This Isn't Happening Steven Hyden,2020-09-29 THE MAKING AND MEANING OF RADIOHEAD S GROUNDBREAKING CONTROVERSIAL EPOCHDEFINING ALBUM KID A In 1999 as the end of an old century loomed five musicians entered a recording studio in Paris without a deadline Their band was widely recognized as the best and most forward thinking in rock a rarefied status granting them the time money and space to make a masterpiece But Radiohead didn t want to make another rock record Instead they set out to create the future For more than a year they battled writer s block intra band disagreements and crippling self doubt In the end however they produced an album that was not only a complete departure from their prior guitar based rock sound it was the sound of a new era and it embodied widespread changes catalyzed by emerging technologies just beginning to take hold of the culture What they created was Kid A Upon its

release in 2000 Radiohead's fourth album divided critics. Some called it an instant classic, others such as the UK music magazine *Melody Maker* deemed it tubby, ostentatious, self-congratulatory, whiny, old rubbish. But two decades later *Kid A* sounds like nothing less than an overture for the chaos and confusion of the twenty-first century. Acclaimed rock critic Steven Hyden digs deep into the song's history, legacy, and mystique of *Kid A*, outlining the album's pervasive influence and impact on culture in time for its twentieth anniversary in 2020. Deploying a mix of criticism, journalism, and personal memoir, Hyden skillfully revisits this enigmatic, alluring LP and investigates the many ways in which *Kid A* shaped and foreshadowed our world. Radiohead's Kid A Marvin Lin, 2011-01-27 **Perfect from Now On** John Sellers, 2008-03-04 Sellers, a pop culture journalist with articles published in *GQ* and *The New York Times*, has written a rock music fan's memoir overflowing with humor, self-deprecation, encyclopedic knowledge, and wishes you were there. These Days Are Ours Michelle Haimoff, 2012-02-28 *Commencement* meets *Less Than Zero* in this novel about a young woman who, still jobless after college and living in her family's 5th Avenue penthouse, tries to make sense of her wide-open future in post-9/11 Manhattan. Six months after September 11th, New Yorkers are instructed to get on with their lives despite the terror advisories; streets filled with 9/11 merchandise and mail that may contain anthrax. But for Hailey, still jobless after college and living in her family's Fifth Avenue penthouse, getting on with life means getting closer to Michael Brenner, the Princeton graduate and future human rights lawyer who seems to have it all. The city feels as if it's on the brink of apocalypse, and seeking out any sort of future seems pointless. So Hailey and her friends, Katie (already working at Morgan Stanley), Randy (a trust fund kid who wears sweaters with holes in them), and Jess (confident of her future success regardless of her present inertia), stay out all night, dream up get-rich-quick schemes, and aspire to greatness while questioning how much that greatness really matters. **The Rock Canon** Carys Wyn Jones, 2017-07-05 Canons are central to our understanding of our culture, and yet in the last thirty years there has been much conflict and uncertainty created by the idea of the canon. In essence, the canon comprises the works and artists that are widely accepted to be the greatest in their field. Yet such an apparently simple construct embodies a complicated web of values and mechanisms. Canons are also inherently elitist; however, Carys Wyn Jones here explores the emerging reflections of values, terms, and mechanisms from the canons of Western literature and classical music in the reception of rock music. Jones examines the concept of the canon as theorized by scholars in the fields of literary criticism and musicology before moving on to search for these canonical facets in the reception of rock music as represented by ten albums: Bob Dylan's *Highway 61 Revisited*, The Beach Boys' *Pet Sounds*, The Beatles' *Revolver*, The Velvet Underground's *The Velvet Underground*, Nico Van Morrison's *Astral Weeks*, Marvin Gaye's *What's Going On*, The Rolling Stones' *Exile on Main St*, Patti Smith's *Horses*, The Sex Pistols' *Never Mind the Bollocks, Here's the Sex Pistols*, and Nirvana's *Nevermind*. Jones concludes that in the reception of rock music we are not only trying to organize the past but also mediate the present, and any canon of rock music must now negotiate a far more pluralized culture and possibly accept a greater degree of change.

than has been evident in the canons of literature and classical music in the last two centuries
