London In 1861 John Hollingshead,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1861 edition Excerpt 90 000Z per annum in the last five years i e from 1852 to 1857 It would startle any of the respectable ratepayers of the richer parishes to be informed of the number of summonses that are issued every quarter for the rates they amount to upwards of 4 000 in the parish of George s in the East alone And of course many of the poor persons summonsed are unable to pay The Poor Law And The Police Courts For some time past monthly returns of the number of persons in receipt of relief in England and Wales have shown a decrease in comparison with the corresponding months of the previous year but at length in December the scale has been turned and whereas at the close of 1859 the number was 827 461 it was 835 129 at the close of 1860 an increase of 7 668 not far from 1 per cent This increase is chiefly due to the midland counties and the metropolis Wales and the eastern counties adding in a less degree to it but the manufacturing districts in the north continued to show a considerable decrease in the number of paupers relieved Thus far as to the comparison between December 1859 and December 1860 but another comparison may be made namely between the beginning and the end of December last to show to what extent the poor law had then met the distress caused by the severe weather which set in in the middle of that month Now these returns show that Quoted from The Times the numbers relieved at the end of the first week of last December were 807 187 and at the end of the fourth week 835 129 an increase of only 27 942 or 3 46 per cent In fact the increase of relief in that extraordinary weather was not so very much more than always takes place in December In December 1858 the numbers relieved at the end of the Respectability and the London Poor, 1780-1870 Lynn MacKay,2015-10-06 The population of London soared during the Industrial Revolution and the poorer areas became iconic places of overcrowding and vice Focusing on the communities of Westminster MacKay shows that many of the plebeian populace retained traditional working class pursuits such as gambling drinking and blood sports London's Criminal Underworlds, c. 1720 - c. 1930 Heather Shore,2015-03-14 This book offers an original and exciting analysis of the concept of the criminal underworld Print culture policing and law enforcement criminal networks space and territory are explored here through a series of case studies taken from the eighteenth nineteenth and twentieth centuries **Victorian London** Liza Picard,2014-01-28 To Londoners the years 1840 to 1870 were years of dramatic change and achievement As suburbs expanded and roads multiplied London was ripped apart to build railway lines and stations and life saving sewers The Thames was contained by embankments and traffic congestion was eased by the first underground railway in the world A start was made on providing housing for the deserving poor There were significant advances in medicine and the Ragged Schools are perhaps the least known of Victorian achievements in those last decades before universal state education In 1851 the Great Exhibition managed to astonish almost everyone attracting exhibitors and visitors from all over the world But there was also appalling poverty and exploitation exposed by Henry Mayhew and others For the laboring classes pay was pitifully

low the hours long and job security nonexistent Liza Picard shows us the physical reality of daily life in Victorian London She takes us into schools and prisons churches and cemeteries Many practical innovations of the time flushing lavatories underground railways umbrellas letter boxes driving on the left point the way forward But this was also at least until the 1850s a city of cholera outbreaks transportation to Australia public executions and the workhouse where children could be sold by their parents for as little as 12 pence and streetpeddlers sold sparrows for a penny tied by the leg for children to play with Cruelty and hypocrisy flourished alongside invention industry and philanthropy

Eternal Slum Anthony S. Wohl,2001-03-01 The problem of how where and on what terms to house the urban masses in an industrial society remains unresolved to this day In nineteenth century Victorian England overcrowding was the most obvious characteristic of urban housing and despite constant agitation it remained widespread and persistent in London and other great cities such as Manchester Glasgow and Liverpool well into the twentieth century The Eternal Slum is the first full length examination of working class housing issues in a British town The city investigated not only provided the context for

the development of a national policy but also in scale and variety of response stood in the vanguard of housing reform The failure of traditional methods of social amelioration in mid century the mounting storm of public protest the efforts of individual philanthropists and then the gradual formulation and application of new remedies constituted a major theme the need for municipal enterprise and state intervention Meanwhile the concept of overcrowding never precisely defined in law but based on middle class notions of decency and privacy slowly gave way to the positive idea of adequate living space with comfort as much as health or morals the criterion Not just dwellings but people were at issue There is little evidence in this period of the attitude of the worker himself to his housing Wohl has extensively researched local archives and in particular drawn on the vestry reports which have been relatively neglected Profusely illustrated with contemporary photographs and drawings this book is the definitive study of the housing reform movement in Victorian and Edwardian London and suggests what it was really like to live under such appalling conditions This important study will be of interest to social historians British historians urban planners and those interested in how social policies developed in previous eras **Vagabonds** Oskar Jensen, 2024-02-20 Dickensian London is brought to real and vivid life in this innovative accessible social history revealing the true character of this place and time through the stories of its street denizens shortlisted for the Wolfson History Prize 2023 London 1857 A pair of teenage girls holding a sign that says Fugitive Slaves ask for money on the corner of Blackman Street After a constable accosts them and charges them with begging they end up in court where national newspapers pick up their story Are the girls truly escaped slaves from Kentucky Or will the city's dystopian Mendicity Society catch them in a lie exposing them as born and raised Londoners and endangering their safety With its many accounts of people like these who lived and made their living on the streets Vagabonds forms a moving picture of London's most compelling period 1780 1870 Piecing together contemporary sources such as newspaper articles letters and journal entries historian Oskar Jensen follows the harrowing hopeful journeys of the city's poor children immigrants street performers thieves and sex workers all diverse in gender ethnicity ability and origin For the first time their own voices give us a radical new perspective on this moment in history with its deep inequality that bears an astonishing resemblance to our own era's divides **High Calvinists in Action** Ian J. Shaw, 2003-02-06 This valuable contribution to the debate about the relation of religion to the modern city fills an important gap in the historiography of early nineteenth century religious life Although there is some evidence that strict doctrine led to a more restricted response to urban problems extensive local and personal variations mean that simple generalizations should be avoided Ian J Shaw argues against earlier prejudiced views and shows that high Calvinists played a vigorous and successful part in the response of early nineteenth century churches to the process of urbanization The study includes six substantial case studies of ministers and their churches in Manchester and London Four high Calvinist ministers are considered with two studies of ministers holding to an evangelical Calvinist doctrine also included to provide instructive contrasts Detailed social analysis of the congregations is based upon extensive use of manuscript and printed sources
