Rafael Soriano And The Poetics Of Light:

Rafael Soriano and the poetics of light Ricardo Pau-Llosa, Rafael Soriano, 1998 *Cuban Artists Across the Diaspora* Andrea O'Reilly Herrera, 2011-07-11 As an island a geographical space with mutable and porous borders Cuba has never been a fixed cultural political or geographical entity Migration and exile have always informed the Cuban experience and loss and displacement have figured as central preoccupations among Cuban artists and intellectuals A major expression of this experience is the unconventional multi generational itinerant and ongoing art exhibit CAF The Journeys of Cuban Artists In Cuban Artists Across the Diaspora Andrea O'Reilly Herrera focuses on the CAF project to explore Cuba's long and turbulent history of movement and rupture from the perspective of its visual arts and to meditate upon the manner in which one reconstitutes and reinvents the self in the context of diaspora Approaching the Cafeteros art from a cultural studies perspective O'Reilly Herrera examines how the history of Cuba informs their work and establishes their connections to past generations of Cuban artists In interviews with more than thirty artists including Jos Bedia Mar a Brito Leandro Soto Glexis Novoa Baruj Salinas and Ana Albertina Delgado O'Reilly Herrera also raises critical questions regarding the many and sometimes paradoxical ways diasporic subjects self affiliate or situate themselves in the narratives of scattering and displacement She demonstrates how the Cafeteros artmaking involves a process of re-rooting absorption translation and synthesis that simultaneously conserves a series of identifiable Cuban cultural elements while re-inscribing and transforming them in new contexts An important contribution to both diasporic and transnational studies and discussions of contemporary Cuban art Cuban Artists Across the Diaspora ultimately testifies to the fact that a long tradition of Cuban art is indeed flourishing outside the island **Cuban-American Art in Miami** Lynette M.
