who monitor marriages and force the dissolution of those they deem unsuccessful Irsfeld also writes of life as he has known it He has for instance lived in the shadow of the Las Vegas Strip for years In the Las Vegas stories he looks at the city and sees a playground where little about life seems real Tourists and residents alike operate in the sounds and shadows of the cards the wheels and the slots The army stories in this book spring from Irsfeld s own experiences in the U S Infantry With a thorough and probably hard earned knowledge of army ways he captures the reality of barracks life among men who may at any time find themselves sent to a far off unfamiliar place called Vietnam Several of the stories follow one man eventually demonstrating the effect of the army on him when he becomes a civilian Irsfeld s view of America is not one of bucolic landscapes happy families or settled societies During these times of wars and rumors of war his tales fit our national life and express our fears and distractions

Regionalism and the Humanities Timothy R. Mahoney, Wendy J. Katz, 2008-12-01 Although the framework of regionalist studies may seem to be crumbling under the weight of increasing globalization this collection of seventeen essays makes clear that cultivating regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from poets and fiction writers literary historians musicologists and historians of architecture agriculture and women this volume implements some of the most innovative and intriguing approaches to the history and value of regionalism as a category for investigation in the humanities In the volume s inaugural essay Annie Proulx discusses landscapes in American fiction comments on how she constructs characters and interprets current literary trends Edward Watts offers a theory of region that argues for comparisons of the United States to other former colonies of Great Britain including New Zealand Australia and Canada Whether considering a writer s connection to region or the idea of place in exploring what is meant by regionalism these essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are framed within the fundamental premise of the humanities the search to understand what it means to be human **Short**
