Government Accountability Office (,2013-06 Pursuant to a legislative requirement GAO reviewed the effectiveness of the Department of Transportation s DOT rail safety inspection and enforcement programs focusing on the 1 improvement the Federal Railroad Administration FRA has made in its track inspection program and 2 implementation problems that still limit the effectiveness of track inspections GAO found that 1 FRA has improved its track inspection program and its strategy for correcting its weaknesses is sound 2 to further strengthen rail safety FRA needs to incorporate site specific data on passenger and hazardous materials traffic in its inspection plan and improve the reliability of accident and injury data 3 FRA has enhanced its daily oversight of track safety activities 4 inspectors are applying track safety regulations and reporting track defects more consistently than before 5 FRA does not always enforce its policy that inspectors review a railroad s compliance history before physically inspecting a track 6 FRA faces a difficult challenge in revising the safety standards for excepted track 7 track safety regulations do not allow FRA inspectors to write violations for excepted track and do not require railroads to fix cited defects and 8 the number of reported accidents and cited defects on excepted track has increased and FRA is concerned that railroads have abused the excepted track provision *Railroad Safety* Phyllis F.
