Redrawing Local Government Boundaries An International Study Of Politics Procedures And Decisions:

Redrawing Local Government Boundaries John Meligrana, 2004 Local governments today are under extreme pressure to undertake boundary reform. The global trend toward urbanization has brought with it economic, environmental, social, and regional demands that have severe implications for local governments and their territories. As a result, changing the areal jurisdiction of this most basic level of government has become a persistent and pressing challenge around the globe. This collection examines the legal and regulatory procedures involved in such municipal restructuring. Case studies from eight nations: the United States, Canada, Spain, Germany, Israel, Korea, China, and South Africa, investigate how and why local governments have been enlarged in scope and reduced in number within each country. Four key aspects are examined: the geography of the local government boundary problem, the procedures associated with boundary reform, the roles of institutions and actors in boundary reform, and the implications for urban and regional governance. **Redrawing Local Government Boundaries** offers a broad theoretical understanding of local government boundary reform and informs the wider scholarly discussion about institutional change, state structures, and the areal jurisdiction of local governments. The first international comparative study of local boundary reform, it will be a valuable reference for scholars and students of political science, public administration, geography, urban studies, and urban planning.

Local Government Reform Brian Dollery, Joseph Garcea, Edward C. LeSage, 2008-01-01 Written by an impressive array of experts, this book surveys local government reforms in six advanced democracies: federal and unitary, which share a municipal legacy: Australia, Canada, Ireland, New Zealand, the UK, and the US. The book has an excellent bibliography and will help open up a field heretofore noted for its insularity. Recommended. A J Ward Choice.

Municipal Boundary Battles Sandeep Agrawal, 2024-07-19 **Municipal Boundary Battles** explores the motivations, land use effects, and financial implications of municipal boundary adjustments across Canada, focusing mainly on annexations and amalgamations, the most frequent means to adjust boundaries and reform local governments in this country. With a focus on mid-size cities and small towns rather than major Canadian metropolitan areas, the authors uncover hidden motivations, untangle the scenes, political machinations, and document the resulting conflict. Through empirical evidence, case studies, and examples, the collection helps develop generalizations and inform best practices for municipal boundary adjustments and reform. The contributors explain how the esoteric aspects of adjustments work in more practical applications, offering political scientists, geographers, municipal officials, and planning practitioners fresh perspectives that contradict much of the prevailing understanding of boundary adjustments. Contributors: Sandeep Agrawal, Cody Gretzinger, John Heseltine, John Meligrana, Jordan Rea, Amrita Singh, Jon Taylor, Zack Taylor. Afterword by Andrew Sancton.

Local Government Reforms in Countries in Transition Frederick A. Lazin, Matt Evans, Vincent Hoffmann-Martinot, 2008-05-01 **Local Government Reforms in Countries in Transition** explores the impacts that the end of the Cold War and increased globalization have had on government around the world. The

decentralization of national governments has led to a greater role for local governments public administration and democratic representation are the new arena of local governments the world over Focusing not only on countries from the former Soviet Union but also on Israel China South Africa and Egypt the contributors to this volume present a truly global investigation of countries experiencing governmental transformation

Constitutional Law, Democracy and Development Douglas Karekoma Singiza, 2019-02-21 Uganda like many African countries in the 1990s adopted decentralisation as a state reform measure after many years of civil strife and political conflicts by transferring powers and functions to district councils The decision to transfer powers and functions to district councils was in the main linked to the quest for democracy and development within the broader context of the nation state This book's broader aim is to examine whether the legal and policy framework of decentralisation produces a system of governance that better serves the greater objectives of local democracy local development and accommodation of ethnicity Specifically the book pursues one main aim to examine whether indeed the existing legal framework ensures the smooth devolution process that is needed for decentralised governance to succeed In so doing the book seeks overall to offer lessons that are critically important not only for Uganda but any other developing nation that has adopted decentralisation as a state restructuring strategy The book uses a desk top research method by reviewing Uganda's decentralisation legal and policy frameworks

Metropolitan Governance Hubert Heinelt, Eran Razin, Karsten Zimmermann, 2011-05-09 As urban areas have grown and sprawl has spread in recent decades metropolitan governments around the world have begun to look beyond city borders establishing regional partnerships to help them deal with issues of transit resource use and more Metropolitan Governance examines this trend through a close comparative study of seven metropolitan areas in Israel and Germany While not neglecting the reasons behind these changes in governance the authors pay particular attention to their effects on and diminishing of democratic participation and accountability

Local Government in Europe Marta Lackowska, Katarzyna Szmigiel-Rawska, Filipe Teles, 2021-09-08 Drawing on classical and emerging research perspectives this comprehensive book provides an up to date review of local government in Europe Featuring an impressive range of contributors from both eastern and western Europe the book addresses three main topics territorial reforms democratic empowerment of citizens and the role of local leadership as well as new trends in local finances Acknowledging their inherent diversity the book examines the ways that local governments have responded to shared challenges such as climate change increasing populism and democratic deficit in order to identify both the variety and communalities between the country specific features In doing so it provides a rich picture of the latest trends in local government as well as pointing the way for future developments
