Rainer Werner Fassbinder Text Kritik 103:

Understanding Rainer Werner Fassbinder Wallace Steadman Watson, 1996 Watson's draws on a wide assortment of Fassbinder interviews many of which are not available in English and on theoretical and critical approaches employed in the Frankfurt School performance and reception theories gay and lesbian film theory and studies of melodrama and camp Watson also incorporates his own interviews with Fassbinder's mother and with the woman who served as Fassbinder's film editor and companion during the final four years of his life A comprehensive balanced study Understanding Rainer Werner Fassbinder also features an annotated bibliography extensive notes a filmography of Fassbinder's works and a listing of films and television programs that examine Fassbinder and his achievements Back cover

The Critical Reception of Alfred Döblin's Major Novels Wulf Köpke, 2003 The first thorough study in English of the reception of Döblin's novels written by one of the foremost Döblin scholars Alfred Döblin 1878-1957 is one of the major German writers of the twentieth century His experimental ever changing avant garde style kept both readers and critics off guard and although he won the acclaim of critics and had a clear impact on German writers after the Second World War Günter Grass called him my teacher he is still largely unknown to the reading public and under researched by literary scholars He was a prolific writer with thirteen novels alongside a great many other shorter fiction works and non fiction writings to his credit and yet paradoxically he is known to a larger public as the author of only one book the 1929 novel Berlin Alexanderplatz which sold more copies in the first weeks of publication than all his previous novels combined Alexanderplatz is known for its depiction of the criminal underground of Berlin and a montage and stream of consciousness technique comparable to James Joyce's Ulysses it became one of the best known big city novels of the century and has remained Döblin's one enduring popular success Döblin was forced into exile in 1933 and the works he wrote in exile were neglected by critics for decades Now epic works like Amazonas November 1918 and Hamlet Oder die lange Nacht nimmt ein Ende are finding a fairer critical evaluation Wulf Köpke tackles the paradox of Döblin the leading but neglected avant gardist by analysis of contemporary and later criticism both journalistic and academic always taking into account the historical context in which it appeared Wulf Köpke is Professor Emeritus at Texas A M University

Rainer Werner Fassbinder's Controversy: Anti-Semitism or Public Discourse?, 2013-09-29 Examines anti-Semitism in Rainer Fassbinder's artistic work especially his ill famed play of 1975 Der Müll, die Stadt und der Tod i.e. the phenomenon of cultural anti-Semitism in post war Germany Fassbinder was many times accused for embodying implicitly or explicitly some anti-Semitic or Fascist elements in his works In this undertaking I attempt to confront these allegations historically and analytically

Rainer Werner Fassbinder and the German Theatre David Barnett, 2005-11-24 Publisher description

When Heimat Meets Hollywood Christine Haase, 2007 Contemporary connections between German directors and Hollywood and their implications for German American and transnational film The film histories of Germany and the United States have long been seen as intertwined but scholarship has focused on migr. works of the 1930s and 1940s on links

between Weimar film and American film noir and on the conflicted relationship between directors of the New German Cinema and Hollywood. Recently German film studies has begun reexamining the interconnection of the two film cultures and focusing on the internationalism of German cinema but little research has been done on contemporary German directors involvement in American cinema a gap in scholarship that this book fills. The study offers ways of understanding current German cinematic engagement with America and different directorial responses to the hegemonic pressures of Hollywood. It delineates the historical trajectory of German American film relations in the 20th century then analyzes the careers and works of four German born directors who have significant ties with American cinema: Wolfgang Petersen, Roland Emmerich, Percy Adlon, and Tom Tykwer. A series of close readings of their productions isolates the cinematic practices and strategies with which these filmmakers negotiate the different national cultural and cinematic paradigms they traverse. The book analyzes constructions of national cultural identity, probes the boundaries of national cinemas, and expands our understanding of emerging hybrid film cultures. It is a contribution to German film studies and to the emerging field of transnational film studies.

Christine Haase is Associate Professor of German at the University of Georgia.

Fassbinder's Germany Thomas Elsaesser, 1996 Rainer Werner Fassbinder is one of the most prominent and important authors of post war European cinema. Thomas Elsaesser is the first to write a thoroughly analytical study of his work. He stresses the importance of a closer understanding of Fassbinder's career through a re-reading of his films as textual entities. Approaching the work from different thematic and analytical perspectives, Elsaesser offers both an overview and a number of detailed readings of crucial films while also providing a European context for Fassbinder's own coming to terms with fascism.

The A to Z of German Cinema Robert C. Reimer, Carol J. Reimer, 2010-04-01 German film is diverse and multi-faceted; its history includes five distinct German governments: Wilhelmine Germany, the Weimar Republic, the Third Reich, the Federal Republic of Germany, and the German Democratic Republic; two national industries: Germany and Austria; and a myriad of styles and production methods. Paradoxically, the political disruptions that have produced these distinct film eras as well as the natural inclination of artists to rebel and create new styles allow for the construction of a narrative of German film. While the disjuncture generates distinct points of separation, it also highlights continuities between the ruptures. Outlining the richness of German film, *The A to Z of German Cinema* covers mainstream, alternative, and experimental film from 1895 to the present through a chronology, introductory essay, appendix of the 100 most significant German films, a bibliography, and hundreds of cross-referenced dictionary entries on directors, actors, films, cinematographers, composers, producers, and major historical events that greatly affected the direction and development of German cinema. The book's broad canvas will lead students and scholars of cinema to appreciate the complex nature of German film.

Television, Tabloids, and Tears Jane Shattuc, 1995 I am Biberkopf. Rainer Werner Fassbinder declared, aligning himself with the protagonist of his widely seen television adaptation of Berlin Alexanderplatz. The statement provoked an unprecedented national debate about what constituted an

acceptable German artist and who has the power to determine art More than any recent German director Fassbinder embodied this debate and Jane Shattuc shows us how much this can tell us not just about the man and his work but also about the state of culture in Germany It is fascinating in itself that Fassbinder a highly controversial public figure

Historical Dictionary of German Cinema Robert C. Reimer, Carol J. Reimer, 2019-07-15 The History of German film is diverse and multi faceted This volume can only suggest the richness of a film tradition that includes five distinct German governments Wilhelmine Germany the Weimar Republic the Third Reich the Federal Republic of Germany West Germany and the German Democratic Republic East Germany as well as a reunited Germany two national industries Germany and Austria and a myriad of styles and production methods Paradoxically the political disruptions that have produced these distinct film eras as well as and the natural inclination of artists to rebel and create new styles allow for construction of a narrative of German film Disjuncture generates distinct points of separation and yet also highlights continuities between the ruptures This second edition of Historical Dictionary of German Cinema contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 200 cross referenced entries on directors actors films cinematographers composers producers and major historical events that greatly affected the direction and development of German cinema This book is an excellent resource for students researchers and anyone wanting to know more about German cinema

Personal Experience and the Media Klaus Ulrich Miltz, 2006 The work of the West German artist Rainer Werner Fassbinder is as versatile as it is extensive During the 16 years of his artistic career Fassbinder produced more than 40 films and staged 29 plays half of which he had written himself In doing so he not only drew on aesthetic traditions as diverse as the German folk play the American gangster film Hollywood melodrama the Theatre of Cruelty and the French Nouvelle Vague but also worked in three media simultaneously theatre cinema and television It has often been pointed out that this versatility appears to forestall any conceptualisation of Fassbinder's work from the vantage point of its production The present work aims at exactly such a conceptualisation by exploring the interplay between his work for the different media
