Department of Transportation, A Great and Shining Road John Hoyt Williams, 1996-01-01 The Union Pacific and Central Pacific Railroads were officially joined on May 10 1869 at Promontory Point Utah with the driving of a golden spike This historic ceremony marked the completion of the first transcontinental railroad Spanning the Sierras and the Great American Desert the tracks connected San Francisco to Council Bluffs Iowa A Great and Shining Road is the exciting story of a mammoth feat that called forth entrepreneurial daring financial wizardry technological innovation political courage and chicanery and the heroism of thousands of laborers **Trains and Technology** Anthony J. Bianculli, 2001 This work presents a view of the history of American railroads in the nineteenth century from a somewhat different perspective The maturation of the railroad is traced through an exposition of the railroad technology that was developed and applied during the period Throughout the nineteenth century a symbiotic relationship existed between railroading and technology each dependent upon the state and progress of the other to a large degree A great deal of new technology was created for the railroad and the railroad in turn applied new technology as it became available Volume four is about bridges and tunnels and

signals An exposition of the various types of bridges their foundations and the materials of which they were made is included Tunnels and marine railroad operations are treated also The development of signal systems is an area that has been overlooked or neglected in the general literature but is fully covered here The text of this volume is accompanied by 145 illustrations and accurate drawings of the equipment and appliances many of which have not been published before outside of old technical journals Anthony J Bianculli is a mechanical engineer with extensive and varied experience in a Fortune 500 company
