Redrawing Nations Ethnic Cleansing In East Central Europe 1944 1948:

Redrawing Nations Philipp Ther, Ana Siljak, 2001 After World War II some 12 million Germans 3 million Poles and Ukrainians and tens of thousands of Hungarians were expelled from their homes and forced to migrate to their supposed countries of origin Using freshly available materials from Polish Ukrainian Russian Czechoslovak German British and American archives the contributors to this book provide a sweeping detailed account of the turmoil caused by the huge wave of forced migration during the nascent Cold War The book also documents the deep and lasting political social and economic consequences of this traumatic time raising difficult questions about the effect of forced migration on postwar reconstruction the rise of Communism and the growing tensions between Western Europe and the Eastern bloc Those interested in European Cold War history will find this book indispensable for understanding the profound but hitherto little known upheavals caused by the massive ethnic cleansing that took place from 1944 to 1948

A History of Eastern Europe 1918 to the Present Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe's tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present

explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re emerged more virulent than ever This book is the essential textbook for any student of 20th century Eastern Europe

Women's Narratives and the Postmemory of Displacement in Central and Eastern Europe Simona Mitroiu, 2018-10-15 This volume explores the different mechanisms and forms of expression used by women to come to terms with the past focusing on the variety and complexity of women's narratives of displacement within the context of Central and Eastern Europe The first part addresses the quest for personal post memory from the perspective of the second and third generations The touching collaboration established in reconstructing individual and family post memories offers invaluable insights into the effects of displacement coping mechanisms and resilience Adopting the idea that the text itself becomes a site of post memory the second part of the volume brings into discussion different sites and develops further this topic in relation to the creative process and visual text The last part questions the past in relation to trauma and identity displacement in the countries where abusive regimes destroyed social bonds and had a lasting impact on the people's lives

The Lost German East Andrew Demshuk, 2012-04-30 A fifth of West Germany's post 1945 population consisted of ethnic German refugees expelled from Eastern Europe a quarter of whom came from Silesia As the richest territory lost inside Germany's interwar borders Silesia was a leading objective for territorial revisionists many of whom were themselves expellees The Lost German East examines how and why millions of Silesian expellees came to terms with the loss of their homeland Applying theories of memory and nostalgia as well as recent studies on ethnic cleansing Andrew Demshuk shows how over time most expellees came to recognize that the idealized world they mourned no longer existed Revising the traditional view that most of those expelled sought a restoration of prewar borders so they could return to the east Demshuk offers a new answer to the question of why after decades of violent upheaval peace and stability took root in West Germany during the tense early years of the Cold War

Orderly and Humane R. M. Douglas, 2012-06-26 The award winning history of 12 million German speaking civilians in

Europe who were driven from their homes after WWII a major achievement New Republic Immediately after the Second World War the victorious Allies authorized the forced relocation of ethnic Germans from their homes across central and southern Europe to Germany The numbers were almost unimaginable between 12 and 14 million civilians most of them women and children And the losses were horrifying at least five hundred thousand people and perhaps many more died while detained in former concentration camps locked in trains or after arriving in Germany malnourished and homeless In this authoritative and objective account historian R M Douglas examines an aspect of European history that few have wished to confront exploring how the forced migrations were conceived planned and executed and how their legacy reverberates throughout central Europe today The first comprehensive history of this immense manmade catastrophe Orderly and Humane is an important study of the largest recorded episode of what we now call ethnic cleansing It may also be the most significant untold story of the World War II

The Unsettling of Europe Peter Gatrell, 2019-08-27 An acclaimed historian examines postwar migration s fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of migration This is an urgent history that will reshape our understanding of modern Europe

The Legacy of the Cold War Wojtech Mastny, Zhu Liqun, 2013-12-16 The unexpected end of the protracted conflict has been a sobering experience for scholars No theory had anticipated how the Cold War would be terminated and none should also be relied upon to explicate its legacy But instead of relying on preconceived formulas to project past developments taking a historical perspective to explain their causes and consequences allows one to better understand trends and their long term significance The present book takes such perspective focusing on the evolution of security its substance as well as its perception the concurrent development of alliances and other cooperative structures for security and their effectiveness in managing conflicts In The Legacy of the Cold War Wojtech Mastny and Zhu Liqun bring together scholars to examine the worldwide effects of the Cold War on international security Focusing on regions where the Cold War made the most enduring impact the Euro Atlantic area and East Asia historians political scientists and international relations scholars explore alliances and other security measures during the Cold War and how they carry over into the twenty first century

The Vienna Summit and Its Importance in International History Günter Bischof, Stefan Karner, Barbara Stelzl-Marx, 2013-12-19 At the beginning of June 1961 the tensions of the Cold War were supposed to abate as both sides sought a resolution The two most important men in the world John F Kennedy and

Nikita Khrushchev met for a summit in Vienna Yet the high hopes were disappointed Within months the Cold War had become very hot Khrushchev built the Berlin Wall and a year later he sent missiles to Cuba to threaten the United States directly Despite the fact that the Vienna Summit yielded barely any tangible results it did lead to some very important developments The superpowers came to see for the first time that there was only one way to escape from the atomic hell of their respective arsenals dialogue The peace through fear and the hotline between Washington and Moscow prevented an atomic confrontation Austria successfully demonstrated its new role as neutral state and host when Vienna became a meeting place in the Cold War In The Vienna Summit and Its Importance in International History international experts use new Russian and Western sources to analyze what really happened during this critical time and why the parties had a close shave with catastrophe
