Inscribed Power Ryan D. Giles, 2017-09-18 In *Inscribed Power* Ryan D. Giles explores the function of amuletic prayers, divine names, and incantation formulas that were inscribed and printed on parchment paper and other media and at the same time inserted into classic literary works in Spain. Giles' insightful analysis of the intersection between amulets and literary texts offers fresh and original interpretations of well-known texts such as the *Poema de m o Cid*, the *Libro de Alexandre*, the *Libro de buen amor*, *Celestina*, *Lazarillo de Tormes*, and the *Busc n*. *Inscribed Power* is a fascinating work that highlights specific amuletic texts that were used to heal, protect, or otherwise provide a blessing or curse to discover how their powers could influence fictional lives at different moments in the development of Spanish literature. *Rain of Fire* John Morrocco, 1985 Photographs, maps, and eyewitness accounts describe the War in Vietnam. Capturing Sound Mark Katz, 2004-11 There is more to sound recording than just recording sound. Far from being simply a tool for the preservation of music, the technology is a catalyst. This is the clear message of *Capturing Sound*, a wide-ranging, deeply informative, consistently entertaining history of recording's profound impact on the musical life of the past century, from Edison to the Internet. In a series of case studies, Mark Katz explores how recording technology has encouraged new ways of listening to music, led performers to change their practices, and allowed entirely new musical genres to come into existence. An accompanying CD featuring thirteen tracks from Chopin to Public Enemy allows readers to hear what Katz means when he discusses music as varied as King Oliver's *Dippermouth Blues*, a Jascha Heifetz recording of a Brahms Hungarian Dance, and Fatboy Slim's *Praise You*. **Fire and Rain** Carolyn Woods Eisenberg, 2023 Offering a fresh perspective on the American war in Southeast Asia and superpower diplomacy during the Nixon-Kissinger years, this gripping work draws on thousands of declassified documents and tapes to provide a startling account of the impact of high-level decisions in Washington on people in Vietnam, Laos, Cambodia, and the United States. *Fire and Rain* H. A. Covington, 2000-10-29 CHAPEL HILL NORTH CAROLINA OCTOBER 1970 On a chilly autumn night in this chic and cultured Southern university town, two teenaged girls named Mary Jane Mears and Jeannie Arnold are brutally raped and murdered. The killers are never caught or identified, and over the years the case is buried in musty files in police basements. CHAPEL HILL NORTH CAROLINA OCTOBER 1996 Twenty-six years later, autumn returns to Carolina. So does Matt Redmond, a hardened and embittered veteran DEA agent who has left his career in Washington and come home to solve the killing of the two girls, one of them his high school sweetheart. In an ironic twist, Matt's pursuit of the secret of his first love's death brings him another: A proud and struggling single mother, Heather Lindstrom, comes to share his passion for truth and justice for the victims. But there is danger in disturbing the skeletons in Chapel Hill's academic closet, for behind the horrific 1970 slayings lies one of the dirtiest and most dangerous secrets of the Vietnam protest era. The most powerful men and women in the land want Matt Redmond off this case, and they will do whatever is necessary to stop him, including murder. The price Matt and Heather pay

Mexican to tell their tale What I had to offer was my own idiosyncratic view of the situation Since I had experience with ecstatic trance postures I wondered if rune shapes corresponded with ancient ecstatic body postures Once I turned towards the much older and more mysterious visionary roots of the Runes my path to a runic story of creation began to open I ended up with a mosaic of a sacred World Tree made of ancient bits and pieces I hope they can open creative experiential doors for those drawn to work in the runic realms Keywords Ancestry Creation Myths Ecstatic Trance Postures Epigenetics Rune Stances Runes Sacred Speech World Tree Shamanism Sustainable *Thomas Moran* Thomas Moran, Anne Morand, 1996 This illustrated catalog of Thomas Moran's field sketches includes an interpretive essay tracing the artist's seventy year career in the field a chronological stylistic and geographical survey of his fieldwork an illustrated checklist of the 1080 sketches in public collections Moran is best known for his work in the American West during the post Civil War expansion particularly in what would become Yellowstone Grand Canyon and Yosemite national parks Yet this virtuoso painter and draftsman also traveled in search of inspiration in Pennsylvania New York's Long Island Florida Wisconsin Mexico England Scotland Wales France and Italy returning repeatedly to favorite subjects An almost compulsive desire to sketch refined his innate skill as one of America's finest landscape artists Most of Moran's known field sketches are reproduced here As described in the introduction their range encompasses summary contour drawings of the spectacular topography of the American West luminous watercolors that simultaneously fix local color and evoke the artist's rapturous response to the natural world and fully realized works that nevertheless preserve the intensity of Moran's firsthand experience of his plein air subjects No serious formal study of Thomas Moran can be made without reference to this volume *The Moabite Inscription* William Wright, 1870 *Electrical Merchandising*, 1924 *Europe After the Rain* Alan Burns, An experimentalist novel which captures the collective unconscious of the twentieth century in a language that can have few rivals for economy beauty and rhythm *Fingerprints of the Gods* Graham Hancock, 2025-06-17 Could the story of mankind be far older than we have previously believed Using tools as varied as archaeo astronomy geology and computer analysis of ancient myths Graham Hancock presents a compelling case to suggest that it is Graham Hancock is featured in the popular Ancient Apocalypse a Netflix original docuseries Hancock structures his arguments through the scientific method He's asking the right questions If it's true then it can significantly change the course of history and our understanding of our civilisations Medium In *Fingerprints of the Gods* Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past In ancient monuments as far apart as Egypt's Great Sphinx the strange Andean ruins of Tiahuanaco and Mexico's awe inspiring Temples of the Sun and Moon he reveals not only the clear fingerprints of an as yet unidentified civilization of remote antiquity but also startling evidence of its vast sophistication technological advancement and evolved scientific knowledge A record breaking 1 bestseller in Britain *Fingerprints of the Gods* contains the makings of an intellectual revolution a dramatic and irreversible change in the way that we understand our past and so our

future And Fingerprints of the Gods tells us something more As we recover the truth about prehistory and discover the real meaning of ancient myths and monuments it becomes apparent that a warning has been handed down to us a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time a cataclysm that may be about to recur

Beyond Heaven and Earth Gabriel Levy, 2022-02-01 An approach to understanding religion that draws on both humanities and natural science but rejects approaches that employ simple monisms and radical dualisms In *Beyond Heaven and Earth* Gabriel Levy argues that collective religious narratives and beliefs are part of nature they are the basis for the formation of the narratives and beliefs of individuals Religion grows out of the universe but to make sense of it we have to recognize the paradox that the universe is both mental and material or neither We need both humanities and natural science approaches to study religion and religious meaning Levy contends but we must also recognize the limits of these approaches First we must make the dominant metaphysics that undergird the various disciplines of science and humanities more explicit and second we must reject those versions of metaphysics that maintain simple monisms and radical dualisms Bringing Donald Davidson's philosophy a form of pragmatism known as anomalous monism to bear on religion Levy offers a blueprint for one way that the humanities and natural sciences can have a mutually respectful dialogue Levy argues that in order to understand religions we have to take their semantic content seriously We need to rethink such basic concepts as narrative fiction information agency creativity technology and intimacy In the course of his argument Levy considers the relation between two closely related semantics fiction and religion and outlines a new approach to information He then applies his theory to discrete cases ancient texts modern media and intimacy
