Redemption And Utopia Jewish Libertarian Thought In Central Europe A Study In Elective Affinity:

Redemption and Utopia Michael Löwy, 2017-03-28 Towards the end of the nineteenth century there appeared in Central Europe a generation of Jewish intellectuals whose work was to transform modern culture Drawing at once on the traditions of German Romanticism and Jewish messianism their thought was organized around the cabalistic idea of the tikkoun redemption Redemption and Utopia uses the concept of elective affinity to explain the surprising community of spirit that existed between redemptive messianic religious thought and the wide variety of radical secular utopian beliefs held by this important group of intellectuals The author outlines the circumstances that produced this unusual combination of religious and non religious thought and illuminates the common assumptions that united such seemingly disparate figures as Martin Buber Franz Kafka Walter Benjamin and Georg Lukcs

Amiri Baraka Jerry Watts, 2001-08-01 Amiri Baraka formerly known as LeRoi Jones became known as one of the most militant anti white black nationalists of the 1960s Black Power movement An advocate of Black Cultural Nationalism Baraka supported the rejection of all things white and western He helped found and direct the influential Black Arts movement which sought to move black writers away from western aesthetic sensibilities and toward a more complete embrace of the black world Except perhaps for James Baldwin no single figure has had more of an impact on black intellectual and artistic life during the last forty years In this groundbreaking and comprehensive study the first to interweave Baraka s art and political activities Jerry Watts takes us from his early immersion in the New York scene through the most dynamic period in the life and work of this controversial figure Watts situates Baraka within the various worlds through which he travelled including Beat Bohemia Marxist Leninism and Black Nationalism In the process he convincingly demonstrates how the 25 years between Baraka s emergence in 1960 and his continued influence in the mid 1980s can also be read as a general commentary on the condition of black intellectuals during the same time Continually using Baraka as the focal point for a broader analysis Watts illustrates the link between Baraka s life and the lives of other black writers trying to realize their artistic ambitions and contrasts him with other key political intellectuals of the time In a chapter sure to prove controversial Watts links Baraka s famous misogyny to an attempt to bury his own homosexual past A work of extraordinary breadth Amira Baraka is a powerful portrait of one man s lifework

and the pivotal time it represents in African American history Informed by a wealth of original research it fills a crucial gap in the lively literature on black thought and history and will continue to be a touchstone work for some time to come **The**

Featuring the work of key scholars The Bloomsbury Companion to Anarchism will be an essential tool for both the scholar and the activist **Archaeology of the Unconscious** Alessandra Aloisi,Fabio Camilletti,2019-07-10 In reconstructing the birth and development of the notion of unconscious historians of ideas have heavily relied on the Freudian concept of Unbewussten retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany Archaeology of the Unconscious aims to challenge this perspective by adopting an unusual and thought provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI when Italo Svevo s *La coscienza di Zeno* provides Italy with the first example of a psychoanalytic novel Italy s vibrant culture of the long nineteenth century characterised by the sedimentation circulation intersection and synergy of different cultural philosophical and literary traditions proves itself to be a privileged object of inquiry for an archaeological study of the unconscious a study whose object is not the alleged origin of a pre made theoretical construct but rather the stratifications by which that specific construct was assembled In line with Michel Foucault s *Arch ologie du savoir* 1969 this volume will analyze the formation and the circulation across different authors and texts of a network of ideas and discourses on interconnected themes including dreams memory recollection desire imagination fantasy madness creativity inspiration magnetism and somnambulism Alongside questioning pre given narratives of the history of the unconscious this book will employ the Italian difference as a powerful perspective from whence to address the undeveloped potentialities of the pre Freudian unconscious beyond uniquely psychoanalytical viewpoints

Ethics and Social Survival Milton Fisk,2016-05-20 When speaking of society s role in ethics one tends to think of society as regimenting people through its customs Ethics and Social Survival rejects theories that treat ethics as having justification within itself and contends that ethics can have a grip on humans only if it serves their deep seated need to live together It takes a social survival view of ethical life and its norms by arguing that ethics looks to society not for regimentation by customs but rather for the viability of society Fisk traces this theme through the work of various philosophers and builds a

consideration of social divisions to show how rationalists fail to realize their aim of justifying ethical norms across divisions The book also explores the relation of power and authority to ethics without simply dismissing them as impediments and explains how personal values such as honesty modesty and self esteem still retain ethical importance Finally it shows that basing ethics on avoiding social collapse helps support familiar norms of liberty justice and democracy and strives to connect global and local ethics Nationalism, Zionism and Ethnic Mobilization of the Jews in 1900 and Beyond Michael

Berkowitz,2004-02-01 This volume engages diverse topics such as art music and radio broadcasting in the development of modern Jewish nationalism by leading scholars in their respective fields It contains richly detailed studies that challenge existing historiography from personal struggles with nationalism to the lesser known origins of the Balfour Declaration from boisterous demonstrations on the streets of pre World War I Galicia to skirmishes between Jews in present day Jerusalem It examines how nationalism has worked in theory and practice for Jews and at times been fiercely resisted Beginning with the memory of Theodor Herzl and his cohort at the London Zionist Congress of 1900 this book revisits the wider scene of Zionism s emergence as we explore the imagination of and the attempted national mobilization of Jewry throughout the twentieth century Contributors include Delphine Bechtel Nachman Ben Yehuda Michael Berkowitz Inka Bertz Philip Bohlman John M Efron Richard A Freund Francois Guesnet Michael L wy Barbara Mann Derek Penslar James Renton Aviel Roshwald Joshua Shanes With Freedom in Our Ears Anna Elena Torres,Kenyon Zimmer,2023-05-02 Jewish anarchism has long been

marginalized in histories of anarchist thought and action Anna Elena Torres and Kenyon Zimmer edit a collection of essays which recovers many aspects of this erased tradition Contributors bring to light the presence and persistence of Jewish anarchism throughout histories of radical labor women s studies political theory multilingual literature and ethnic studies These essays reveal an ongoing engagement with non Jewish radical cultures including the translation practices of the Jewish anarchist press Jewish anarchists drew from a matrix of secular cultural and religious influences inventing new anarchist forms that ranged from mystical individualism to militantly atheist revolutionary cells With Freedom in Our Ears brings together more than a dozen scholars and translators to write the first collaborative history of international multilingual and transdisciplinary Jewish anarchism **Religion and the Politics of Peace and Conflict** Linda Hogan,Dylan Lee

Lehrke,2009-01-01 The connections between religion and violence are complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This collection explores aspects of this ambivalence

between religion and violence. It focuses on traditions of legitimation and pacifism within the three monotheistic religions: Judaism, Christianity, and Islam, and concludes with an examination of this ambivalence as it unfolds in each tradition's engagement with the politics of gender.

Migrants in the Profane Peter E. Gordon, 2020-11-24

A beautifully written exploration of religion's role in a secular modern politics by an accomplished scholar of critical theory. *Migrants in the Profane* takes its title from an intriguing remark by Theodor W. Adorno in which he summarized the meaning of Walter Benjamin's image of a celebrated mechanical chess-playing Turk and its hidden religious animus: "Nothing of theological content will persist without being transformed; every content will have to put itself to the test of migrating in the realm of the secular, the profane." In this masterful book, Peter Gordon reflects on Adorno's statement and asks an urgent question: Can religion offer any normative resources for modern political life, or does the appeal to religious concepts stand in conflict with the idea of modern politics as a domain free from religion's influence? In answering this question, he explores the work of three of the Frankfurt School's most esteemed thinkers: Walter Benjamin, Max Horkheimer, and Theodor W. Adorno. His illuminating analysis offers a highly original account of the intertwined histories of religion and secular modernity.
